AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

SUMMARY: The U.S. Army Corps of Engineers (Corps) Seattle District has prepared a Draft Environmental Impact Statement (EIS) to examine the incremental environmental risk, principally from vessel traffic, related to operation of the previously authorized and constructed North Wing of the BP Cherry Point dock. *Incremental environmental risk* is defined in this EIS as the change in environmental risk between operating the BP Cherry Point dock at maximum capacity with a single berth (the South Wing) and operating the dock with two berths (the North Wing and South Wing) at projected future vessel traffic levels. The Proposed Action is continuing the existing operations at the BP Cherry Point Dock with two berths, one principally for import of crude oil and the other for distribution of refined petroleum products.

The Corps has been directed by Ninth Circuit Court of Appeals to complete an EIS on the impacts of the permitted dock.

The Draft EIS was prepared in accordance with the National Environmental Policy Act (NEPA) of 1969, as amended, the Corps' regulations for NEPA implementation (33 Code of Federal Regulations [CFR] parts 230 and 325, Appendices B and C). The Corps, Seattle District, Regulatory Branch is the federal lead agency and the U.S. Coast Guard, as a

cooperating agency. It also provides information for U.S. Coast Guard, other Federal, state, and local agencies having jurisdictional responsibility for affected resources.

SUPPLEMENTARY INFORMATION:

Title: FERC-510, Application for Surrender of Hydropower License.

OMB Control No.: 1902-0068.

Type of Request: Three-year extension of the FERC-510 information collection requirements with no changes to the current reporting requirements.

Abstract: The information collected under the requirements of FERC-510 is used by the Commission to implement the statutory provisions of sections 4(e), 6 and 13 of the Federal Power Act (FPA) (16 U.S.C. 797(e), 799 and 806). Section 4(e) gives the Commission authority to issue licenses for the purposes of constructing, operating and maintaining dams, water conduits, reservoirs, powerhouses, transmission lines or other power project works necessary or convenient for developing and improving navigation, transmission and utilization of power using bodies of water over which Congress has jurisdiction. Section 6 gives the

Commission the authority to prescribe the conditions of licenses including the revocation or surrender of the license. Section 13 defines the Commission's authority to delegate time periods for when a license must be terminated if project construction has not begun. Surrender of a license may be desired by a licensee when a licensed project is retired or not constructed or natural catastrophes have damaged or destroyed the project facilities.

FERC-510 is the application for the surrender of a hydropower license. The information is used by Commission staff to determine the broad impact of such surrender. The Commission will issue a notice soliciting comments from the public and other agencies and conduct a careful review of the application before issuing an order for Surrender of a License. The order is the result of an analysis of the information produced, i.e., economic, environmental concerns, etc., which is examined to determine if the application for surrender is warranted. The order implements the existing regulations and is inclusive for surrender of all types of hydropower licenses issued by FERC and its predecessor, the Federal Power Commission. The Commission implements these mandatory filing requirements in the Code of Federal Regulations (CFR) under 18 CFR 6.1-6.4.

Type of Respondents: Private or Municipal Hydropower Licensees.

Estimate of Annual Burden:¹ The Commission estimates the annual public reporting burden for the information collection as:

¹ The Commission defines burden as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or

provide information to or for a Federal agency. For further explanation of what is included in the

information collection burden, reference 5 Code of Federal Regulations 1320.3.
