

Commenters also noted some geographic areas in the NAS incur GPS signal interference more regularly than others due to U.S. Government testing.

Under this policy, the FAA will ensure that at least one ground based IAP will remain at each airport.

The FAA agrees that the adopted criteria must also consider GPS signal interference. Therefore, the FAA modifies this policy and adds the following as a factor to be considered: "Airports located within an area routinely affected by GPS signal interference testing."

The DoD stated that if IAPs at a civil airport are extensively utilized by military aircraft for training and/or proficiency, these IAPs should be retained. Additionally, the DoD suggested that DoD facilities should be added to the list of airports that are not considered for NDB or VOR IAP cancellations.

While this policy will not add DoD facilities to the list of airports that are not considered for NDB and VOR IAP cancellation, the FAA agrees to modify the policy so that IAPs used extensively by military aircraft for training and/or proficiency will remain in the National Airspace System.

Policy

After review and evaluation of the public comments received on the policy proposed in the **Federal Register** on August 2, 2013 (FAA-2013-0265), the FAA adopts the criteria for selecting potential IAPs for cancellation as proposed with two modifications based on the comments received. FAA adds the following to the list of consideration factors: "Airports located within an area routinely affected by GPS signal interference testing" and "Extensive use by the military for training and/or proficiency."

The NDB and VOR IAPs recommended for cancellation will be selected at airports using the adopted criteria. FAA notes that all airports having existing RNAV and ground-based IAPs will maintain at least one RNAV and one ground-based IAP under this initiative.

Instrument Approach Procedures are incorporated by reference into Title 14 of the Code of Federal Regulations part 97, subpart C, and are promulgated by rulemaking procedures. Once the FAA identifies IAPs that may be cancelled in accordance with the adopted policy noted above, the FAA will follow standard rulemaking procedures including a Notice of Proposed Rulemaking in the **Federal Register** containing the list of NDB and VOR IAPs recommended for cancellation.

The FAA will consider all public comments before issuing a Final Rule removing selected IAPs.

Airports considered for NDB or VOR IAP cancellation:

- All airports with an NDB IAP.
- All airports with a VOR/DME RNAV IAP, unless it is the only IAP at the airport.
- All airports with two or more ground-based IAPs and an RNAV IAP.
- All airports with multiple, redundant ground-based IAPs (e.g., three VOR procedures).

Additional factors for consideration in determining the list of potential candidates for NDB or VOR IAP cancellation:

- Prevailing wind runways.
- Prevailing runway alignment during adverse weather operations.
- Runways with a published ILS IAP and a ground-based IAP.
- For runways with multiple VOR and NDB IAPs consider IAPs with the lowest minimums (if minimums are within 20 feet of each other), and IAPs that allow for optimum use by all users.
- Airports located within an area routinely affected by GPS signal interference testing
- Extensive use by the military for training and/or proficiency.

Airports not considered for NDB or VOR IAP cancellations:

- Airports with only RNAV/RNP IAPs published.
- Airports with only one ground-based procedure.
- Airports will not be considered if cancellation would result in removing all IAPs from the airport.

Issued in Washington, DC, on June 19, 2014.

Abigail Smith,

Director, Aeronautical Navigation Products.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Proposed Airport Access Restriction and Opportunity for Public Comment

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Notice; Request for Comment.

SUMMARY: The Airport Noise and Capacity Act of 1990 (hereinafter referred to as "the Act" or "ANCA") provides notice, review, and approval

requirements for airports seeking to impose noise or access restrictions on Stage 3 aircraft operations that become effective after October 1, 1990. 49 U.S.C. 47521 et seq. This notice is issued pursuant to ANCA and 14 CFR 161.315(b).

The Federal Aviation Administration (FAA) announces that it has determined the application for an airport noise and access restriction submitted by the Los Angeles World Airports (LAWA) for Los Angeles International Airport (LAX) under the provisions of 49 U.S.C. 47524 of the ANCA, and 14 CFR part 161, to be complete. The LAWA application seeks approval to adopt a new ordinance that would require all aircraft operators to comply with prevailing flows whenever LAX is in Over-Ocean or Westerly Operations from midnight to 6:30 a.m. The determination of completeness is not an approval or disapproval of the proposed airport access restriction. FAA will review the application, public comments, and any other information obtained under § 161.137(b) and issue a decision approving or disapproving the proposed restriction. FAA intends to issue its decision by November 8, 2014.

Public Comments: Interested parties are invited to file comments on the application. Comments are due 30 days after the publication of this notice in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: James Byers, Planning and Environmental Division, APP-400, 800 Independence Avenue SW., Washington DC 20591.

Email address: jim.byers@faa.gov. Comments on the application for the proposed noise and access restriction, including the environmental analysis, should be submitted in writing to this contact office.

SUPPLEMENTARY INFORMATION: On January 30, 2013 the Federal Aviation Administration (FAA) received an application from LAWA under 14 Code of Federal Regulations (CFR) Part 161 seeking a Stage 3 aircraft noise and access restriction at Los Angeles International Airport (LAX). The application was reviewed in accordance with 14 CFR 161.313(a), and was determined to be incomplete in the areas of Noise Exposure Maps (NEMs); Noise Study Area; Technical Data Supporting Noise Impact analysis; and Cost Benefit Analysis. Notice of this decision was sent to LAWA on March 1. On March 15, 2013, the FAA provided LAWA additional information regarding the type of information and analysis required to complete the application.

On March 28, 2013 LAWA stated its intent to revise the Part 161 application and resubmit it for further review. On July 5, 2013 FAA received a "Supplemental Analysis" from LAWA that supplemented their initial application. The FAA reviewed the Supplemental Analysis and determined it to be incomplete. Notice of this decision was sent to LAWA on August 2. The areas of Airport Noise Study Area and Noise Contours; Technical Data Supporting Noise Impact Analysis; and Cost—Benefit Analysis continued to be incomplete. On August 20, 2013 LAWA stated its intent to revise the Part 161 application and resubmit it to the FAA. On May 12, 2014, FAA received LAWA's revised application. On May 22, LAWA submitted an errata sheet. On June 10, 2014, FAA determined LAWA's application to be complete. ANCA establishes a 180 day review period for the application. Under 14 CFR 161.313(c)(4)(ii), the review period starts on the date of receipt of the last supplement to the application.

Pursuant to 14 CFR 161.317, FAA may approve or disapprove, in whole or in part, the proposed restriction or any alternative restriction submitted by LAWA. This notice also announces the availability of the proposed airport access restriction for public review and invites interested parties to file comments to the FAA within 30 days after this notice is published in the **Federal Register**.

FAA Action Under Part 161 Subpart D. FAA will review and render a decision on the restriction as a whole, including its impacts on aircraft operations that are not classified as Stage 3, at the time it issues its decision to approve or disapprove the application for a Stage 3 aircraft noise and access restriction submitted under Subpart D of Part 161. This review will include a determination on how the restriction proposal addresses other applicable Federal law and LAX's grant assurances.

The FAA's evaluation will be conducted under the provisions of 14 CFR Part 161. FAA may approve the restriction only if it finds on the basis of substantial evidence that the following six statutory criteria are met. These six statutory conditions of approval are: Condition 1: The restriction is reasonable, nonarbitrary, and nondiscriminatory; Condition 2: The restriction does not create an undue burden or interstate or foreign commerce; Condition 3: The proposed restriction maintains safe and efficient use of the navigable airspace; Condition 4: The proposed restriction does not conflict with any existing Federal

statute or regulation; Condition 5: The applicant has provided adequate opportunity for public comment on the proposed restriction; and Condition 6: The proposed restriction does not create an undue burden on the national aviation system.

Interested persons are invited to file comments to the FAA on the proposed restriction application. LAWA's application is available on their Web site at: <http://www.lawa.org/LAXPart161.aspx>. Your comments should relate to the factors that Part 161 requires an airport sponsor to address in its application for restriction approval. All relevant comments received within the public comment period will be considered by FAA to the extent practicable before FAA makes its final decision on the application.

Questions may be directed to the individual named above under the heading, **FOR FURTHER INFORMATION CONTACT**.

Issued in Washington, DC on June 20, 2014.

Frank J. San Martin,

Acting Director, Office of Airport Planning and Programming.

BILLING CODE 4910-13-P

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2014-0192]

Agency Information Collection Activities; New Information Collection or Revision of an Approved Information Collection: Motor Carrier Records Change Form

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FMCSA announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget (OMB) for its review and approval and invites public comment. The purpose of this ICR entitled "Motor Carrier Records Change Form," is to more efficiently collect information the Office of Registration and Safety Information (MC-RS) requires to process name and address changes and reinstatements of operating authority. Currently, this data is being collected when carriers request these changes from MC-RS, but without the use of a formal data collection form.

DATES: We must receive your comments on or before August 26, 2014.

ADDRESSES: You may submit comments identified by Federal Docket Management System (FDMS) Docket Number FMCSA-2014-0192 using any of the following methods:

- **Federal eRulemaking Portal:** <http://www.regulations.gov>. Follow the online instructions for submitting comments.

- **Fax:** 1-202-493-2251.

- **Mail:** Docket Operations; U.S. Department of Transportation, 1200 New Jersey Avenue SE., West Building, Ground Floor, Room W12-140, 20590-0001.

- **Hand Delivery or Courier:** West Building, Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m. e.t., Monday through Friday, except Federal holidays.

Instructions: All submissions must include the Agency name and docket number. For detailed instructions on submitting comments and additional information on the exemption process, see the Public Participation heading below. Note that all comments received will be posted without change to <http://www.regulations.gov>, including any personal information provided. Please see the Privacy Act heading below.

Docket: For access to the docket to read background documents or comments received, go to <http://www.regulations.gov>, and follow the online instructions for accessing the dockets, or go to the street address listed above.

Privacy Act: Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement for the Federal Docket Management System published in the **Federal Register** on January 17, 2008 (73 FR 3316), or you may visit <http://edocket.access.gpo.gov/2008/pdf/E8-794.pdf>.

Public Participation: The Federal eRulemaking Portal is available 24 hours each day, 365 days each year. You can obtain electronic submission and retrieval help and guidelines under the "help" section of the Federal eRulemaking Portal Web site. If you want us to notify you that we received your comments, please include a self-addressed, stamped envelope or postcard, or print the acknowledgement page that appears after submitting comments online.
