Abstract: Our Regional Migratory Bird Permit Offices use information that we collect on permit applications to determine the eligibility of applicants for permits requested in accordance with the criteria in various Federal wildlife conservation laws and international treaties, including:

(1) Migratory Bird Treaty Act (16 U.S.C. 703 et seq.).

(2) Lacey Act (16 U.S.C. 3371 et seq.).

(3) Bald and Golden Eagle Protection Act (16 U.S.C. 668).

Service regulations implementing these statutes and treaties are in chapter I, subchapter B of title 50 of the Code of Federal Regulations (CFR). These regulations stipulate general and specific requirements that, when met, allow us to issue permits to authorize activities that are otherwise prohibited.

All Service permit applications are in the 3-200 series of forms, each tailored to a specific activity based on the requirements for specific types of permits. We collect standard identifier information for all permits. The information that we collect on applications and reports is the minimum necessary for us to determine if the applicant meets/continues to meet issuance requirements for the particular activity.

This ICR also includes the burden for permit applications and report forms for long-term eagle take permits that is currently approved under OMB Control Number 1018-0151. Once OMB takes action on this IC, we will discontinue OMB Control No. 1018-0151.

Comments Received and Our Responses

On November 13, 2013, we published in the **Federal Register** (78 FR 68086) a notice of our intent to request that OMB renew approval for this information collection. In that notice, we solicited comments for 60 days, ending on January 13, 2014. We received one comment from the American Bird Conservancy (ABC).

The commenter stressed that while "there are ways that the quality, utility and clarity of the information to be collected can be enhanced and ways that a system can be streamlined to minimize burden of the collection of information on respondents. . .," he emphasized that "the minimum amount of information to be collected must allow the USFWS to make a valid determination that the proposed action is permissible under the law.

Information regarding impact on wild populations, proposed use of the specimens, and explanations of necessary mitigation/compensation, when required are thus critical for allowing the USFWS to do its important job of protecting our public trust resources for the benefit of all."

We appreciate ABC's comments because they recognize the importance of collecting sufficient information from applicants and permittees to ensure that the applicant qualifies for the permit, that issuance of the permit meets

issuance criteria, and that report information is sufficient to allow both enforcement of the permits, and, particularly where wild birds are concerned, that the report information collected contributes to our knowledge of the impacts of utilities and other entities on migratory birds, including eagles.

A significant change we are making is to convert the report form for Special Purpose Utility permits (3–202–17) from paper to electronic format. These permits allow utilities such as electric, wind, and solar companies to collect birds found dead on their property. The data will be housed in the Avian Injury/Mortality Reporting System (AIMRS). Our goal is to make reporting more convenient for permittees, but electronic submission will be particularly beneficial for the Service, because it will make the data accessible for analysis without staff having to enter it manually. This will make the data on this important source of mortality readily available to biologists who are monitoring the impacts of incidental take and working with industry to identify best practices to reduce those impacts.

Request for Public Comments

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Availability of Public Comments

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. Land Acquisitions; Mechoopda Indian Tribe of Chico Rancheria of California

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of Final Agency Determination; Technical Correction.

SUMMARY: This document makes a technical correction to the acreage estimate and the land description contained in the notice published on Wednesday, February 5, 2014, 79 FR 6917. The notice concerns the final agency determination to acquire approximately 626.55 acres of land in trust for the Mechoopda Indian Tribe of Chico Rancheria of California for gaming and other purposes.

FOR FURTHER INFORMATION CONTACT:

Paula L. Hart, Director, Office of Indian Gaming, Bureau of Indian Affairs, MS–3657 MIB, 1849 C Street NW., Washington, DC 20240; Telephone (202) 219–4066.

SUPPLEMENTARY INFORMATION: On January 24, 2014, the Assistant Secretary—Indian Affairs issued a final agency determination to acquire approximately 626.55 acres of land in trust for the Mechoopda Indian Tribe of Chico Rancheria of California (Tribe) for gaming and other purposes. Notice of the January 24, 2014 final agency determination was published in the **Federal Register** on February 5, 2014, 79 FR 6917. The **Federal Register** Notice published on February 5, 2014, did not reflect an estimate that had been prepared by the Bureau of Land Management using the Geographic Information Systems (GIS) model. This technical correction does not change the footprint of the acquisition published on February 5, 2014, it merely provides a more accurate estimate of the total acreage within the boundaries of the January 24, 2014 final agency determination. The **Federal Register** Notice published on February 5, 2014, is now clarified to reflect the GIS model estimate of approximately 631 acres.

Furthermore, the land description in the February 5, 2014, notice is correct, but has been amended by the Bureau of Indian Affairs to eliminate unnecessary

or duplicative information. On pages 6917 and 6918 of the February 5, 2014, **Federal Register**, the land description is amended to read as follows:

Parcel I

All that portion of the east half of the northeast quarter of Section 1, Township 20 North, Range 2 East, M.D.B. & M., lying easterly of U.S. Highway 99E.

Excepting therefrom that portion thereof, heretofore conveyed to the State of California by deed recorded July 27, 1951, in Book 575, Page 326, Official Records, recorded October 9, 1974, in Book 1944, Page 64, Official Records and October 9, 1974, in Book 1944, Page 68, Official Records.

Parcel II

The north half of the northwest quarter, the southwest quarter of the northwest quarter and the northwest quarter of the southwest quarter of Section 5, and all that portion of Section 6 lying northeasterly of the Oroville Chico Highway, all in Township 20 North, Range 3 East, M.D.B. & M.

Excepting therefrom said Section 6, that portion conveyed to the State of California by Deed recorded July 27, 1951 in Book 575, Page 326, Official Records.

Also excepting therefrom that portion conveyed to the State of California by Deed recorded October 9, 1974, in Book 1944, Page 64, Official Records.

APN 041–190–048–00 (PARCEL I) and APN 041–190–045–000 (PARCEL II).
