Foreign-Trade Zones Board

[B-37-2014]

Foreign-Trade Zone (FTZ) 183—Austin, Texas, Notification of Proposed Production Activity, Samsung Austin Semiconductor, L.L.C., Subzone 183B (Semiconductors), Austin, Texas

Samsung Austin Semiconductor, L.L.C. (Samsung) submitted a notification of proposed production activity to the FTZ Board for its facility in Austin, Texas within Subzone 183B. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on April 28, 2014.

Samsung already has authority to produce semiconductor memory devices for export within Subzone 183B. The current request would add foreign status materials/components to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials/components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Export production under FTZ procedures could exempt Samsung from customs duty payments on the foreign status materials/components noted below and in the existing scope of authority. Customs duties also could possibly be deferred or reduced on foreign status production equipment.

The materials/components sourced from abroad include: copper sulfate and hexachlorosilane (duty rate ranges from 1.4 to 3.7%).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is June 23, 2014.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW.,

Washington, DC 20230-0002, and in the "Reading Room" section of the Board's Web site, which is accessible via www.trade.gov/ftz.

Frontseating Service Valves From the People's Republic of China: Final Results of Sunset Review and Revocation of Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On March 3, 2014, the Department of Commerce ("the Department") initiated the sunset review of the antidumping duty order on frontseating service valves from the People's Republic of China ("PRC").¹ Because no domestic interested party filed a notice of intent to participate in response to the *Initiation Notice* by the applicable deadline, the Department is revoking the antidumping duty order on frontseating service valves from the PRC.

DATES: *Effective Date:* April 28, 2014.

FOR FURTHER INFORMATION CONTACT:

Laurel LaCivita at (202) 482-4243, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On April 28, 2009, the Department published the antidumping duty order on frontseating service valves from the PRC in the **Federal Register**.² On March 3, 2014, the Department initiated the sunset review of the antidumping duty Order pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act").³ We received no notice of intent

to participate in response to the *Initiation Notice* from domestic interested parties by the applicable deadline.⁴ As a result, the Department concludes that no domestic party intends to participate in this sunset review.⁵ On March 24, 2014, we notified the International Trade Commission, in writing, that we intend to revoke the Order.⁶

Scope of the Order

The merchandise covered by this Order is frontseating service valves, assembled or unassembled, complete or incomplete, and certain parts thereof. Frontseating service valves contain a sealing surface on the front side of the valve stem that allows the indoor unit or outdoor unit to be isolated from the refrigerant stream when the air conditioning or refrigeration unit is being serviced. Frontseating service valves rely on an elastomer seal when the stem cap is removed for servicing and the stem cap metal to metal seat to create this seal to the atmosphere during normal operation.⁷

For purposes of the scope, the term "unassembled" frontseating service valve means a brazed subassembly requiring any one or more of the following processes: the insertion of a valve core pin, the insertion of a valve stem and/or O ring, the application or installation of a stem cap, charge port cap or tube dust cap. The term "complete" frontseating service valve means a product sold ready for installation into an air conditioning or refrigeration unit. The term "incomplete" frontseating service valve means a product that when sold is in multiple pieces, sections, subassemblies or components and is incapable of being installed into an air conditioning or refrigeration unit as a single, unified valve without further assembly.

The major parts or components of frontseating service valves intended to be covered by the scope under the term "certain parts thereof" are any brazed subassembly consisting of any two or more of the following components: a valve body, field connection tube, factory connection tube or valve charge port. The valve body is a rectangular

⁴ See 19 CFR 351.218(d)(1)(i).

⁵ See 19 CFR 351.218(d)(1)(iii)(A).

⁶ See 19 CFR 351.218(d)(1)(iii)(B)(2).

⁷ The frontseating service valve differs from a backseating service valve in that a backseating service valve has two sealing surfaces on the valve stem. This difference typically incorporates a valve stem on a backseating service valve to be machined of steel, where a frontseating service valve has a brass stem. The backseating service valve dual stem seal (on the back side of the stem), creates a metal to metal seal when the valve is in the open position, thus, sealing the stem from the atmosphere.

¹ See *Initiation of Five-Year ("Sunset") Review*, 79 FR 11762 (March 3, 2014) ("Initiation Notice").

² See *Antidumping Duty Order: Frontseating Service Valves From the People's Republic of China*, 74 FR 19196 (April 28, 2009) ("Order").

³ See *Initiation Notice*.

block, or brass forging, machined to be hollow in the interior, with a generally square shaped seat (bottom of body). The field connection tube and factory connection tube consist of copper or other metallic tubing, cut to length, shaped and brazed to the valve body in order to create two ports, the factory connection tube and the field connection tube, each on opposite sides of the valve assembly body. The valve charge port is a service port via which a hose connection can be used to charge or evacuate the refrigerant medium or to monitor the system pressure for diagnostic purposes.

The scope includes frontseating service valves of any size, configuration, material composition or connection type. Frontseating service valves are classified under subheading 8481.80.1095, and also have been classified under subheading 8415.90.80.85, of the Harmonized Tariff Schedule of the United States ("HTSUS"). It is possible for frontseating service valves to be manufactured out of primary materials other than copper and brass, in which case they would be classified under HTSUS subheadings 8481.80.3040, 8481.80.3090, or 8481.80.5090. In addition, if unassembled or incomplete frontseating service valves are imported, the various parts or components would be classified under HTSUS subheadings 8481.90.1000, 8481.90.3000, or 8481.90.5000. The HTSUS subheadings are provided for convenience and customs purposes, but the written description of the scope of this order is dispositive.

Revocation

Pursuant to section 751(c)(3)(A) of the Act and 19 CFR 351.218(d)(1)(iii)(B)(3), if no domestic interested party files a notice of intent to participate, the Department shall issue a final determination revoking the order within 90 days of the initiation of the review. Because no domestic interested party filed a timely notice of intent to participate in this sunset review, the Department finds that no domestic interested party is participating in this sunset review. Therefore, we are revoking the *Order*. The effective date of revocation is April 28, 2014, the fifth anniversary of the date of publication in the **Federal Register** of the *Order*.⁸

Pursuant to section 751(c)(3)(A) of the Act and 19 CFR 351.222(i)(2)(i), the Department intends to issue instructions to U.S. Customs and Border Protection to terminate the suspension of

liquidation of entries of the merchandise subject to the order which were entered, or withdrawn from warehouse, for consumption on or after April 28, 2014. Entries of subject merchandise prior to April 28, 2014, will continue to be subject to the suspension of liquidation and requirements for deposits of estimated antidumping duties. The Department will conduct administrative reviews of the order with respect to subject merchandise entered prior to the effective date of revocation in response to appropriately filed requests for review.

These final results of the five-year (sunset) review and notice are published in accordance with sections 751(c) and 777(i)(1) of the Act.

Dated: April 30, 2014.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.

Coated Paper Suitable for High-Quality Print Graphics Using Sheet-Fed Presses From the People's Republic of China: Rescission of Countervailing Duty Administrative Review; 2012

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) is rescinding the administrative review of the countervailing duty (CVD) order on coated paper suitable for high-quality print graphics using sheet-fed presses (coated paper) from the People's Republic of China (PRC) for the period January 1, 2012, through December 31, 2012.

DATES: *Effective Date:* May 14, 2014.

FOR FURTHER INFORMATION CONTACT:

Joseph Shuler, AD/CVD Operations, Office I, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-1293.

SUPPLEMENTARY INFORMATION:

Background

The Department initiated an administrative review of the CVD order on coated paper from the PRC with respect to 10 companies for the period

January 1, 2012, through December 31, 2012, based on a request by Appleton Coated LLC, NewPage Corporation, and S.D. Warren d/b/a Sappi Fine Paper North America, and United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, (collectively, Petitioners).¹

On March 28, 2014, Petitioners withdrew their request for an administrative review in its entirety.² No other party requested a review.

Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), the Department will rescind an administrative review, in whole or in part, if the party that requested a review withdraws its request within 90 days of the date of publication of the notice of initiation of the requested review. In this case, Petitioners withdrew their request within the 90-day deadline, and no other parties requested an administrative review of the CVD order. Therefore, we are rescinding the administrative review of the CVD order on coated paper from the PRC covering the period January 1, 2012, through December 31, 2012.

Assessment

The Department will instruct U.S. Customs and Border Protection (CBP) to assess CVDs on all entries of coated paper from the PRC during the period January 1, 2012, through December 31, 2012, at rates equal to the cash deposit of estimated CVDs required at the time of entry, or withdrawal from warehouse, for consumption in accordance with 19 CFR 351.212(c)(1)(i). The Department intends to issue appropriate assessment instructions to CBP 15 days after the date of publication of this notice.

Notifications

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of CVDs prior to liquidation of the relevant entries during this review period.

This notice also serves as a final reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under an APO in
