40 CFR Part 180

[EPA–HQ–OPP–2012–0384; FRL–9911–17]

Imazapic; Pesticide Tolerances; Technical Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; technical correction.

SUMMARY: EPA issued a final rule in the **Federal Register** of August 16, 2013, concerning the establishment of a tolerance for imazapic in or on sugarcane, cane. This document is being issued to correct the codified section by including a footnote under the table in paragraph (a)(1) to denote that there are no U.S. registrations for the commodity sugarcane, cane.

DATES: This final rule correction is effective June 4, 2014.

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA–HQ–OPP–2012–0384, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC 20460–0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. SUPPLEMENTARY INFORMATION:

I. Does this action apply to me?

The Agency included in the August 16, 2013 final rule a list of those who may be potentially affected by this action.

II. What does this technical correction do?

EPA issued a final rule in the **Federal Register** of August 16, 2013 (78 FR 49927) (FRL–9394–8) that established a tolerance for residues of the herbicide imazapic in or on the commodity sugarcane, cane. EPA inadvertently omitted the footnote “There are no US registrations as of August 16, 2013.” in the tolerance table denoting that the established tolerance on sugarcane, cane is an import tolerance only.

III. Why is this correction issued as a final rule?

Section 553 of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)(3)(B)) provides that, when an Agency for good cause finds that notice and public procedure are impracticable, unnecessary, or contrary to the public interest, the Agency may issue a final rule without providing notice and an opportunity for public comment. EPA has determined that there is good cause for making this technical correction final without prior proposal and opportunity for comment, because the addition of a footnote to the tolerance table for the reason stated in Unit II, is not a significant change and does not affect the outcomes of the August 16, 2013 final rule. EPA finds that this constitutes good cause under 5 U.S.C. 553(b)(3)(B).

IV. Do any of the statutory and executive order reviews apply to this action?

All applicable statutory requirements were discussed in the final rule that was published on August 16, 2013.

V. Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this rule in the **Federal Register**. This final rule is not a “major rule” as defined by 5 U.S.C. 804(2).

DEPARTMENT OF HEALTH AND HUMAN SERVICES

45 CFR Part 18

Official Symbol, Logo, and Seal

AGENCY: Office of the Secretary, HHS.

ACTION: Direct final rule.

SUMMARY: The U.S. Department of Health and Human Services (HHS) published a direct final rule in the *Federal Register* on April 14, 2014, that would have adopted requirements on the use of HHS’s official logo and seal. HHS stated in the direct final rule that if it received a significant adverse comment, HHS would publish a notice of withdrawal. HHS received two comments and considers at least one of these comments a significant adverse comment. The direct final rule was not withdrawn prior to its effective date. As a result, HHS is now publishing this removal of the direct final rule.

DATES: Effective June 4, 2014.

FOR FURTHER INFORMATION CONTACT: Gloria Barnes, Office of the Assistant Secretary for Public Affairs (gloria.barnes@hhs.gov).

SUPPLEMENTARY INFORMATION: The U.S. Department of Health and Human Services (HHS) published a direct final rule in the *Federal Register* on April 14, 2014 (79 FR 20801) that would have adopted requirements on the use of HHS’s official logo and seal. HHS stated in the direct final rule that if any significant adverse comment were received, HHS would publish a notice of

withdrawal. HHS received two comments and considers at least one of these comments a significant adverse comment.

Due to time constraints, a notice of withdrawal was not published prior to the direct final rule going into effect. As a result, HHS is now publishing this removal of the direct final rule, deleting Part 18 from Title 45, Subtitle A, subchapter A of the Code of Federal Regulations. HHS believes that it is appropriate for this removal to become effective on the date of its publication, and that notice and comment in this instance is unnecessary.

Executive Order No. 12866

This rule does not meet the criteria for a significant regulatory action under Executive Order 12866. Thus, review by the Office of Management and Budget is not required.

Regulatory Flexibility Act

This rule will not have a significant economic impact on a substantial number of small entities. Therefore, a regulatory flexibility analysis as provided by the Regulatory Flexibility Act, as amended, is not required.

RIN 0648–XD298

Fisheries of the Northeastern United States; Summer Flounder Fishery; Quota Transfer

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; quota transfer.

SUMMARY: NMFS announces that the State of North Carolina is transferring a portion of its 2014 commercial summer flounder quota to the Commonwealth of Virginia. NMFS is adjusting the quotas and announcing the revised commercial quota for each state involved. NMFS is also correcting the 2014 summer flounder quota for the State of New Jersey to account for quota transfers to date.

DATES: Effective May 30, 2014, through December 31, 2014.

FOR FURTHER INFORMATION CONTACT:

Carly Bari, Fishery Management Specialist, 978–281–9224.

SUPPLEMENTARY INFORMATION:

Regulations governing the summer flounder fishery are in 50 CFR part 648, and require annual specification of a commercial quota that is apportioned among the coastal states from North Carolina through Maine. The process to set the annual commercial quota and the percent allocated to each state are described in § 648.102.

The final rule implementing Amendment 5 to the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan, which was published on December 17, 1993 (58 FR 65936), provided a mechanism for summer flounder quota to be transferred from one state to another. Two or more states, under mutual agreement and with the concurrence of the Administrator, Greater Atlantic Region, NMFS (Regional Administrator), can transfer or combine summer flounder commercial quota under § 648.102(c)(2). The Regional Administrator is required to consider the criteria in § 648.102(c)(2)(i) to evaluate requests for quota transfers or combinations.

North Carolina has agreed to transfer 2,758 lb (1,251 kg) of its 2014 commercial quota to Virginia. This transfer was prompted by summer flounder landings of the F/V *Storm*, a North Carolina vessel that was granted safe harbor in Virginia due to mechanical failure on April 24, 2014, thereby requiring a quota transfer to account for an increase in Virginia’s landings that would have otherwise accrued against the North Carolina quota. The Regional Administrator has determined that the criteria set forth in § 648.102(c)(2)(i) have been met.

The revised 2014 summer flounder specifications that published on May 22, 2014 (79 FR 29371), did not include quota transfers. This rule will also update the 2014 summer flounder quota for New Jersey to take into account all quota transfers to date. The revised
