Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 1 respondent; 2 responses.

Estimated Time per Response: 200 hours.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. 151, 154, 201-205, 215, and 218-220.

Total Annual Burden: 400 hours.

Total Annual Cost: No cost.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: The information is not of a confidential nature. Respondents who believe that certain information to be of a proprietary nature may solicit confidential treatment in accordance with 47 CFR 0.459 of the Commission's rules.

Needs and Uses: Section 64.901 requires carriers to separate their regulated costs from nonregulated costs using the attributable cost method of cost allocation. Carriers must follow the principles described in section 64.901. Carriers subject to section 64.901 are also subject to the provisions of 47 CFR 32.23 and 32.27 of the Commission's rules. Section 64.903(a) requires each local exchange carrier with annual operating revenues that equal or exceed the indexed revenue threshold, as defined in 47 CFR 32.9000, to file with the Commission a manual containing information regarding its allocation of costs between regulated and non-regulated activities. Section 64.903(b) requires that carriers update their cost allocation manuals (CAMs) at least annually; except that changes to the cost apportionment table and the description of time reporting procedures must be filed at the time of implementation. Proposed changes in the description of time reporting procedures, the statement concerning affiliate transactions, and

the cost apportionment table must be accompanied by a statement quantifying the impact of each change on regulated operations. Changes in the description of time reporting procedures and the statement concerning affiliate transactions must be quantified in \$100,000 increments at the account level. Changes in the cost apportionment table must be quantified in \$100,000 increments at the cost pool level. Moreover, filing of CAMs and occasional updates are subject to the uniform format and standard procedures specified in Responsible Accounting Officer (RAO) Letter 19. RAO Letter 26 provides guidance to carriers in revising their CAMs to reflect changes to the affiliate transactions rules pursuant to the Accounting Safeguards Order (FCC 96-490). The CAM is reviewed by the Commission to ensure that all costs are properly classified between regulated and nonregulated activity. Uniformity in the CAMs helps improve the joint cost allocation process. In addition, this uniformity gives the Commission greater reliability in financial data submitted by the carriers through the Automated Reporting Management Information System (ARMIS). In a *Memorandum Opinion and Order* in WC Docket No. 07-21 (FCC 08-120) the Commission forbore from many of its cost allocation rules as they apply to the former Bell Operating Companies. As reflected in the May 2011 update to this information collection, this decreased the number of respondents affected by the requirements of these rule sections. We are not changing the number of respondents with this submission.

FEDERAL COMMUNICATIONS COMMISSION

[GN Docket No. 12-268; DA 14-389]

Media Bureau Seeks Comment on Widely Report and Catalog of Potential Expenses and Estimated Costs

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this Public Notice, the Federal Communications Commission (Commission) seeks comment on a Report and Catalog produced by a third-party contractor, Widely Inc.

(Widely), that describes the process and costs associated with the post-Incentive Auction transition. In order to disburse money from the \$1.75 billion TV Broadcaster Relocation Fund within the limitations of the Spectrum Act, the Commission seeks further comment on the Report and the Catalog, including both the categories of costs and the prices suggested by Widely. The record obtained in response to the Public Notice will help develop a final Catalog of Eligible Expenses and other reimbursement provisions that govern disbursement from the Fund to broadcasters and MVPDs in the post-Incentive Auction transition.

DATES: Comments are due on or before April 21, 2014 and reply comments are due on or before May 6, 2014.

ADDRESSES: All filings must be addressed to the Commission's Secretary, Office of the Secretary, Federal Communications Commission, 445 12th Street SW., Washington, DC 20554. Commercial overnight mail (other than U.S. Postal Service Express Mail and Priority Mail) must be sent to 9300 East Hampton Drive, Capitol Heights, MD 20743. U.S. Postal Service first-class, Express, and Priority mail must be addressed to 445 12th Street SW., Washington DC 20554. Parties shall also serve one copy with the Commission's copy contractor, Best Copy and Printing, Inc. (BCPI), Portals II, 445 12th Street SW., Room CY-B402, Washington, DC 20554, (202) 488-5300, or via email to fcc@bcpiweb.com.

FOR FURTHER INFORMATION CONTACT: Mary Margaret Jackson, 202-418-3641, Pamela Gallant, 202-418-0614, or Kim Matthews, 202-418-2154.

SUPPLEMENTARY INFORMATION: The Commission engaged Widely to aid the Commission in understanding the process and costs associated with the post-Incentive Auction transition. Widely has produced a Report, "Response to the Federal Communications Commission for the Broadcasters Transition Study Solicitation" along with a "Catalog of Potential Expenses and Estimated Costs." In producing both of these items, Widely conducted confidential interviews of a broad range of industry players, including TV broadcast group engineers, radiofrequency and structural engineers, suppliers, support companies, manufacturers, attorneys, and network engineers. The Report recognizes that the post-Incentive Auction repacking process will be complex, but concludes that, with cooperation, patience, creative problem solving, and guidance from the Commission and industry groups, the

transition can be achieved with the desired outcomes. The Catalog, a prior version of which was released in September 2013, now includes Widelity's suggested prices, or range of suggested prices, for many Catalog items. Widelity developed the suggested prices by conducting confidential interviews with buyers and sellers of equipment and services with direct knowledge of pricing. The Commission had no role in the development of the suggested prices. The suggested prices are estimates only and are not meant to indicate that reimbursement will reflect the suggested prices. The Media Bureau seeks additional input from interested parties on the Report and the Catalog, including on the suggested prices, as well as any further comments on the categories of costs included. A final Catalog of Eligible Expenses and Estimated Costs will be released prior to the auction.
