Synopsis: On February 4, 2011, the Commission released document FCC 11-16, *Amendment of Certain of the Commission's Part 1 Rules of Practice and Procedure and Part 0 Rules of Commission Organization, Report and Order*, 76 FR 24383, May 2, 2011, which revised portions of its Part 1—Practice and Procedure and Part 0—Organizational rules.

The revised rules, in part, delegate authority to the Chief, CGB to periodically review all open dockets and, in consultation with the responsible Bureaus or Offices, to identify those dockets that appear to be candidates for termination. These candidates include dockets in which no further action is required or contemplated, as well as those in which no pleadings or other documents have been filed for several years. However, the Commission specified that proceedings in which petitions addressing the merits are pending should not be terminated absent the parties' consent. The termination of a dormant proceeding also includes dismissal as moot of any pending petition, motion, or other request for relief that is procedural in nature or otherwise does not address the merits of the proceeding.

Prior to the termination of any particular proceeding, the Commission was directed to issue a Public Notice identifying the dockets under consideration for termination and affording interested parties an opportunity to comment. Thus, CGB has identified the dockets for possible termination in document DA 14-897. <http://www.fcc.gov/document/cgb-seeks-comment-termination-certain-proceedings-dormant-0>.

VizRisk Prize Competition Challenge

AGENCY: Office of Business Management and Transformation, HHS.

ACTION: Notice.

SUMMARY: VizRisk is the first-ever behavioral health data visualization challenge hosted by the US Department of Health and Human Services (HHS). Its goal is to foster increased utilization, innovation, and critical analyses of publically available but underutilized government health data to better inform personal and health policy decisions.

This 3 month challenge, July 28th to October, 28th 2014 will call on talented designers, coders, data scientists, public health experts, and others from around the country to analyze, organize, and visualize behavioral health risk data. We will be asking participants to use CDC's Behavioral Risk Factor Surveillance System data in combination with other publicly available government data sets to reveal key insights, trends, and relationships.

Submissions will be graphic, dynamic visualizations that combine three or more variables (e.g. showing the relationship between behavioral patterns, health risks, and medical costs). Participants are free to use any pre-existing, customized, or new tools to produce these visualizations.

All submissions will be evaluated; separate sets of prizes will be awarded for excellence in each of the criteria below. A total of up to 7 prizes and \$15,000 will be offered.

- *Innovation*—evaluated for novel combination, integration, and application of data.

- *Relevance*—evaluated for meaningful health data relationships that are comparable across time, geographies, and populations.

- *Design*—evaluated for visually appealing, elegant, intuitive interface and visualizations.

- *Scientific Excellence*—evaluated for rigorously measured relationships that adhere to the principles of scientific inquiry.

The statutory authority for this challenge competition is Section 105 of the America COMPETES Reauthorization Act of 2010 (Pub. L. 111-358).
