SUPPLEMENTARY INFORMATION: This ICR seeks PRA authority for the Employment First State Leadership Mentoring Program Community of Practice Evaluation information collection. This information collection is designed to gauge, via a Web-based survey, the effectiveness of ODEP efforts to promote the implementation of Employment First (EF) policies and practices for persons with disabilities and to determine how well remote training and online forums facilitate the implementation of EF activities in each of the thirty participating states. Findings from this census of participating community of practice states also will provide the DOL with important information for strategic planning, program replication, and development of disability employment policies, approaches, and practices.

This proposed information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. For additional information, see the related notice published in the **Federal Register** on April 30, 2014 (79 FR 24453).

In order to help ensure appropriate consideration, comments should mention OMB ICR Reference Number 201310-1230-001. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Hoist Operators’ Physical Fitness information collection requirements codified in regulations 30 CFR 56.19057 and 57.19057 that require the annual examination and certification of a hoist operator’s fitness by a qualified, licensed physician that includes documentation and recordkeeping requirements. The safety of all metal and nonmetal miners riding hoist conveyances is largely dependent upon the attentiveness and physical capabilities of the hoist operator. Improper movements, over-speed, and over-travel of a hoisting conveyance can result in serious physical harm or death to all passengers. Federal Mine Safety and Health Act of 1977 sections 101(a) and 103(h) authorize this information collection. See 30 U.S.C. 811(a) and 813(h).

See 5

CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219–0049.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on July 31, 2014. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on February 27, 2014 (79 FR 11130).
