I. Abstract

The Economic Development Administration's mission is to lead the federal economic development agenda by promoting innovation and competitiveness, preparing American regions for growth and success in the worldwide economy. The Economic Development Administration (EDA) accomplishes its mission by helping our partners across the nation (states, regions, and communities) create wealth and minimize poverty by promoting a favorable business environment to attract private capital investment and jobs through world-class capacity building, planning, infrastructure, research grants, and strategic initiatives.

EDA's strategic investments in public infrastructure and local capital markets provide lasting benefits for economically disadvantaged areas. Acting as catalysts to mobilize public and private investments, EDA's investments address problems of high unemployment, low per capita income, and other forms of severe economic distress in local communities. EDA also provides special economic adjustment assistance to help communities and businesses respond to major layoffs, plant shutdowns, trade impacts, natural disasters, military facility closures, and other severe economic dislocations.

EDA must comply with the Government Performance and Results Act of 1993 which requires Federal agencies to develop performance measures, and report to Congress and stakeholders the results of the agency's performance. EDA must collect specific data from grant recipients to report on its performance in meeting its stated goals and objectives.
