SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Notice of Alleged Safety and Health Hazards, Form OSHA-7, information collection. Respondents use Form OSHA-7 to report unhealthful and/or unsafe conditions in the workplace to the OSHA. The OSHA uses this information to evaluate the alleged hazards and to schedule an inspection. This information collection has been classified as a revision, because the agency proposes to include a question about whether the respondent is a current or former employee of the employer cited in the complaint. The Occupational Safety and Health Act authorizes this information collection. See 29 U.S.C. 651, 657.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1218-0064. The current approval is scheduled to expire on May 31, 2014; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on January 24, 2014 (79 FR 4180).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section by June 30, 2014. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1218-0064. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information,

including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and
