Total Estimated Number of Annual Burden Hours: 636.

Abstract: The National Center for Education Statistics (NCES), within the Institute of Education Sciences (IES) of the U.S. Department of Education (ED), is seeking approval to conduct in 2014, 2015, and 2016 the annual, Web-based State of Preschool survey, which centralizes data about publicly provided early childhood education opportunities. Data are collected from state agencies responsible for providing early childhood education and made available for secondary analyses. Data collected as part of the survey focus on enrollment counts in state-funded early

childhood education programs, funding provided by the states for these programs, and program monitoring and licensing policies. The collected data are then reported, both separately and in combination with extant data available from federal agencies supporting early childhood education programs such as Head Start and the U.S. Census Bureau. Data from the U.S. Census Bureau form the basis for some of the rates developed for the State of Preschool reports. The data and annual report resulting from the State of Preschool data collection provide a key information resource for research and for federal and state policy on publicly funded early childhood education.
