SUPPLEMENTARY INFORMATION:

National Highway Traffic Safety Administration

Title: 49 CFR 575—Consumer Information Regulations (sections 103 and 105) Qualitative Research.

OMB Number: Not Assigned.

Type of Request: Request for public comment on collection of information request.

Abstract: The Energy Independence and Security Act of 2007, enacted in December 2007, included a requirement that the National Highway Traffic Safety Administration (NHTSA) develop a consumer information and education campaign to improve consumer understanding of automobile performance with regard to fuel economy, Greenhouse Gas emissions and other pollutant emissions; of automobile use of alternative fuels; and of thermal management technologies used on automobiles to save fuel. A critical step in developing the consumer education program is to conduct proper market research to understand consumers' knowledge surrounding these issues, evaluate potential consumer-facing messages in terms of clarity and understand the communications channels through which these messages should be presented. The research will allow NHTSA to refine messaging to enhance comprehension and usefulness and will guide the development of an effective communications plan and education program. NHTSA proposes a multi-phased research project to gather the data and apply analyses and results from the project to develop the consumer information program and education campaign materials.

Affected Public: Passenger vehicle consumers.

Estimated Total Annual Burden: 108 hours.

ADDRESSES: Send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street NW., Washington, DC 20503, Attention NHTSA Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. A Comment to OMB is most effective if OMB receives it within 30 days of publication.

Issued in Washington, DC, on March 13, 2014.

John Donaldson,

Senior Associate Administrator (Acting), Policy and Operations.
