BILLING CODE 6717-01-P

FEDERAL COMMUNICATIONS COMMISSION

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: The Federal Communications Commission (FCC), as part of its continuing effort to reduce paperwork burdens, invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act (PRA) of 1995. Comments are requested concerning whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it

displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before November 15, 2013. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0221.

Title: Section 90.155, Time in Which Station Must Be Placed in Operation. *Form No.:* FCC Form 601.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, and State, Local or Tribal Government.

Number of Respondents and Responses: 490 respondents; 1,104 responses.

Estimated Time per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in 47 U.S.C. 154(i), 161, 303(r), 303(g), 332(c)(7), unless otherwise noted.

Total Annual Burden: 1,104 hours.

Annual Cost Burden: None.

Privacy Act Impact Assessment: None.

Nature and Extent of Confidentiality: There is no need for confidentiality with is collection of information.

Needs and Uses: Section 90.155(b) provides that a period longer than 12 months may be granted to local government entities to place their stations in operation on a case-by-case basis upon a showing of need. This rule provides flexibility to state and local governments. An application for extension of time to commence service may be made on FCC Form 601. Extensions of time must be filed prior to the expiration of the construction period. Extensions will be granted only if the licensee shows that the failure to commence service is due to causes beyond its control.

Section 90.155(d)—In 1995, via a *Report and Order* in PR Docket No.

93-61; FCC 95-41, published at 60 FR 15248, the Commission established construction deadlines for Location and Monitoring Service (LMS) licensees in the market-licensed multilateration LMS services. On July 8, 2004, the Commission adopted a *Report and Order* under WT Docket Nos. 02-381, 01-14, and 03-202; FCC 04-166, published at 69 FR 75144, that amended § 90.155(d) to provide holders of multilateration location service authorizations with five- and ten-year benchmarks to place in operation their base stations that utilize multilateration technology to provide multilateration location service to one-third of the Economic Area's (EA's) population within five years of initial license grant, and two-thirds of the population within ten years. At the five- and ten-year benchmarks, licensees are required to file a map and FCC Form 601 showing compliance with the coverage requirements pursuant to § 1.946 of the Commission's rules.

On January 31, 2007, via an *Order on Reconsideration, and Memorandum Opinion and Order*, under DA 07-479, the FCC granted two to three additional years to meet the five-year construction requirement for certain multilateration Location and Monitoring Service Economic Area licenses, and extended the 10-year requirement for such licenses two years.

These requirements will be used by Commission personnel to evaluate whether or not certain licensees are providing substantial service as a means of complying with their construction requirements, or have demonstrated that an extended period of time for construction is warranted.

Federal Communications Commission.

Marlene H. Dortch,

Secretary, Office of the Secretary, Office of Managing Director.
