Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks to PRA approval for a modification to the Radiation Sampling and Exposure Records information collection. Specifically, Form MSHA-9000-4, "Record of Individual Exposure to Radon Daughters," is being clarified to reflect that a mine operator's response is mandatory. Data elements would remain unchanged.

Regulations 30 CFR 57.5040 requires a mine operator to calculate and record individual exposures to radon daughters on Form MSHA-4000-9 or equivalent forms acceptable to the MSHA. The calculations are based on the results of weekly sampling required by 30 CFR 57.5037. Records must be maintained by the operator and submitted annually to the MSHA. The sampling and recordkeeping requirement alerts the mine operator and the MSHA to possible failure in the radon daughter control system and permits timely appropriate corrective action. Data submitted to the MSHA is intended to establish a means by which the MSHA can assure compliance with underground radiation standards and to assure that miners can, on written request, have records of cumulative exposures made available to them or their estate, and to medical and legal representatives who have obtained written authorization. Mine Safety and Health Act section 103(h), 30 U.S.C. 813(h), authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0003. The current approval is scheduled to expire on June 30, 2014; however, the DOL notes that existing information collection

requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on December 27, 2013 (78 FR 79009).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within 30 days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219–0003. The OMB is particularly interested in comments that:
