

standard rulemaking for automatic commercial ice makers by publishing a notice of proposed meeting and availability of the framework document on November 19, 2010. 75 FR 70852. DOE published a notice of proposed rulemaking proposing energy conservation standards for automatic commercial ice makers on March 17, 2014 (here after referred to as the March 2014 NOPR). 79 FR 14846.

In response to the publication of the March 2014 NOPR, stakeholders continue to submit questions regarding the energy model that DOE used to assess the energy efficiency and performance of automatic commercial ice makers as part of the engineering analysis. (See, for example, Air-Conditioning, Heating, and Refrigeration Institute, No. 93 at p. 5) In order to facilitate an additional review of the model, gather additional feedback and data on the energy model, and to allow for a more thorough explanation of DOE's use of the model in the engineering analysis, DOE is holding this public meeting. During the meeting, DOE expects to explain the details of the model, go through example simulations, describe how the model was used and calibrated as part of the engineering analysis conducted for the March 2014 model, and answer questions about the model from interested parties. At the public meeting, DOE will make presentations and invite discussion on the energy model. All of the feedback and data gathered during the public meeting will be used in consideration of any reanalysis conducted as part of the rulemaking.

The public meeting will be conducted in an informal, facilitated, conference style. There shall be no discussion of proprietary information, costs or prices, market shares, or other commercial matters regulated by U.S. antitrust laws. A court reporter will record the proceedings of the public meeting, after which a transcript will be available for purchase from the court reporter and placed on the DOE Web site at: [http://www1.eere.energy.gov/buildings/appliance\\_standards/rulemaking.aspx/ruleid/29](http://www1.eere.energy.gov/buildings/appliance_standards/rulemaking.aspx/ruleid/29).

Any person wishing to bring a laptop computer into the Forrestal Building will be required to obtain a property pass. Visitors should avoid bringing laptops, or allow an extra 45 minutes. Please note that foreign nationals planning to participate in the public meeting are subject to advance security screening procedures. If a foreign national wishes to participate in the public meeting, please inform DOE of this fact as soon as possible by contacting Ms. Brenda Edwards at (202)

586–2945 so that the necessary procedures can be completed.

DOE considers public participation to be a very important part of the process for determining whether to amend energy conservation standards and, if so, in setting those amended standards. DOE actively encourages the participation and interaction of the public during the rulemaking process. Interactions with and among members of the public provide a balanced discussion of the issues to assist DOE in the standards rulemaking process. Accordingly, anyone who wishes to participate in the public meeting or be added to the DOE mailing list to receive future notices and information about this rulemaking should contact Ms. Brenda Edwards at (202) 586–2945, or via email at [Brenda.Edwards@ee.doe.gov](mailto:Brenda.Edwards@ee.doe.gov).

Issued in Washington, DC, on June 9, 2014.

**Kathleen B. Hogan,**

*Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.*

### Federal Emergency Management Agency

#### 44 CFR Part 67

[Docket ID FEMA–2014–0002; Internal Agency Docket No. FEMA–B–1137]

#### Proposed Flood Elevation Determinations for McKean County, Pennsylvania (All Jurisdictions)

**AGENCY:** Federal Emergency Management Agency, DHS.

**ACTION:** Proposed rule; withdrawal.

**SUMMARY:** The Federal Emergency Management Agency (FEMA) is withdrawing its proposed rule concerning proposed flood elevation determinations for McKean County, Pennsylvania (All Jurisdictions).

**DATES:** This withdrawal is effective on June 13, 2014.

**ADDRESSES:** You may submit comments, identified by Docket No. FEMA–B–1137, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646–4064, or (email) [Luis.Rodriguez3@fema.dhs.gov](mailto:Luis.Rodriguez3@fema.dhs.gov).

**FOR FURTHER INFORMATION CONTACT:** Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646–4064, or (email) [Luis.Rodriguez3@fema.dhs.gov](mailto:Luis.Rodriguez3@fema.dhs.gov).

**SUPPLEMENTARY INFORMATION:** On September 27, 2010, FEMA published a proposed rulemaking at 75 FR 59184, proposing flood elevation determinations along one or more flooding sources in McKean County, Pennsylvania. Because FEMA has or will be issuing a Revised Preliminary Flood Insurance Rate Map, and if necessary a Flood Insurance Study report, featuring updated flood hazard information, the proposed rulemaking is being withdrawn. A Notice of Proposed Flood Hazard Determinations will be published in the **Federal Register** and in the affected community's local newspaper.

**Authority:** 42 U.S.C. 4104; 44 CFR 67.4.

Dated: May 9, 2014.

**Roy E. Wright,**

*Deputy Associate Administrator for Mitigation, Department of Homeland Security, Federal Emergency Management Agency.*

## DEPARTMENT OF HOMELAND SECURITY

### Federal Emergency Management Agency

#### 44 CFR Part 67

[Docket ID FEMA–2014–0002; Internal Agency Docket No. FEMA–B–1145]

#### Proposed Flood Elevation Determinations

**AGENCY:** Federal Emergency Management Agency, DHS.

**ACTION:** Proposed rule; correction.

**SUMMARY:** On October 7, 2010, the Federal Emergency Management Agency (FEMA) published in the **Federal Register** a proposed rule that included modified Base (1% annual-chance) Flood Elevations (BFEs) for the locations along Cypress Creek Ditch and Victory Lake in Clay County, Arkansas. FEMA is no longer proposing these flood elevation determination changes along Cypress Creek Ditch and Victory Lake as identified in the above-referenced rulemaking publication.

**DATES:** Comments are to be submitted on or before July 14, 2014.

**ADDRESSES:** You may submit comments, identified by Docket No. FEMA-B-1145, to Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-4064 or (email) [Luis.Rodriguez3@fema.dhs.gov](mailto:Luis.Rodriguez3@fema.dhs.gov).

**FOR FURTHER INFORMATION CONTACT:** Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-4064 or (email) [Luis.Rodriguez3@fema.dhs.gov](mailto:Luis.Rodriguez3@fema.dhs.gov).

**SUPPLEMENTARY INFORMATION:** FEMA publishes proposed determinations of BFEs and modified BFEs for communities participating in the National Flood Insurance Program (NFIP), in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are minimum requirements. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and also are used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in those buildings.

#### Correction

In the proposed rule published at 75 FR 62062-62063, in the October 7, 2010, issue of the **Federal Register**, FEMA published a table under the authority of 44 CFR 67.4. The table, entitled "Clay County, Arkansas, and Incorporated Areas", addressed several flooding sources including Cypress Creek Ditch and Victory Lake. The proposed rule listed modified BFEs for Cypress Creek Ditch and Victory Lake between specific upstream and downstream locations listed in the table. FEMA is no longer proposing these flood elevation determination changes along Cypress Creek Ditch and Victory Lake as identified in the above-referenced rulemaking publication.

(Catalog of Federal Domestic Assistance No. 97.022, "Flood Insurance.")

Dated: May 9, 2014.

**Roy E. Wright,**

[Docket No. 140221166-4166-01]

**RIN 0648-BE01**

#### Fisheries of the Northeastern United States; Atlantic Herring Fishery; Framework Adjustment 3

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Proposed rule, request for comments.

**SUMMARY:** Framework Adjustment 3 to the Atlantic Herring Fishery Management Plan would establish a process for setting river herring (alewife and blueback) and shad (American and hickory) catch caps for the herring fishery. In addition, this action would set these catch caps for the 2014 and 2015 fishing years. This action is consistent with Herring Amendment 5, which addresses river herring catch and allows for river herring and shad catch caps to be implemented through a framework. This action would allow the Council to set river herring and shad catch caps and associated measures in future years through specifications or frameworks, whichever is appropriate. Catch of river herring and shad includes both bycatch (discards) and incidental catch that is retained.

**DATES:** Public comments must be received by July 14, 2014.

**ADDRESSES:** The New England Fishery Management Council developed an environmental assessment (EA) for this action that describes the proposed action and other considered alternatives and provides a thorough analysis of the impacts of the proposed measures and alternatives. Copies of the framework,
