

been modified to account for natural changes along the southern edge of the Intracoastal Waterway. The coincident boundaries between Units T08P and TX-06P and between Units T08P and T08 have been adjusted to account for natural changes along certain channels within the wetlands on the landward side of Matagorda Island, along the edge of the wetlands behind Matagorda Island and San Jose Island, and along the shoreline of the barrier. An historic inlet at Cedar Bayou between San Jose Island and Matagorda Island that has closed since the map was last updated has been reclassified from T08P (an otherwise protected area) to T08 (a System unit).

T11, T11P: SOUTH PADRE ISLAND UNIT. The coincident boundary between Units T11 and T11P has been modified in some places to better follow a break between the Laguna Madre and South Padre Island that is visible on the base imagery.

T12: BOCA CHICA UNIT. Portions of the boundary of the unit have been modified to account for natural changes to the wetland/fastland interface as visible on the base imagery. The northern boundary of the unit has been modified to account for natural changes to the shoreline. Two narrow strips that were not included in the original unit were added to the southwestern portion of the unit. These strips include both wetlands and fastlands that are not connected to the mainland and are part of the barrier system. The boundary along the mouth of the Rio Grande has been moved northward to account for erosion of the barrier on the U.S. side of the river and accretion of the barrier on the Mexico side.

T12P: BOCA CHICA UNIT. Portions of the western boundary of the southern segment of the unit have been modified to reflect natural changes to the wetland/fastland interface as visible on the base imagery.

TX-02P: MCFADDIN UNIT. The boundary of the unit has been modified to reflect natural changes to the southern edge of the Intracoastal Waterway and to the northern shoreline of Star Lake.

TX-04, TX-04P: SWAN LAKE UNIT. The coincident boundary between the units has been generalized due to the erosion of the underlying barrier feature in Swan Lake that it was originally following. The landward boundary of both units has been modified to reflect natural changes in the wetland/fastland interface and the shoreline.

TX-06P: MATAGORDA ISLAND UNIT. The landward boundary of most of the unit has been modified to account for natural changes along the southern edge of the Intracoastal Waterway. The coincident boundaries between Units TX-06P and T08P and between Units TX-06P and T08 at the southern end of the unit have also been modified due to natural changes along certain channels within the wetlands on the landward side of Matagorda Island.

TX-09: COON ISLAND BAY UNIT. Portions of the landward boundary of the unit have been modified to account for natural changes to the wetland/fastland interface and the shoreline.

TX-10: SHELL BEACH UNIT. Portions of the landward boundary of the unit have been modified to account for natural changes to

the wetland/fastland interface. An area of wetlands along the northern lateral boundary was added to the unit.

TX-15P: MUSTANG ISLAND UNIT. Portions of the southern boundary of the unit located to the northwest of Packery Channel Park have been modified to account for natural changes to the wetland/fastland interface. Another portion of the southern part of the boundary has been adjusted to the western edge of Packery Channel.

TX-17, TX-17P: SHAMROCK ISLAND UNIT. The coincident boundary between TX-17 and TX-17P has been generalized and straightened, because Shamrock Island has eroded significantly and in some places there is no longer a feature for the boundary to follow. The southern boundary of both units has been moved slightly southward to account for accretion at the south end of Shamrock Island.

TX-19: STARVATION POINT UNIT. The landward boundary of the unit has been modified to account for the eroding shoreline and natural changes to the wetland/fastland interface. The boundary has been modified to include the entire sand-sharing system of the barrier feature around Starvation Point in the unit.

TX-21: KLEBERG POINT UNIT. The landward boundary of the unit has been modified to account for the eroding shoreline and changes to the wetland/fastland interface. The boundary has been modified to include the entire sand-sharing system of the barrier feature around Kleberg Point in the unit.

Availability of Final Maps and Related Information

The final revised maps dated December 6, 2013, and digital boundary data can be accessed and downloaded from the Service's Web site: <http://www.fws.gov/CBRA>. The digital boundary data are available for reference purposes only. The digital boundaries are best viewed using the base imagery to which the boundaries were drawn; this information is printed in the title block of the maps. The Service is not responsible for any misuse or misinterpretation of the digital boundary data.

Interested parties may also contact the Service individual identified in the **FOR FURTHER INFORMATION CONTACT** section above to make arrangements to view the final maps at the Service's Headquarters office. Interested parties who are unable to access the maps via the Service's Web site or at the Service's Headquarters office may contact the Service individual identified in the **FOR FURTHER INFORMATION CONTACT** section above, and reasonable accommodations will be made to ensure the individual's ability to view the maps.

Gary Frazer,

Assistant Director for Ecological Services.

BILLING CODE 4310-55-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[LLCAD01000 L12200000.AL 0000]

Meeting of the California Desert District Advisory Council

SUMMARY: Notice is hereby given, in accordance with Public Laws 92-463 and 94-579, that the California Desert District Advisory Council (DAC) to the Bureau of Land Management (BLM), U.S. Department of the Interior, will participate in a field tour of BLM-administered public lands on Friday, May 9, 2014, from 8:30 a.m. to 4:30 p.m. and will meet in formal session on Saturday, May 10, 2014, from 8:00 a.m. to 4:30 p.m. in Needles, CA. The location of the Saturday public meeting is yet to be determined. Agenda for the Saturday meeting will include updates by council members, the BLM California Desert District Manager, five Field Managers, and Council Subgroups. Final agenda items for the field trip, the public meeting, and meeting location will be posted on the DAC Web page at <http://www.blm.gov/ca/st/en/info/rac/dac.html> when finalized.

SUPPLEMENTARY INFORMATION: All DAC meetings are open to the public. Public comment for items not on the agenda will be scheduled at the beginning of the meeting Saturday morning. Time for public comment may be made available by the Council Chairman during the presentation of various agenda items, and is scheduled at the end of the meeting for topics on the agenda.

While the Saturday meeting is tentatively scheduled from 8:00 a.m. to 4:30 p.m., the meeting could conclude prior to 4:30 p.m. should the council conclude its presentations and discussions. Therefore, members of the public interested in a particular agenda item or discussion should schedule their arrival accordingly.

Written comments may be filed in advance of the meeting for the California Desert District Advisory Council, c/o Bureau of Land Management, External Affairs, 22835 Calle San Juan de Los Lagos, Moreno Valley, CA 92553. Written comments also are accepted at the time of the meeting and, if copies are provided to the recorder, will be incorporated into the minutes.

FOR FURTHER INFORMATION CONTACT: Stephen Razo, BLM California Desert District External Affairs, (951) 697-5217.

Dated: April 3, 2014.

Teresa A. Raml,

California Desert District Manager.

BILLING CODE P

DEPARTMENT OF THE INTERIOR

National Park Service

[NPS-WASO-CR-14624; PPWOCRADIO, PCU00RP14.R50000]

Proposed Information Collection; Procedures for State, Tribal, and Local Government Historic Preservation Programs

AGENCY: National Park Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (National Park Service) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the Paperwork Reduction Act of 1995 and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public; State, Tribal, and local government partners; and, other Federal agencies to take this opportunity to comment on this IC. This IC is scheduled to expire on August 31, 2014. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: To ensure that we are able to consider your comments on this IC, we must receive them by June 16, 2014.

ADDRESSES: Send your comments on the IC to Madonna L. Baucum, Information Collection Clearance Officer, National Park Service, 1849 C Street NW. (2601), Washington, DC 20240 (mail); or madonna_baucum@nps.gov (email). Please include "1024-0238" in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this IC, contact John Renaud, National Park Service, 1849 C Street NW. (2601), Washington, DC 20240 (mail); John_Renaud@nps.gov (email); or at (202) 371-1794 (fax).

SUPPLEMENTARY INFORMATION:

I. Abstract

These information collection requirements impact State, tribal, and local governments that wish to participate formally in the National Historic Preservation Partnership (NHPP) Program, and State and tribal governments that wish to apply for Historic Preservation Fund (HPF) grants.

The National Historic Preservation Act, as amended, (16 U.S.C. 470 *et seq.*) established these programs. Implementing regulations at 36 CFR part 61 detail the processes for approval of State and tribal programs, the certification of local governments, and the monitoring and evaluation of State and certified local government programs. We developed the information collection requirements associated with 36 CFR part 61 in consultation with State, tribal, and local government partners.

We use the information to ensure compliance with the National Historic Preservation Act as well as Governmentwide grant requirements and Department of the Interior regulations at 43 CFR part 12. This information collection also produces performance data that we use to assess program effectiveness.

II. Data

OMB Control Number: 1024-0038.

Title: Procedures for State, Tribal, and Local Government Historic Preservation Programs; 36 CFR 61.

Service Form Number(s): None.

Type of Request: Revision of a currently approved collection.

Description of Respondents: State, Tribal, and local governments.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: Annually or on occasion.

Estimated Number of Respondents: 2,081 (59 States, territories, and the District of Columbia; 155 tribes; and 1,867 certified local governments).

Estimated Number of Annual Responses: 57,003.

Completion Time per Response: Varies from 10 minutes to 625 hours, depending on activity.

Estimated Annual Burden Hours: 55,823.

Estimated Annual Nonhour Cost Burden: \$345,000, primarily for photocopying, mailing, office supplies, travel expenses, etc.

III. Comments

We invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this IC. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: April 11, 2014.

Madonna L. Baucum,

Information Collection Clearance Officer, National Park Service.

Notice of Inventory Completion: Texas A&M University, College Station, TX

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: Texas A&M University has completed an inventory of human remains, in consultation with the appropriate Indian tribes or Native Hawaiian organizations, and has determined that there is a cultural affiliation between the human remains and present-day Indian tribes or Native Hawaiian organizations. Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request to Texas A&M University. If no additional requestors come forward, transfer of control of the human remains to the lineal descendants, Indian tribes, or Native Hawaiian organizations stated in this notice may proceed.

DATES: Lineal descendants or representatives of any Indian tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to Texas A&M University at the address in this notice by May 19, 2014.
