FARM CREDIT ADMINISTRATION

12 CFR Part 610

RIN 3052–AC78

Registration of Mortgage Loan Originators; Effective Date

AGENCY: Farm Credit Administration.

ACTION: Notice of effective date.

SUMMARY: The Farm Credit Administration (FCA) repealed its regulations that govern the registration of residential mortgage loan originators employed by Farm Credit System (FCS or System) institutions. We repealed these regulations because the Bureau of Consumer Financial Protection (CFPB), pursuant to its authority under the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act), is consolidating and recodifying the regulations that six Federal agencies jointly enacted to implement the Secure and Fair Enforcement for Mortgage Licensing Act (S.A.F.E. Act), which require residential mortgage loan originators at banks, savings

associations, credit unions, FCS institutions, and their subsidiaries to register with the National Mortgage Licensing System and Registry (NMLSR or Registry) and obtain a unique identifier. Repealing these regulations avoids duplication, which is likely to cause confusion at FCS institutions. The FCA received no comments on the interim rule, and we now adopt it as final. In accordance with the law, the effective date of the rule is 30 days from the date of publication in the **Federal Register** during which either or both Houses of Congress are in session.

DATES: *Effective Date:* Under the authority of 12 U.S.C. 2252, the regulation amending 12 CFR part 610 published on August 20, 2013 (78 FR 51046) is effective October 14, 2013.

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2013–0600; **Airspace Docket No. 13–ANM–18**]

Amendment of Class E Airspace; St. George, UT

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E airspace at St. George Municipal Airport, St. George, UT, by removing the operating hours established by a Notice to Airmen (NOTAM) due to the airport

changing from a part time to a full time facility. This improves the safety and management of Instrument Flight Rules (IFR) operations at the airport.

DATES: Effective date, 0901 UTC, December 12, 2013. The Director of the Federal Register approves this incorporation by reference action under 1 CFR Part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT:

Eldon Taylor, Federal Aviation Administration, Operations Support Group, Western Service Center, 1601 Lind Avenue SW., Renton, WA, 98057; telephone (425) 203–4537.

SUPPLEMENTARY INFORMATION:

History

On July 29, 2013, the FAA published in the **Federal Register** a notice of proposed rulemaking (NPRM) to amend controlled airspace at St. George, UT (78 FR 45473). Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class E airspace designations are published in paragraph 6002, of FAA Order 7400.9X dated August 7, 2013, and effective September 15, 2013, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in that Order.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) Part 71 by amending Class E surface airspace, at St. George Municipal Airport, St. George, UT. Due to increased air traffic, controlled airspace is now continuous 24 hours, no longer requiring a NOTAM. The boundaries of the controlled airspace area remain the same. This action enhances the safety and management of aircraft operations at St. George Municipal Airport.

The FAA has determined this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified this rule, when promulgated,
