

- Increasing the size of secondary clarifiers; and
- Damping peak flows to biological-based secondary units by providing flow equalization (i.e. storage) prior to the biological-based secondary unit either at the plant or before flows get to the plant.

These options may temporarily decrease treatment efficiencies for the biological-based secondary treatment units and may have limited applicability to biological nutrient removal processes. As a result, there are limitations on the variation in flow volumes and influent strength that biological-based secondary treatment units can accommodate.

Many POTW treatment plants have been designed with primary treatment capacity that is significantly greater than the biological-based secondary treatment capacity. These plants typically provide screening and primary clarification of all flows entering the plant. In order to protect biological-based secondary treatment units during wet weather events, flows that exceed the capacity of the biological-based secondary treatment units are diverted around the biological-based secondary treatment units after they receive primary treatment. At some treatment facilities diverted flows are disinfected and discharged directly to a surface water from a separate outfall. Other facilities blend the diverted flows with flows that receive biological-based secondary treatment and discharge the combined flow after it has been disinfected. Some facilities provide some additional treatment of the diverted flows while other facilities provide no additional treatment, other than disinfection.

Operators of treatment facilities have several design and operational options that can be used to increase pollutant removals during high flow conditions, including:

- Adding chemicals to the primary treatment process that increase solids removals;
- Providing additional primary treatment capacity, thereby lowering overflow rates in the facility's primary treatment units;
- Providing structural changes to primary treatment units, such as the installation of lamella settlers;
- Providing supplemental side stream physical/chemical treatment units, such as high rate clarification systems or fine screen systems, to provide supplemental treatment to flows that are diverted around biological-based secondary treatment units.

EPA is particularly interested in the relative risks associated with pathogens, sediments, nutrients, pharmaceuticals,

toxics and other contaminants that may be discharged under blending scenarios.

EPA is seeking nominations of public health experts to participate at a forum to discuss these issues. The experts should be nationally recognized in the fields of evaluating the risks associated with various levels of water quality and/or of effluent from wastewater treatment plants. EPA, in consultation with key stakeholders, will identify wastewater treatment plant design and operation experts to serve as advisors to the public health forum participants. EPA is soliciting nominations for these experts as part of this **Federal Register** notice.

After EPA selects the participants it will provide the participants with more detailed information to read prior to the forum and will provide specific questions on which participants will be asked to provide input.

II. Purpose of Public Health Experts' Forum

The purpose of this forum is to enlist public health experts from federal agencies, local health departments and academia in an effort to ensure that EPA has appropriate health-based information associated with different engineering options available to address wet weather blending at POTWs served by separate sanitary sewers. EPA does not intend that this meeting be a forum for debating the application of the Agency's bypass regulation at 40 CFR 122.41(m) going forward. Rather, this forum is solely concerned with the potential public health impacts of blended discharges from POTWs.

Further, it is not EPA's objective during the forum to establish consensus among the parties or to obtain a collective set of recommendations. Rather, it is EPA's intention to obtain individual input from knowledgeable experts so that the Agency can better understand the differences and commonalities among the individual recommendations. In this regard, EPA has determined that this workshop is not subject to the requirements of the Federal Advisory Committee Act, 5 U.S.C. Appendix 2.

III. Additional Information on the Forum

EPA plans to schedule the forum in June, 2014. Information regarding the date and location of the forum, along with other logistics information, when available, will be posted at www.epa.gov/npdes/peakflowsforum.

Members of the public are invited to participate as observers in the forum as capacity allows. Additional details concerning the participation of observers will be posted on this Web

page when the location and time of the forum is set.

Authority: Clean Water Act, 33 U.S.C. 1251 et seq.

Dated: April 9, 2014.

Andrew D. Sawyers,

Director, Office of Wastewater Management.

Pesticide Products; Registration Applications for New Active Ingredients

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received several applications to register pesticide products containing active ingredients not included in any currently registered pesticide products. Pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), EPA is hereby providing notice of receipt and opportunity to comment on these applications.

DATES: Comments must be received on or before May 19, 2014.

ADDRESSES: Submit your comments, identified by docket identification (ID) number and the EPA File Symbol of interest as shown in the body of this document, by one of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

- *Mail:* OPP Docket, Environmental Protection Agency Docket Center (EPA/DC), (28221T), 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001.

- *Hand Delivery:* To make special arrangements for hand delivery or delivery of boxed information, please follow the instructions at <http://www.epa.gov/dockets/contacts.html>.

Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <http://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT: Robert McNally, Biopesticides and Pollution Prevention Division (BPPD) (7511P), email address:

BPPDFRNotices@epa.gov or Lois Rossi, Registration Division (RD) (7505P), email address: RDFRNotices@epa.gov; main telephone number: (703) 305-7090; mailing address: Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001. As part of the mailing address, include the contact person's name, division, and mail code.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. The following list of North American Industrial Classification System (NAICS) codes is not intended to be exhaustive, but rather provides a guide to help readers determine whether this document applies to them. Potentially affected entities may include:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.

iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

iv. Describe any assumptions and provide any technical information and/or data that you used.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Registration Applications

EPA has received several applications to register pesticide products containing active ingredients not included in any currently registered pesticide products. Pursuant to the provisions of FIFRA section 3(c)(4), EPA is hereby providing notice of receipt and opportunity to comment on these applications. Notice of receipt of these applications does not imply a decision by the Agency on these applications. For actions being evaluated under the Agency's public participation process for registration actions, there will generally be an additional opportunity for a public comment period on the proposed decision. Please see the Agency's public participation Web site for additional information on this process (<http://www.epa.gov/pesticides/regulating/registration-public-involvement.html>). EPA received the following applications to register pesticide products containing an active ingredient not included in any currently registered products:

1. *EPA File Symbols:* 352-ION, 352-IOR, and 352-IOE. *Docket ID Number:* EPA-HQ-OPP-2014-0114. *Applicant:* E.I. du Pont de Nemours & Company, 1007 Market St., Wilmington, DE 19898. *Active ingredient:* Oxathiapiprolin. *Product Type:* Fungicide. *Proposed Uses:* Imported grapes; root and tuber vegetables, tuberous and corm vegetables (crop subgroup 1C); bulb vegetables, onion, bulb (crop subgroup 3-07A); bulb vegetables, onion, green (crop subgroup 3-07B); fruiting vegetables (crop group 8-10); cucurbit vegetables (crop group 9); *Brassica* (cole) leafy vegetables, head and stem *Brassica* (crop subgroup 5A); leafy vegetables (except *Brassica* vegetables), leafy greens (crop subgroup 4A); peas, edible podded; peas, succulent, shelled; ginseng, root; and establish a Guideline Reference Level (GRL) for residues of

oxathiapiprolin in or on tobacco, dried leaves. (RD).

2. *EPA File Symbols:* 100-RLGE and 100-RLGG. *Docket ID Number:* EPA-HQ-OPP-2014-0114. *Applicant:* Syngenta Crop Protection, LLC, 410 Swing Rd., P.O. Box 18300, Greensboro, NC 27419. *Active ingredient:* Oxathiapiprolin. *Product Type:* Fungicide. *Proposed Uses:* Turf and ornamentals. (RD).

3. *EPA File Symbol:* 69553-A. *Docket ID Number:* EPA-HQ-OPP-2014-0154. *Applicant:* SciReg, Inc., 12733 Director's Loop, Woodbridge, VA 22192 (on behalf of Andermatt Biocontrol AG, Stahlermatten 6 CH-6146, Grossdietwil, Switzerland). *Active ingredient:* *Autographa californica* multiple nucleopolyhedrovirus strain FV #11. *Product Type:* Insecticide. *Proposed Uses:* For control of cabbage looper larvae (*Trichoplusia ni*) in or on root and tuber vegetables; leafy vegetables; brassica (cole) leafy vegetables; legume vegetables; fruiting vegetables; cucurbit vegetables; watercress; cotton; tobacco; peanut; flowers and/or ornamentals in open agricultural fields, in greenhouses, and/or in residential areas. (BPPD).

4. *EPA File Symbol:* 69553-E. *Docket ID Number:* EPA-HQ-OPP-2014-0151. *Applicant:* SciReg, Inc., 12733 Director's Loop, Woodbridge, VA 22192 (on behalf of Andermatt Biocontrol AG, Stahlermatten 6 CH-6146, Grossdietwil, Switzerland). *Active ingredient:* *Helicoverpa armigera* nucleopolyhedrovirus strain BV-0003. *Product Type:* Insecticide. *Proposed Uses:* For control of corn earworm, tobacco budworm, and African cotton bollworm in or on root and tuber vegetables; bulb vegetables; leafy vegetables; brassica (cole) leafy vegetables; legume vegetables; fruiting vegetables; cucurbit vegetables; berries; cotton; tobacco; peanut; flowers and/or ornamentals in open agricultural fields, in greenhouses, and/or in residential areas. (BPPD).

5. *EPA File Symbol:* 69553-U. *Docket ID Number:* EPA-HQ-OPP-2014-0152. *Applicant:* SciReg, Inc., 12733 Director's Loop, Woodbridge, VA 22192 (on behalf of Andermatt Biocontrol AG, Stahlermatten 6 CH-6146, Grossdietwil, Switzerland). *Active ingredient:* *Spodoptera exigua* multinucleopolyhedrovirus strain BV-0004. *Product Type:* Insecticide. *Proposed Uses:* For control of Beet armyworm (*Spodoptera exigua*) in or on root and tuber vegetables; bulb vegetables; leafy vegetables; brassica (cole) leafy vegetables; legume vegetables; fruiting vegetables; cucurbit vegetables; berries; cotton; tobacco; peanut; flowers and/or ornamentals in

open agricultural fields, in greenhouses, and/or in residential areas. (BPPD).

6. *EPA File Symbols*: 84059-RO and 84059-EN. *Docket ID Number*: EPA-HQ-OPP-2014-0003. *Applicant*: Marrone Bio Innovations, 2121 Second St., Suite B-107, Davis, CA 95618. *Active ingredient*: Sarmentine. *Product Type*: Herbicide. *Proposed Uses*: Non-food uses. (BPPD).

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2009-1017; FRL-9909-30]

Product Cancellation Order for Certain Pesticide Registrations; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; correction.

SUMMARY: EPA issued a notice in the **Federal Register** of November 20, 2013, and March 13, 2014, concerning receipt of requests to voluntarily cancel certain pesticide registrations and its follow-up cancellation order, respectively. In both notices, EPA inadvertently listed the pesticide product Treflan H.F.P. (EPA Reg. No. MN-100004). The registrant had previously withdrawn the requested voluntary cancellation for this product. Therefore, EPA is not cancelling the pesticide product Treflan H.F.P. (EPA Reg. No. MN-100004). This document removes the cancellation order for Treflan H.F.P. (EPA Reg. No. MN-100004) listed in both the November 20, 2013, and March 13, 2014, **Federal Register** notices.

FOR FURTHER INFORMATION CONTACT: John W. Pates, Jr., Pesticide Re-Evaluation Division (7508P), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; telephone number: (703) 308-8195; email address: pates.john@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

The Agency included in the **Federal Register** notices of November 20, 2013 (78 FR 69666) (FRL 9902-40) and March 13, 2014 (79 FR 14247) (FRL 9905-37)

a list of those who may be potentially affected by this action.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2009-1017, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), EPA West Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC 20460-0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OPP Docket is (703) 305-5805. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

II. What does this correction do?

EPA issued a notice in the **Federal Register** of November 20, 2013, and March 13, 2014, concerning receipt of requests to voluntarily cancel certain pesticide registrations and its follow-up cancellation order, respectively. In both notices, EPA listed the pesticide product Treflan H.F.P. (EPA Reg. No. MN-100004). However, soon after the registrant requested voluntary cancellation, the registrant notified the Agency on June 21, 2013, that it chose to withdraw the request for pesticide product Treflan H.F.P. (EPA Reg. No. MN-100004), since it had been mistakenly submitted. Therefore, EPA is not cancelling the pesticide product Treflan H.F.P. (EPA Reg. No. MN-100004). Herein this document, due to the inadvertent listing by EPA, the Agency is removing the cancellation order for Treflan H.F.P. (EPA Reg. No. MN-100004) listed in both the November 20, 2013, and March 13, 2014, **Federal Register** notices.

List of Subjects

Environmental protection, Pesticides and pests.

[FRL-9909-69-Region-4; EPA-R04-OW-2013-0745]

Public Water System Supervision Program Revision for the State of Alabama

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of tentative approval.

SUMMARY: Notice is hereby given that the State of Alabama is revising its approved Public Water System Supervision Program. Alabama has adopted the following rule: Ground Water Rule. The EPA has determined that Alabama's rule is no less stringent than the corresponding federal regulation. Therefore, the EPA is tentatively approving this revision to the State of Alabama's Public Water System Supervision Program.

DATES: Any interested person may request a public hearing. A request for a public hearing must be submitted by May 19, 2014, to the Regional Administrator at the EPA Region 4 address shown below. The Regional Administrator may deny frivolous or insubstantial requests for a hearing. However, if a substantial request for a public hearing is made by May 19, 2014, a public hearing will be held. If no timely and appropriate request for a hearing is received and the Regional Administrator does not elect to hold a hearing on her own motion, this tentative approval shall become final and effective on May 19, 2014. Any request for a public hearing shall include the following information: The name, address, and telephone number of the individual, organization, or other entity requesting a hearing; a brief statement of the requesting person's interest in the Regional Administrator's determination and a brief statement of the information that the requesting person intends to submit at such hearing; and the signature of the individual making the request, or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

ADDRESSES: All documents relating to this determination are available for inspection between the hours of 8:30 a.m. and 4:30 p.m., Monday through Friday, at the following offices: Alabama Department of Environmental Management, Water Division, 1400 Coliseum Boulevard, Montgomery, Alabama 36110; and the U.S. Environmental Protection Agency,
