Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

- 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

- 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9X, Airspace Designations and Reporting Points, dated August 7, 2013, effective September 15, 2013, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

ASO AL E5 Geneva, AL [New]

Geneva Municipal Airport, AL
(Lat. 31°03'09" N., long. 85°52'08" W.)

That airspace extending upward from 700 feet above the surface within a 7.3-mile radius of Geneva Municipal Airport.

Issued in College Park, Georgia, on April 14, 2014.

Myron A. Jenkins,

Manager, Operations Support Group, Eastern Service Center, Air Traffic Organization.

BILLING CODE 4910–13–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2013–0932; Airspace
Docket No. 13–ASO–24]

Establishment of Class E Airspace; Nashville, TN

AGENCY: Federal Aviation
Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E Airspace at Nashville, TN, to accommodate a new Area Navigation

(RNAV) Global Positioning System (GPS) Standard Instrument Approach Procedure (SIAP) serving Nashville International Airport. This action enhances the safety and management of Instrument Flight Rules (IFR) operations at the airport.

DATES: Effective 0901 UTC, July 24, 2014. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

FOR FURTHER INFORMATION CONTACT: John Fornito, Operations Support Group, Eastern Service Center, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 305–6364.

SUPPLEMENTARY INFORMATION:

History

On February 12, 2014, the FAA published in the **Federal Register** a notice of proposed rulemaking to establish Class E airspace at Nashville, TN (79 FR 8367) Docket No. FAA–2013–0932. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received. Class E airspace designations are published in paragraph 6003 of FAA Order 7400.9X dated August 7, 2013, and effective September 15, 2013, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 establishes the Class E airspace as an extension to a Class C surface area at Nashville, TN, providing the controlled airspace required to support the new RNAV (GPS) standard instrument approach procedures for Nashville International Airport. Accordingly, a segment of controlled airspace would extend from the 5-mile radius of the airport to 11.7-miles south of the airport, and a segment would extend from the 5-mile radius of the airport to 8.9 miles southwest of the airport. This action provides for the safety and management of IFR operations at the airport. Also, an editorial change is made to the Class E airspace designation 6003 title to include wording omitted in the NPRM.

The FAA has determined that this regulation only involves an established body of technical regulations for which

frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore, (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes controlled airspace at Nashville International Airport, Nashville, TN. Except for the editorial change stated above, this rule is the same as published in the NPRM.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1E, “Environmental Impacts: Policies and Procedures,” paragraph 311a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g); 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9X, Airspace Designations and Reporting Points, dated August 7, 2013, effective September 15, 2013, is amended as follows:

Paragraph 6003 Class E Airspace Designated as an Extension to a Class C Surface Area.

* * * * *

ASO TN E3 Nashville, TN [New]

Nashville International Airport, TN
(Lat. 36°07'31" N., long. 86°40'35" W.)

Nashville VORTAC
(Lat. 36°07'62" N., long. 86°40'95" W.)

That airspace extending upward from the surface extending from the 5-mile radius of Nashville International Airport to an 11.7-mile radius southeast of the airport, from the Nashville VORTAC 161° radial clockwise to the 195° radial, and to an 8.9-mile radius southwest of the airport from the 195° radial of the VORTAC clockwise to the 231° radial of the VORTAC.

Issued in College Park, Georgia, on April 14, 2014.

Myron A. Jenkins,

Manager, Operations Support Group, Eastern Service Center, Air Traffic Organization.

BILLING CODE 4910–13–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R08–OAR–2013–0801; FRL–9907–58–Region 8]

Approval and Promulgation of Air Quality Implementation Plans; Colorado; Prevention of Significant Deterioration; Greenhouse Gas Tailoring Rule Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving revisions and additions to the Colorado State Implementation Plan (SIP) submitted by the Colorado Department of Public

Health and the Environment (CDPHE) to EPA on May 25, 2011. The SIP revision to Colorado Regulation Number 3 and the Common Provisions Regulation addresses the permitting of sources of greenhouse gases (GHGs). Specifically, we are approving revisions to portions of Parts A, B and D of Regulation Number 3 to incorporate the provisions of EPA's 2010 Prevention of Significant Deterioration (PSD) and Title V Greenhouse Gas Tailoring Rule. The SIP revisions establish emission thresholds for determining which new stationary sources and modifications to existing stationary sources become subject to Colorado's PSD permitting requirements for their GHG emissions. EPA is approving the May 25, 2011 SIP revision to the Colorado PSD permitting program as being consistent with federal requirements for PSD permitting. EPA is also approving several grammar and punctuation changes to Regulation Number 3 made by the State and included in the May 25, 2011 submittal. EPA is finalizing this action under section 110 and part C of the Clean Air Act (the Act or CAA).

DATES: This final rule is effective May 27, 2014.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA–R08–OAR–2013–0801. All documents in the docket are listed in the www.regulations.gov index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available either electronically in

www.regulations.gov or in hard copy at the Air Program, Environmental Protection Agency (EPA), Region 8, 1595 Wynkoop St., Denver, Colorado 80202–1129. EPA requests that if at all possible, you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view the hard copy of the docket. You may view the hard copy of the docket Monday through Friday, 8:00 a.m. to 4:00 p.m., excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: Jody Ostendorf, Air Program, Mailcode 8P–AR, Environmental Protection Agency (EPA), Region 8, 1595 Wynkoop St., Denver, Colorado 80202–1129, (303) 312–7814, ostendorf.jody@epa.gov.

SUPPLEMENTARY INFORMATION:

Definitions

For the purpose of this document, the following definitions apply:

(i) The words or initials *Act* or *CAA* mean or refer to the federal Clean Air Act, unless the context indicates otherwise.

(ii) The initials *CDPHE* mean or refer to the Colorado Department of Public Health and the Environment.

(iii) The words *EPA*, *we*, *us* or *our* mean or refer to the United States Environmental Protection Agency.

(iv) The initials *GHG* mean or refer to Greenhouse Gas.

(v) The initials *NSR* mean or refer to New Source Review.

(vi) The initials *PSD* mean or refer to Prevention of Significant Deterioration.

(vii) The initials *SIP* mean or refer to State Implementation Plan.

(viii) The words *State* or *CO* mean the State of Colorado, unless the context indicates otherwise.

Table of Contents

- I. Background for Our Final Action
- II. What final action is EPA taking?
- III. Statutory and Executive Orders Review

I. Background for Our Final Action

The May 25, 2011 SIP submittal includes PSD permitting provisions that establish (1) GHG as a regulated pollutant under the PSD program, and (2) emission thresholds for determining which new stationary sources and modification projects become subject to Colorado's PSD permitting requirements for their GHG emissions consistent with EPA's GHG Tailoring Rule. The background for today's final rule and EPA's national actions pertaining to GHGs is discussed in detail in our proposal (see 79 FR 2144, January 13, 2014). The comment period was open for 30 days and we received no written comments.

II. What final action is EPA taking?

Colorado has adopted and submitted regulations that are substantively similar to the federal requirements for the permitting of GHG-emitting sources subject to PSD. EPA is approving the May 25, 2011 submittal for incorporation into the SIP. The submitted revisions establish thresholds for determining which stationary sources and modification projects become subject to permitting requirements for GHG emissions under Colorado's New Source Review (NSR) PSD program. Specifically, EPA is approving revisions to Regulation Number 3 Parts A, B and D and the Common Provisions Regulation. EPA has determined that these May 25, 2011 revisions are approvable into Colorado's SIP because they are consistent with the requirements of 40 CFR 51.166, in particular requirements set out in EPA's final GHG Tailoring Rule.
