Information Collection Request Title: Title X Family Planning Outreach and Enrollment Data Collection Form.

Abstract: The Office of Population Affairs within the Office of the Assistant Secretary for Health seeks to collect data from the Title X service delivery grantees on efforts related to outreach and enrollment to assist individuals in obtaining health insurance available as a result of the Affordable Care Act (ACA). Grantees will be asked to collect and report information on the numbers of individuals who are: (1) Assisted by a trained health center worker; (2) number of individuals who receive an eligibility determination for the marketplace, Medicaid or CHIP with the assistance of a trained worker; and (3) number of individuals who enroll in an insurance program with the assistance of a trained worker. For each of the data points above, respondents will have the option to break out the data for partial Medicaid (i.e. waiver programs), full Medicaid, and private marketplace plans. The detailed data will be optional for those who are able to provide it. The information will be reported for all sites in their grantee network.

Need and Proposed Use of the Information: The Title X Family Planning Program ("Title X program" or "program") is the only Federal grant program dedicated solely to providing individuals with comprehensive family planning and related preventive health services (e.g., screening for breast and cervical cancer, sexually transmitted diseases (STDs), and human immunodeficiency virus [HIV]). By law, priority is given to persons from low-income families (Section 1006(c) of Title X of the Public Health Service Act, 42 USC 300). The Office of Population Affairs (OPA) within the Office of the Assistant Secretary for Health administers the Title X program.

In fiscal year 2013, Congress appropriated approximately \$296.8

million for Title X family planning activities. In accordance with the statute and regulations (42 Code of Federal Regulations [CFR] Part 59), at least 90% of the appropriation is used for clinical family planning services. In 2012, 98 Title X grantees provided family planning services to five million women and men through a network of 4,400 community-based clinics that include state and local health departments, tribal organizations, and other public and private nonprofit agencies. There is at least one clinic that receives Title X funds and provides services as required under the Title X statute in 73% of U.S. counties.

Sixty percent of the clients seen at Title X funded service sites self-identify as being uninsured. Seventy percent of the total clients are under the age 30. Thus Title X service sites see a large proportion of young and uninsured individuals. Over the past years, OPA has encouraged grantees to develop enrollment programs to ensure that clients who are currently uninsured understand new health insurance

options that are available as a result of the ACA. Some sites already assist individuals with enrolling in Medicaid and other public insurance programs. With the availability of the health insurance marketplace, many more service delivery sites are assisting clients enroll in health insurance programs.

OPA does not have any data on how many sites are assisting and enrolling clients into health insurance programs. Thus we seek to collect this data in order to understand the impact of Title X funded service sites on assisting and enrolling clients into insurance programs. We will utilize this information to guide strategic planning around how Title X service sites and prepare for, and assist with, the full implementation of the ACA. Through a separate data collection process called the Family Planning Annual Report (FPAR) (OMB No. 0990-0221, expiration January 31, 2016), OPA collects information on the insurance status of the clients served. With the implementation of the ACA, many of

the traditional clients served by Title X service sites will qualify for health insurance.

Likely Respondents: This annual reporting requirement is for family planning services delivery projects authorized and funded by the Title X Family Planning Program.

Burden Statement: Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose or provide the information requested. This includes the time needed to review instructions, to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information, to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information, and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN—HOURS

Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden hours
Outreach and Enrollment Activities	4200 service sites	1	0.20	840

Proposed Data Collections Submitted for Public Comment and Recommendations

The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995. To request more information on the below proposed project or to obtain a copy of the information collection plan and instruments, call 404-639-7570 or send

comments to Leroy Richardson, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an email to omb@cdc.gov.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget (OMB) approval. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, disclose or provide information to or for a Federal

agency. This includes the time needed to review instructions; to develop, acquire, install and utilize technology and systems for the purpose of collecting, validating and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information, to search data sources, to complete and review the collection of information; and to transmit or otherwise disclose the information. Written comments should be received within 60 days of this notice.
