Privacy Act of 1974; Department of Homeland Security Federal Emergency Management Agency—012 Suspicious Activity Reporting System of Records

AGENCY: Privacy Office, Department of Homeland Security.

ACTION: Notice of Privacy Act System of Records.

SUMMARY: In accordance with the Privacy Act of 1974, the Department of Homeland Security proposes to update and reissue a current system of records titled, “Department of Homeland Security/Federal Emergency Management Agency—012 Suspicious Activity Reporting System of Records.” This system of records allows the Department of Homeland Security/Federal Emergency Management Agency to collect and maintain records on individuals who report suspicious activities, individuals reported as being involved in suspicious activities, and individuals charged with the analysis and appropriate handling of suspicious activity reports. As a result of the biennial review, the Federal Emergency Management Agency has made non-substantive changes to simplify the formatting and text of the previously published notice. This updated system will be included in the Department of Homeland Security’s inventory of record systems.

DATES: Submit comments on or before August 11, 2014. This updated system will be effective August 11, 2014.

ADDRESSES: You may submit comments, identified by docket number DHS-2014-0035 by one of the following methods:

SUPPLEMENTARY INFORMATION:

I. Background

In accordance with the Privacy Act of 1974, 5 U.S.C. 552a, the Department of Homeland Security (DHS) Federal Emergency Management Agency (FEMA) proposes to update and reissue a current DHS/FEMA system of records titled, “DHS/FEMA—012 Suspicious Activity Reporting System of Records.”

FEMA’s mission is to “support our citizens and first responders to ensure that as a nation we work together to build, sustain, and improve our capability to prepare for, protect against, respond to, recover from, and mitigate all hazards.” FEMA collects, maintains, and retrieves records of individuals who report suspicious activities, individuals reported as being involved in suspicious activities, and individuals charged with the analysis and appropriate handling of suspicious activity reports. FEMA’s Office of the Chief Security Officer (OCSO), Fraud and Investigations Unit manages this process. FEMA Suspicious Activity Reports (SAR) are secured in a room monitored by FEMA OCSO special agents and analysts to reduce any risk of unauthorized access.

FEMA SARs may be shared with federal, state, local, and tribal jurisdictions that have the responsibility of investigating suspicious activities within their jurisdictions. FEMA SARs that do not have a nexus to terrorism or hazards to homeland security, (as determined by FEMA OCSO special agents or analysts) are forwarded to the appropriate jurisdiction (such as sheriff offices, county/city police, and state police). FEMA SARs that have a nexus to terrorism or hazards to homeland security, (as determined by FEMA OCSO special agents or analysts), are shared with the Federal Bureau of Investigation (FBI) Joint Terrorism Task

Force (JTTF), Federal Protective Service, and/or other federal agencies that are required to investigate and respond to terrorist threats or hazards to homeland security.

As a result of the biennial review, FEMA has made non-substantive changes to simplify the formatting and text of the previously published notice. FEMA’s SAR process is authorized and governed by 44 CFR Chapter 2 “Delegation of Authority,” 42 U.S.C. 5196(d); Executive Order No. 12333 and 13388; 40 U.S.C. 1315(b)(2)(F); 6 U.S.C. 314 of the Homeland Security Act of 2002, as amended; the Intelligence Reform and Terrorism Prevention Act of 2004, as amended; the National Security Act of 1947, as amended; and FEMA Manual 1010-1 “Federal Emergency Management Agency Missions and Functions.”

Consistent with DHS’s information sharing mission, information stored in the DHS/FEMA—012 Suspicious Activity Reporting System of Records may be shared with other DHS components that have a need to know the information to carry out their national security, law enforcement, immigration, intelligence, or other homeland security functions. In addition, information may be shared with appropriate federal, state, local, tribal, territorial, foreign, or international government agencies consistent with the routine uses set forth in this system of records notice.

This updated system will be included in DHS’s inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information practice principles in a statutory framework governing the means by which the U.S. government collects, maintains, uses, and disseminates individuals’ records. The Privacy Act applies to information that is maintained in a “system of records.” A “system of records” is a group of any records under the control of an agency from which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass U.S. citizens and lawful permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals when systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors.

Below is the description of the DHS/FEMA-12 Suspicious Activity Reporting System of Records.
