

clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

To Submit Comments and for Further Information: To obtain a copy of the data collection plans and instruments or request more information on the proposed project, contact: Annette Galassi, Center for Global Health, National Cancer Institute, 9609 Medical Center Dr., RM 3W250, Rockville, MD 20850 or call non-toll-free number 240-276-6632 or Email your request, including your address to: agalassi@mail.nih.gov. Formal requests for additional plans and instruments must be requested in writing.

Comment Due Date: Comments regarding this information collection are best assured of having their full effect if

received within 60 days of the date of this publication.

Proposed Collection: Assessment of Oncology Nursing Education and Training in Low and Middle Income Countries, 0925-NEW, National Cancer Institute (NCI), National Institutes of Health (NIH).

Need and Use of Information Collection: This is a request for OMB to approve the Assessment of Oncology Nursing Education and Training in Low and Middle Income Countries (LMICs). NCI-Designated Cancer Centers have a range of international activities, some of which are funded by NCI, but many of which are not. These international activities may include oncology nursing education and training in LMICs, but the extent of these activities across cancer centers is unknown. The proposed assessment requests information about oncology nursing education and training projects including: Descriptions of projects, partner organizations, types of activities,

cost, and impact. NCI's Center for Global Health (CGH) is in the process of developing its strategic plan for oncology nursing education in LMICs. This information will help inform this strategic planning process and provide evidence to inform decisions on potential investments in grants for oncology nursing education in LMICs. Additionally, this information will be used in an online, interactive map that is being developed by CGH which will allow external organizations, such as cancer centers, to explore what projects are being done in which countries, which will facilitate collaborations and minimize duplication. The frequency of the data collection will be once per year although respondents may have more than one response if they have up to three projects.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 51.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Number of respondents/ year	Number of responses per respondent	Average burden per response (in hours)	Total annual burden hours
Directors of Nursing	68	3	15/60	51

Dated: July 1, 2014.

Karla Bailey,

NCI Project Clearance Liaison, National Institutes of Health.
