A notice in the **Federal Register** about last minute modifications that impact a previously announced advisory committee meeting cannot always be published quickly enough to provide timely notice. Therefore, you should always check the Agency's Web site at <http://www.fda.gov/AdvisoryCommittees/default.htm> and scroll down to the appropriate advisory committee meeting link, or call the advisory committee information line to learn about possible modifications before coming to the meeting.

**Agenda:** On February 26, 2014, the committee will meet to discuss whether over-the-counter (OTC) bronchodilators administered by hand-held rubber bulb nebulizers for the temporary relief of mild symptoms of intermittent asthma (shortness of breath, tightness of chest, and wheezing) should be removed from the monograph. Specific drugs to be discussed include epinephrine, epinephrine bitartrate, and racepinephrine hydrochloride (21 CFR 341.16).

FDA intends to make background material available to the public no later than 2 business days before the meeting. If FDA is unable to post the background material on its Web site prior to the meeting, the background material will be made publicly available at the location of the advisory committee meeting, and the background material will be posted on FDA's Web site after the meeting. Background material is available at <http://www.fda.gov/AdvisoryCommittees/Calendar/default.htm>. Scroll down to the appropriate advisory committee meeting link.

**Procedure:** Interested persons may present data, information, or views, orally or in writing, on issues pending before the committee. Written submissions may be made to the contact person on or before February 10, 2014. Oral presentations from the public will be scheduled between approximately 10:15 a.m. and 11:15 a.m. Those individuals interested in making formal oral presentations should notify the contact person and submit a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time

requested to make their presentation on or before January 31, 2014. Time allotted for each presentation may be limited. If the number of registrants requesting to speak is greater than can be reasonably accommodated during the scheduled open public hearing session, FDA may conduct a lottery to determine the speakers for the scheduled open public hearing session. The contact person will notify interested persons regarding their request to speak by February 3, 2014.

Persons attending FDA's advisory committee meetings are advised that the Agency is not responsible for providing access to electrical outlets.

FDA welcomes the attendance of the public at its advisory committee meetings and will make every effort to accommodate persons with physical disabilities or special needs. If you require special accommodations due to a disability, please contact Glendolynn S. Johnson at least 7 days in advance of the meeting.

FDA is committed to the orderly conduct of its advisory committee meetings. Please visit our Web site at <http://www.fda.gov/AdvisoryCommittees/AboutAdvisoryCommittees/ucm111462.htm> for procedures on public conduct during advisory committee meetings.

Notice of this meeting is given under the Federal Advisory Committee Act (5 U.S.C. app. 2).

Dated: January 3, 2014.

**Agenda:** The committees will discuss data submitted by Armstrong Pharmaceuticals, Inc., to support a new drug application (NDA) 205920, for over-the-counter (OTC) marketing of epinephrine inhalation aerosol 125 microgram (mcg)/actuation (proposed trade name Primatene HFA), for temporary relief of mild symptoms of intermittent asthma for consumers 12 years of age and older. The epinephrine inhaler was developed as a replacement for Primatene Mist (epinephrine metered inhaler 200 mcg/actuation), an OTC product that was phased out in December 2011 because of the use of chlorofluorocarbons as the propellant. The committee will be asked to consider whether the data support an acceptable risk/benefit profile of the epinephrine inhaler for use by OTC consumers.
