

Information received through this nomination process, in addition to other relevant sources of information, will assist the Secretary in appointing members to ACCSH. In selecting ACCSH members, the Secretary will consider individuals nominated in response to this **Federal Register** notice, as well as other qualified individuals.

Instructions for submitting nominations: All nominations, supporting documents, attachments, and other materials must identify the Agency name and the docket number for this **Federal Register** notice (Docket No. OSHA–2013–0006). Submit materials electronically, by FAX, or by hard copy. You may supplement electronic submissions by attaching electronic files. If you supplement electronic submissions with hard-copy documents, submit the hard copy documents to the OSHA Docket Office and clearly identify the electronic submission by Agency name and docket number (Docket No. OSHA–2013–0006) so the Docket Office can attach the hard-copy documents to the appropriate electronic submission.

The OSHA Docket Office will post all submissions, including personal information provided, in the docket without change. Therefore, OSHA cautions interested parties about submitting personal information such as Social Security numbers and birthdates. Guidance on submitting nominations and supporting materials is available on-line at <http://www.regulations.gov> and from the OSHA Docket Office.

Access to docket: The <http://www.regulations.gov> index lists all submissions provided in response to this **Federal Register** notice; however, some information (e.g., copyrighted material) is not publicly available to read or download from that Web page. All submissions, including materials not available on-line, are available for inspection and copying at the OSHA Docket Office. For information about accessing materials in Docket No. OSHA–2013–0006, including materials not available on-line, contact the OSHA Docket Office.

Authority and Signature

David Michaels, Ph.D., MPH, Assistant Secretary of Labor for Occupational Safety and Health, authorized the preparation of this notice under the authority granted by 29 U.S.C. 656; 40 U.S.C. 3704; 5 U.S.C. App. 2; 29 CFR parts 1911 and 1912; 41 CFR part 102; and Secretary of Labor's Order No. 1–2012 (77 FR 3912, Jan. 25, 2012).

Signed at Washington, DC, on November 1, 2013.

David Michaels,

Assistant Secretary of Labor for Occupational Safety and Health.

BILLING CODE 4510–26–P

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (13–128)]

International Space Station Advisory Committee; Charter Renewal

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of renewal and amendment of the charter of the International Space Station Advisory Committee.

SUMMARY: Pursuant to sections 14(b)(1) and 9(c) of the Federal Advisory Committee Act (Pub. L. 92–463), and after consultation with the Committee Management Secretariat, General Services Administration, the NASA Administrator has determined that renewal and amendment of the charter of the International Space Station Advisory Committee is in the public interest in connection with the performance of duties imposed on NASA by law. The renewed charter is for a one-year period ending September 30, 2014. It is identical to the previous charter in all respects except with regard to information pertaining to tasking, travel funding, annual operating costs and membership.

FOR FURTHER INFORMATION CONTACT: Mr. Gregory A. Mann, Executive Secretary, International Space Station Advisory Committee, Office of International and Interagency Relations, NASA Headquarters, Washington, DC 20546; phone: 202–358–5140; email: gmann@nasa.gov.

Patricia D. Rausch,

Advisory Committee Management Officer, National Aeronautics and Space Administration.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice: (13–129)]

International Space Station National Laboratory Advisory Committee; Charter Renewal

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of renewal of the charter of the International Space Station National Laboratory Advisory Committee.

SUMMARY: Pursuant to sections 14(b)(1) and 9(c) of the Federal Advisory Committee Act (Pub. L. 92–463), and after consultation with the Committee Management Secretariat, General Services Administration, the NASA Administrator has determined that renewal of the charter of the International Space Station National Laboratory Advisory Committee is in the public interest in connection with the performance of duties imposed on NASA by law. The renewed charter is for a two-year period ending October 18, 2015. It is identical to the previous charter in all respects.

FOR FURTHER INFORMATION CONTACT: Ms. Marybeth A. Edeen, Executive Director, International Space Station National Laboratory Advisory Committee, NASA Johnson Space Center, Houston, TX; phone: 281–483–9122; email: marybeth.a.edeen@nasa.gov.

Patricia D. Rausch,

Advisory Committee Management Officer, National Aeronautics and Space Administration.

BILLING CODE 7510–13–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–237; 50–249; License Nos. DPR–19; DPR–25; EA–13–068; NRC–2013–0245]

In the Matter of Exelon Generation Company, LLC; Dresden Nuclear Power Station Confirmatory Order Modifying License

I

Exelon Generation Company, LLC (Exelon or the licensee) is the holder of Reactor Operating License Nos. DPR–19 and DPR–25 issued by the Nuclear Regulatory Commission (NRC or Commission) pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR) Part 50 on February 20, 1991, for Unit 2 and on January 12, 1971, for Unit 3. Both licenses were renewed on October 28, 2004. The licenses authorize the operation of the Dresden Nuclear Power Station (Dresden Station) in accordance with conditions specified therein.

This Confirmatory Order is the result of an agreement reached during an alternative dispute resolution (ADR) mediation session conducted on September 18, 2013.

II

On June 6, 2012, the U.S. Nuclear Regulatory Commission's Office of Investigations (OI), Region III Field Office, initiated an investigation to determine if a Senior Reactor Operator (SRO), an Equipment Operator (EO), or any other personnel at the Dresden Station knew that a SRO planned to commit an off-site crime and failed to report that SRO for aberrant behavior. The investigation was completed on March 29, 2013, and was documented in the OI Report No. 3–2012–020. At the time of this investigation, both the SROs, who plotted the off-site crime and the EO whom they were trying to recruit, had their site access revoked and all three employees were

subsequently terminated by the licensee. Based on the evidence developed during its investigation, the NRC identified an apparent violation of NRC requirements in Title 10 of the *Code of Federal Regulations*, Part 73, Sections 56(a)(2), 56(f)(1), and 56(f)(3) with multiple examples in that:

1. An EO, who had unescorted access to the Dresden Station, failed to report concerns to a supervisor regarding an observed change in behavior of two individuals who had unescorted access to the Dresden Station when the other individuals attempted to recruit him in their plans to commit a violent crime off-site.

2. A SRO, who had unescorted access to the Dresden Station, failed to report concerns to a supervisor regarding an observed change in behavior of another individual who had unescorted access to the Dresden Station when the other individual attempted to recruit him in his plans to commit a violent crime off-site.

3. A SRO, who had unescorted access to the Dresden Station, failed to report concerns to a supervisor regarding an observed change in behavior of another individual who had unescorted access to the Dresden Station when the other individual went along with his plans to commit a violent crime off-site.

4. An SRO, with unescorted access to the Dresden Station, failed to promptly contact a reviewing official upon learning of questionable behavior when the SRO was informed by two reactor operators about the questionable behavior of an EO.

On September 18, 2013, Exelon and the NRC met in an ADR session mediated by a professional mediator, arranged through Cornell University's Institute on Conflict Resolution. ADR is a process in which a neutral mediator with no decision-making authority assists the parties in reaching an agreement on resolving any differences regarding the dispute. This confirmatory order is issued pursuant to the agreement reached during the ADR process.

III

In response to the NRC's offer, Exelon requested use of the NRC's ADR process to resolve differences it had with the NRC. During that ADR session, a preliminary settlement agreement was reached. The elements of the agreement consisted of the following:

A. The licensee stated that it has completed the following actions, which are hereby acknowledged in the Confirmatory Order:

- Revised Exelon procedure SY-AA–103–513, “Behavioral Observation

Program” to indicate that the behavioral observation program includes an expectation to report offsite illegal activity;

- Conducted an Exelon-wide briefing of the issue and the expectation to report unusual behavior observed either on or offsite;

- Trained Dresden Station personnel of the changes to the procedure and the expectations for reporting aberrant offsite activities; and

- Verified that Dresden Station personnel understood the procedural requirements and guidance.

In addition, the licensee stated that the general employee training program, which is used at Exelon and at other reactor utilities, was revised to include guidance on reporting offsite aberrant activities.

B. Responsibility to Report Offsite Aberrant Behavior or Credible Information:

B.1. Within 90 days of the effective date of the Confirmatory Order, revise Exelon procedure SY-AA–103–513, “Behavioral Observation Program”: (1) to provide additional guidance on the types of offsite activities, if observed, or credible information that should be reported to reviewing officials, and (2) to ensure that procedural requirements to pass information forward without delay are clearly communicated.

B.2. Within 90 days of the revision to the procedure described in B.1., provide training to Exelon staff of the revision.

B.3. Within 18 months of the effective date of the Confirmatory Order, develop and conduct an effectiveness assessment of its revised procedure and of the general employee training to determine if Exelon personnel remain aware of the need to report observed offsite aberrant behavior or credible information.

B.4. These terms and conditions apply to the current Exelon fleet of operating reactors existing as of the date of the Confirmatory Order.

C. Recognition within Reactor Community:

Within 90 days of the effective date of the Confirmatory Order, Exelon will develop and make a presentation based on the facts and lessons learned from the events that gave rise to the Confirmatory Order. Exelon agrees to make this presentation at an appropriate industry forum and to submit an operating experience summary to an industry-wide organization. Exelon will make the presentation materials available to the onsite NRC resident inspectors at the Dresden Station.

D. Informing NRC when Actions Are Complete:

Unless otherwise specified, Exelon will submit written notification to the
