SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulations (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following:

- (i) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (ii) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) How to enhance the quality, utility, and clarity of the information to be collected; and

(iv) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

In compliance with these requirements, NHTSA asks public comment on the following proposed collection of information:

Title: 49 CFR 571.125, Warning Devices.

Type of Request: Extension of a currently approved collection.

OMB Control Number: 2157-0506.

Affected Public: Businesses or other for profit organizations.

Abstract: 49 U.S.C. 30111, 30112 and 30117 of the National Traffic and Motor Vehicle Safety Act of 1996 as amended ("the Safety Act"), authorized the issuance of Federal Motor Vehicle Safety Standards (FMVSS). The Secretary is authorized to issue, amend, and revoke such rules and regulations as she/he deems necessary. Using this authority, the agency issued FMVSS No. 125, "Warning Devices" (Appendix 2) which applies to devices, without self-contained energy sources, that are designed to be carried mandatory in buses and trucks that have a Gross Vehicle Weight Rating (GVWR) greater than 10,000 pounds and voluntarily in other vehicles. These devices are used to warn approaching traffic of the presence of a stopped vehicle, except for devices designed to be permanently affixed to the vehicles.

Estimated Annual Burden: 1 hour.

Number of respondents: 3.

David M. Hines,

Director, Office of Crash Avoidance Standards.

FOR FURTHER INFORMATION CONTACT: Complete copies of each request for

collection of information may be obtained at no charge from Deborah Mazyck, NHTSA, 1200 New Jersey Ave. SE., Room W43-443, NVS-131, Washington, DC 20590. Ms. Mazyck's telephone number is (202) 366-4139. Please identify the relevant collection of information by referring to its OMB Control Number.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995, before an agency submits a proposed collection of information to OMB for approval, it must first publish a document in the **Federal Register** providing a 60-day comment period and otherwise consult with members of the public and affected agencies concerning each proposed collection of information. The OMB has promulgated regulations describing what must be included in such a document. Under OMB's regulation (at 5 CFR 1320.8(d)), an agency must ask for public comment on the following:

(i.) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii.) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii.) How to enhance the quality, utility, and clarity of the information to be collected and;

(iv.) How to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses.

In compliance with these requirements, NHTSA asks for public comments on the following proposed collections of information:

Title: Automobile Parts Content Labeling for 49 CFR Part 583.

OMB Control Number: 2127-0573.

Form Number: The collection of this information uses no standard form.

Affected Public: Vehicle manufacturers.

Requested Expiration Date of Approval: Three years from approval date.

Abstract: 49 CFR part 583 establishes requirements for the disclosure of information relating to the countries of origin of the equipment of new passenger motor vehicles. This information will be used by NHTSA to determine whether manufacturers are complying with the American

Automobile Labeling Act (49 U.S.C. 32304). The American Automobile Labeling Act requires all new passenger motor vehicles (including passenger cars, certain small buses, all light trucks and multipurpose passenger vehicles with a gross vehicle weight rating of 8,500 pounds or less), to bear labels providing information about domestic and foreign content of their equipment. The labels, which are affixed to new passenger motor vehicles, serve as an aid to potential purchasers in the selection of new passenger motor vehicles by providing them with information about the value of the U.S./Canadian and foreign parts of each vehicle, the countries of origin of the engine and transmission, and the site of the vehicle's final assembly.

Estimated Annual Burden: NHTSA anticipates approximately 21 vehicle manufacturers will be affected by these reporting requirements. NHTSA does not believe that any of these 21 manufacturers are a small business (i.e., one that employs less than 500 persons) since each manufacturer employs more than 500 persons. Manufacturers of new passenger motor vehicles, including passenger cars, certain small buses, and light trucks with a gross vehicle weight rating of 8,500 pounds or less, must file a report annually.

NHTSA estimates that the vehicle manufacturers will incur a total reporting annual hour burden and cost burden of 52,962 hours and \$2,439,108, respectively. The amount includes annual burden hours incurred by multi-stage manufacturers and motor vehicle equipment suppliers.

Number of Respondents: 21.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Director, Office of Crash Avoidance Standards.
