SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a current information collection.

Owners of vessels that fish out of West Coast ports for highly migratory species such as tuna, billfish, and sharks are required to submit information about their intended and actual fishing activities. These submissions would allow the National Marine Fisheries Service (NMFS) and the Pacific Fishery

Management Council to monitor the fisheries and determine the effects and effectiveness of the Fishery Management Plan (FMP) for U.S. West Coast Fisheries for Highly Migratory Species (HMS). Pre-trip reporting requirements are essential for effectively and efficiently assigning available observer coverage to selected HMS vessels. Data collected by observers are critical to evaluating if the objectives of the FMP are being achieved and for evaluating the impacts of potential changes in management to respond to new information or new problems in the fisheries. Vessel Monitoring System (VMS) units will facilitate enforcement of closures associated with HMS fisheries and provide timely information on associated fleet activities.

II. Method of Collection

VMS activation information is submitted electronically and pre-trip notifications are made by telephone.

III. Data

OMB Control Number: 0648-0498.

Form Number(s): None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Business or other for-profit organizations.

Estimated Number of Respondents: 80.

Estimated Time per Response: Vessel monitoring system (VMS) activation reports, 15 minutes; pre-trip reports, 5 minutes.

Estimated Burden Hours: 60.

Estimated Total Annual Cost to Public: \$480 (VMS units and reporting are paid for by NMFS).

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.
