DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[MMAA104000]

Outer Continental Shelf (OCS), Scientific Committee

AGENCY: Bureau of Ocean Energy Management (BOEM), Interior.

ACTION: Notice of Vacancies and Request for Nominations.

SUMMARY: BOEM is seeking interested and qualified individuals to serve on its OCS Scientific Committee (Committee) during the period of October 15, 2014, through October 14, 2017. The initial 3-year term may be renewable for up to an additional 3 years. The Committee is chartered under the Federal Advisory Committee Act (FACA) to advise the Secretary of the Interior, through the Director of BOEM, on the scientific quality and value for decisionmaking of the OCS Environmental Studies Program (ESP). The ESP, which was authorized by the Outer Continental Shelf Land Act as amended (Section 20), is administered by BOEM and covers a wide range of field and laboratory studies in biology, chemistry, and physical oceanography, as well as studies of the social and economic impacts of OCS energy and marine minerals development.

As a FACA committee, the Committee provides advice from vetted, consensus-oriented, experts that are more focused and technically deeper than public hearings typically can provide. The recognized expertise and diverse associations of the Committee members also help BOEM build partnerships and optimize resources.

The OCS Scientific Committee comprises distinguished scientists in appropriate disciplines of the biological, physical, chemical and social sciences. We will have 15 positions to fill on the Committee by October 14, 2014. These positions exist in the fields of economics, physical oceanography, and biological oceanography/marine biology. We are interested in scientists who have experience in those disciplines, and we also look for geographical balance, drawing members from the contiguous United States, Alaska, and Hawaii.

The selections are based on maintaining disciplinary expertise in all areas of research, as well as geographic balance. Demonstrated knowledge of the scientific issues related to OCS energy and mineral development is essential. Selections are made by the Secretary of the Interior on the basis of these factors.

Ethics Responsibilities of Members:

All members will comply with applicable rules and regulations. The Department of the Interior will provide materials to those members appointed as Special Government Employees explaining their ethical obligations with which the members should be familiar. Consistent with the ethics requirements, members will endeavor to avoid any actions that would cause the public to question the integrity of the Committee's operations, activities or advice. The provisions of this paragraph do not affect any other statutory or regulatory ethical obligations to which a member may be subject.

Interested individuals should send a letter of interest and resume within 30 days to: Ms. Phyllis Clark, Bureau of Ocean Energy Management, Division of Environmental Studies, 381 Elden Street, Mail Stop HM–3115, Herndon, Virginia 20170. She may be reached by telephone at (703) 787–1716.

Authority: Federal Advisory Committee Act, Public Law 92–463, 5 U.S.C., Appendix I, and the Office of Management and Budget's Circular A–63, Revised.

Dated: April 14, 2014.

William Y. Brown,

Chief Environmental Officer, Office of Environmental Programs.

Bureau of Reclamation

[RR83550000, 145R5065C6, RX.59389832.1009676]

Quarterly Status Report of Water Service, Repayment, and Other Water-Related Contract Actions

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice.

SUMMARY: Notice is hereby given of contractual actions that have been proposed to the Bureau of Reclamation (Reclamation) and are new, discontinued, or completed since the last publication of this notice. This notice is one of a variety of means used to inform the public about proposed contractual actions for capital recovery and management of project resources and facilities consistent with section 9(f) of the Reclamation Project Act of 1939. Additional announcements of individual contract actions may be published in the **Federal Register** and in newspapers of general circulation in the areas determined by Reclamation to be affected by the proposed action.

ADDRESSES: The identity of the approving officer and other information pertaining to a specific contract proposal may be obtained by calling or writing the appropriate regional office at the address and telephone number given for each region in the **SUPPLEMENTARY INFORMATION** section.

FOR FURTHER INFORMATION CONTACT:

Michelle Kelly, Reclamation Law Administration Division, Bureau of Reclamation, P.O. Box 25007, Denver, Colorado 80225-0007; telephone 303-445-2888.

SUPPLEMENTARY INFORMATION: Consistent with section 9(f) of the Reclamation Project Act of 1939, and the rules and regulations published in 52 FR 11954, April 13, 1987 (43 CFR 426.22), Reclamation will publish notice of proposed or amendatory contract actions for any contract for the delivery of project water for authorized uses in newspapers of general circulation in the affected area at least 60 days prior to contract execution. Announcements may be in the form of news releases, legal notices, official letters, memorandums, or other forms of written material. Meetings, workshops, and/or hearings may also be used, as appropriate, to provide local publicity. The public participation procedures do not apply to proposed contracts for the sale of surplus or interim irrigation water for a term of 1 year or less. Either of the contracting parties may invite the public to observe contract proceedings. All public participation procedures will be coordinated with those involved in complying with the National Environmental Policy Act. Pursuant to the "Final Revised Public Participation Procedures" for water resource-related contract negotiations, published in 47 FR 7763, February 22, 1982, a tabulation is provided of all proposed contractual actions in each of the five Reclamation regions. When contract negotiations are completed, and prior to execution, each proposed contract form must be approved by the Secretary of the Interior, or pursuant to delegated or redelegated authority, the Commissioner of Reclamation or one of the regional directors. In some instances, congressional review and approval of a report, water rate, or other terms and conditions of the contract may be involved.

Public participation in and receipt of comments on contract proposals will be facilitated by adherence to the following procedures:

1. Only persons authorized to act on behalf of the contracting entities may negotiate the terms and conditions of a specific contract proposal.

2. Advance notice of meetings or hearings will be furnished to those parties that have made a timely written request for such notice to the appropriate regional or project office of Reclamation.

3. Written correspondence regarding proposed contracts may be made available to the general public pursuant to the terms and procedures of the Freedom of Information Act, as amended.

4. Written comments on a proposed contract or contract action must be submitted to the appropriate regional officials at the locations and within the time limits set forth in the advance public notices.

5. All written comments received and testimony presented at any public hearings will be reviewed and summarized by the appropriate regional office for use by the contract approving authority.

6. Copies of specific proposed contracts may be obtained from the appropriate regional director or his or her designated public contact as they become available for review and comment.

7. In the event modifications are made in the form of a proposed contract, the appropriate regional director shall determine whether republication of the notice and/or extension of the comment period is necessary.

Factors considered in making such a determination shall include, but are not limited to, (i) the significance of the modification, and (ii) the degree of public interest which has been expressed over the course of the negotiations. At a minimum, the regional director will furnish revised contracts to all parties who requested the contract in response to the initial public notice.
