

Registration Materials

To ensure that workshop certificates are linked to the correct permits, participants will need to bring the following specific items with them to the workshop:

- Individual vessel owners must bring a copy of the appropriate swordfish and/or shark permit(s), a copy of the vessel registration or documentation, and proof of identification.
- Representatives of a business-owned or co-owned vessel must bring proof that the individual is an agent of the business (such as articles of incorporation), a copy of the applicable swordfish and/or shark permit(s), and proof of identification.
- Vessel operators must bring proof of identification.

Workshop Objectives

The Protected Species Safe Handling, Release, and Identification Workshops are designed to teach longline and gillnet fishermen the required techniques for the safe handling and release of entangled and/or hooked protected species, such as sea turtles, marine mammals, and smalltooth sawfish. In an effort to improve reporting, the proper identification of protected species will also be taught at these workshops. Additionally, individuals attending these workshops will gain a better understanding of the requirements for participating in these fisheries. The overall goal of these workshops is to provide participants with the skills needed to reduce the mortality of protected species, which may prevent additional regulations on these fisheries in the future.

ADDRESSES: The meetings will be held in the Boardroom at the American Institute of Architects, 1735 New York Avenue NW., Washington, DC 20006.

Please direct media inquiries to NTIA's Office of Public Affairs, (202) 482-7002; email press@ntia.doc.gov.

SUPPLEMENTARY INFORMATION:

Background: On February 23, 2012, the White House released *Consumer Data Privacy in a Networked World: A Framework for Protecting Privacy and Promoting Innovation in the Global Digital Economy* (the "Privacy Blueprint").¹ The Privacy Blueprint directs NTIA to convene multistakeholder processes to develop legally enforceable codes of conduct that specify how the Consumer Privacy Bill of Rights applies in specific business contexts.² On July 12, 2012, NTIA convened the first multistakeholder process, in which stakeholders developed a code of conduct to provide transparency in how companies providing applications and interactive services for mobile devices handle personal data.³ On December 3, 2013, NTIA announced that the goal of the second multistakeholder process is to develop a code of conduct to protect consumers' privacy and promote trust regarding facial recognition technology

in the commercial context.⁴ NTIA encourages stakeholders to address in the code all seven fair information practice principles enumerated in the Consumer Privacy Bill of Rights.

Matters to Be Considered: The February 6, 2014 meeting will be the first in a series of NTIA-convened multistakeholder discussions concerning facial recognition technology. Subsequent meetings will follow on February 25, 2014; March 25, 2014; April 8, 2014; April 29, 2014; May 20, 2014; June 3, 2014; and June 24, 2014. Stakeholders will engage in an open, transparent, consensus-driven process to develop a code of conduct regarding facial recognition technology.

The objective of the February 6, 2014, meeting is to convene a factual, stakeholder-driven dialogue regarding the technical capabilities and commercial uses of facial recognition technology. This dialogue will likely involve a series of discussion panels and Q&A sessions featuring knowledgeable stakeholders from industry, civil society, and academia. This first meeting is intended to provide stakeholders with factual background regarding how facial recognition technology is currently used by businesses, how the technology might be employed in the near future, and what privacy issues might be raised by the technology. NTIA will publish a draft agenda on December 20, 2013 and a final agenda on January 17, 2014.

The objectives of the February 25, 2014 meeting are: 1) Begin discussion among stakeholders concerning a code of conduct that sets forth privacy practices for facial recognition technology (this discussion may include circulation of straw-man drafts and discussion of the appropriate scope of a code); and 2) provide a venue for stakeholders to agree on the procedural work plan for the group (this might include establishing working groups, drafting procedures, and/or modifying the logistics of future meetings).

The March 25, 2014; April 8, 2014; April 29, 2014; May 20, 2014; June 3, 2014; and June 24, 2014 meetings are intended to serve as venues for stakeholders to discuss, draft, revise, and finalize a privacy code of conduct that sets forth privacy practices for facial recognition technology. NTIA suggests that stakeholders consider "freezing" the draft code of conduct after the June 24, 2014 meeting in order to facilitate external review of the draft.

Stakeholders would then likely reconvene the group in September to take account of external feedback. More information about stakeholders' work will be available at: <http://www.ntia.doc.gov/other-publication/2013/privacy-multistakeholder-process-facial-recognition-technology>.

Time and Date: NTIA will convene meetings of the privacy multistakeholder process regarding facial recognition technology on February 6, 2014; February 25, 2014; March 25, 2014; April 8, 2014; April 29, 2014; May 20, 2014; June 3, 2014; and June 24, 2014, from 1:00 p.m. to 5:00 p.m., Eastern Time. The meeting dates and times are subject to change. The meetings are subject to cancellation if stakeholders complete their work developing a code of conduct. Please refer to NTIA's Web site, <http://www.ntia.doc.gov/other-publication/2013/privacy-multistakeholder-process-facial-recognition-technology>, for the most current information.

Place: The meeting will be held in the Boardroom at the American Institute of Architects, 1735 New York Avenue NW., Washington, DC 20006. The location of the meetings is subject to change. Please refer to NTIA's Web site, <http://www.ntia.doc.gov/other-publication/2013/privacy-multistakeholder-process-facial-recognition-technology>, for the most current information.

Other Information: The meetings are open to the public and the press. The meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to John Verdi at (202) 482-8238 or jverdi@ntia.doc.gov at least seven (7) business days prior to each meeting. The meetings will also be webcast. Requests for real-time captioning of the webcast or other auxiliary aids should be directed to John Verdi at (202) 482-8238 or jverdi@ntia.doc.gov at least seven (7) business days prior to each meeting. There will be an opportunity for stakeholders viewing the webcast to participate remotely in the meetings through a moderated conference bridge, including polling functionality. Access details for the meetings are subject to change.
