

DEPARTMENT OF TRANSPORTATION**Federal Motor Carrier Safety Administration****[Docket No. FMCSA–2013–0386]****Parts and Accessories Necessary for Safe Operation; Application for an Exemption From Mobileye, Inc.****AGENCY:** Federal Motor Carrier Safety Administration (FMCSA), DOT.**ACTION:** Notice of application for exemption; request for comments.

SUMMARY: The Federal Motor Carrier Safety Administration (FMCSA) requests public comment on an application for exemption from Mobileye, Inc. (Mobileye) to allow interstate motor carrier to install Mobileye's camera-based collision avoidance system (CAS) system at either the bottom or top of the windshield, within the swept area of the windshield wipers. FMCSA's current regulations require that antennae, transponders, and similar devices to be located not more than 6 inches below the upper edge of the windshield, outside the area swept by the windshield wipers, and outside the driver's sight lines to the road and highway signs and signals. Mobileye intends to install these devices as part of a CAS development program in up to several hundred thousand commercial motor vehicles. Mobileye believes this mounting position will maintain a level of safety that is equivalent to or greater than the level of safety achieved without the exemption.

DATES: Comments must be received on or before August 1, 2014.**ADDRESSES:** You may submit comments identified by Federal Docket Management System Number FMCSA–2014–0037 by any of the following methods:

- **Web site:** <http://www.regulations.gov>. Follow the instructions for submitting comments on the Federal electronic docket site. Fax: 1–202–493–2251.

SUPPLEMENTARY INFORMATION:**Background**

Section 4007 of the Transportation Equity Act for the 21st Century (TEA–21) [Pub. L. 105–178, June 9, 1998, 112 Stat. 107, 401] amended 49 U.S.C. 31315 and 31136(e) to provide authority to grant exemptions from the FMCSRs. On August 20, 2004, FMCSA published a final rule implementing section 4007 (69 FR 51589). Under this rule, FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public with an opportunity to inspect the information relevant to the

application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request.

The Agency reviews the safety analyses and the public comments and determines whether granting the exemption would likely achieve a level of safety equivalent to or greater than the level that would be achieved by compliance with the current regulation (49 CFR 381.305). The decision of the Agency must be published in the **Federal Register** (49 CFR 381.315(b)). If the Agency denies the request, it must state the reason for doing so. If the decision is to grant the exemption, the notice must specify the person or class of persons receiving the exemption and the regulatory provision or provisions from which an exemption is granted. The notice must also specify the effective period of the exemption (up to 2 years) and explain the terms and conditions of the exemption. The exemption may be renewed [49 CFR 381.315(c) and 49 CFR 381.300(b)].

Mobileye's Application for Exemption

Mobileye applied for an exemption from 49 CFR 393.60(e)(1) to allow the installation of a CAS system on several thousand commercial motor vehicles. A copy of the application is included in the docket referenced at the beginning of this notice.

Section 393.60(e)(1) of the FMCSRs prohibits the obstruction of the driver's field of view by devices mounted at the top of the windshield. Antennas, transponders and similar devices must not be mounted more than 152 mm (6 inches) below the upper edge of the windshield. These devices must be located outside the area swept by the windshield wipers and outside the driver's sight lines to the road and highway signs and signals. In its application, Mobileye stated:

Mobileye is making this request because we are coordinating device development and installation of a camera based collision avoidance system in up to several hundred thousand commercial motor vehicles. The camera based sensor equipment to be installed is going to be located at either the bottom or top of the windshield, but will be in the swept area of the windshield wipers because the safety equipment must have a clear forward facing view of the road.

This system is the same technology that Mobileye provides to carmakers such as Ford, GM, Honda and many others. These companies have deployed over two million vehicles with this technology. Collision avoidance systems, in particular those that have the main features of Mobileye, have been noted by NHTSA, NTSB and FMCSA as key safety equipment in both cars and trucks.

Recently, the NTSB cited this type of collision avoidance system as part of its top ten "most wanted" advocacy priorities. FMCSA itself has recommended Forward Collision Warning and Lane Departure Warning, just two of Mobileye features. Mobileye seeks exemption for the aftermarket (field retrofitable) version of this technology.

With the exemption, Mobileye will be able to install the camera based collision avoidance system in a location which will offer the best opportunity to optimize the data and evaluate the benefits of such a system as well as maximize safety benefits.

Request for Comments

In accordance with 49 U.S.C. 31315 and 31136(e), FMCSA requests public comment from all interested persons on Mobileye's application for an exemption from 49 CFR 393.60(e)(1). All comments received before the close of business on the comment closing date indicated at the beginning of this notice will be considered and will be available for examination in the docket at the location listed under the **ADDRESSES** section of this notice. Comments received after the comment closing date will be filed in the public docket and will be considered to the extent practicable. In addition to late comments, FMCSA will also continue to file, in the public docket, relevant information that becomes available after the comment closing date. Interested persons should continue to examine the public docket for new material.

Dated: June 25, 2014.

Qualification of Drivers; Exemption Applications; Vision

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of renewal of exemptions; request for comments.

SUMMARY: FMCSA announces its decision to renew the exemptions from the vision requirement in the Federal Motor Carrier Safety Regulations for 4 individuals. FMCSA has statutory authority to exempt individuals from the vision requirement if the exemptions granted will not compromise safety. The Agency has

concluded that granting these exemption renewals will provide a level of safety that is equivalent to or greater than the level of safety maintained without the exemptions for these commercial motor vehicle (CMV) drivers.

DATES: This decision is effective August 1, 2014. Comments must be received on or before August 1, 2014.

ADDRESSES: You may submit comments bearing the Federal Docket Management System (FDMS) numbers: Docket No. [Docket No. FMCSA-2002-11714; FMCSA-2003-14223; FMCSA-2006-24015; FMCSA-2006-24783], using any of the following methods:

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may renew an exemption from the vision requirements in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a two-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to or greater than the level that would be achieved absent such exemption." The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381.

Exemption Decision

This notice addresses 4 individuals who have requested renewal of their exemptions in accordance with FMCSA procedures. FMCSA has evaluated these 4 applications for renewal on their merits and decided to extend each exemption for a renewable two-year period. They are:

Ronald B. Brown (ME), Trixie L. Brown (IN), Brian G. Hagen (IL), Barney J. Wade (MS).

The exemptions are extended subject to the following conditions: (1) That each individual has a physical examination every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the requirements in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provides a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retains a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for two years unless rescinded earlier by FMCSA. The
