

applicable Federal, State, and local government laws, regulations, and policies. The SFEIS will describe the proposed changes to the FEIS Preferred Alternative, update the affected environment, and describe the anticipated environmental impacts of the Revised Preferred Alternative in comparison to the anticipated environmental impacts disclosed in the FEIS for the FEIS Preferred Alternative. The Purpose and Need of the Project did not change from the FEIS. The U.S. Navy; U.S. Army Corps of Engineers; U.S. Coast Guard; the National Park Service; and the District of Columbia Department of the Environment will continue to serve as Cooperating Agencies for the Project.

A 30-day review period will be provided following the Notice of Availability of the SFEIS in the **Federal Register**, and a public meeting will be held within this review period. The public meeting will be conducted by DDOT and announced a minimum of 15 days in advance of the meeting. DDOT will provide information for the public meeting, including date, time and location through a variety of means including the Project Web site (<http://www.southcapitolis.com>) and by newspaper advertisement.

To ensure that the full range of issues is identified early in the process, comments are invited from all interested and/or potentially affected parties. Comments or questions concerning this Notice should be directed to the FHWA and DDOT at the addresses provided above.

(Catalog of Federal Domestic Assistance Program Number 20.205 Highway Planning and Construction. The regulations and implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities apply to this program.)

Authority: 23 U.S.C. 315; 49 CFR 1.48.

Issued on: July 23, 2014.

Joseph C. Lawson,

Division Administrator, District of Columbia Division, Federal Highway Administration.

BILLING CODE 4910-22-P

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

Reports, Forms and Record Keeping Requirements; Agency Information Collection Activity Under OMB Review

AGENCY: National Highway Traffic Safety Administration (NHTSA), U.S. Department of Transportation (DOT).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collections and their expected burden. The **Federal Register** Notices with a 60-day and a 30-day comment period were published on February 27, 2012 (77 FR 11626) and on December 23, 2013 (78 FR 77554), respectively. No comments were received on this matter.

This document describes the collection of information for which NHTSA intends to seek OMB approval. The collection of information described is the "Consolidated Child Restraint System Registration, Labeling and Defect Notification." (OMB Control Number: 2127-0576)

DATES: Comments must be submitted on or before August 27, 2014.

FOR FURTHER INFORMATION CONTACT: Ms. Cristina Echemendia at U.S. Department of Transportation, NHTSA, 1200 New Jersey Avenue SE., West Building Room W43-447, NVS-113, Washington, DC 20590. Mrs. Cristina Echemendia's telephone number is (202) 366-6345 and fax number is (202) 366-7002.

SUPPLEMENTARY INFORMATION:

National Highway Traffic Safety Administration

Title: Consolidated Child Restraint System Registration, Labeling and Defect Notifications.

OMB Control Number: 2127-0576.

Type of Request: Label revision of a currently approved collection.

Abstract: A final rule published on February 27, 2012 (77 FR 11626) amended the Federal motor vehicle safety standard for child restraint systems (CRSs) to expand its applicability to child restraints sold for children weighing up to 80 pounds (lb). The final rule also added a sentence to the printed instructions and labeling of certain CRSs (those that have internal harnesses, and that are recommended for older children). Currently, child restraint manufacturers are required to provide printed instructions with step by-step information on how the restraint is to be used. Without proper use, the effectiveness of these systems is greatly diminished. Each CRS must also have a permanent label.¹ A permanently

attached label gives "quicklook" information on whether the restraint meets the safety requirements, recommended installation and use, and warnings against misuse. The requested revision is to add a sentence to the existing instructions brochure and labeling that will inform the consumer that the lower anchors of a Lower Anchors and Tethers for Children (LATCH) system may only be used for children weighing "x" lb or less, where the "x" value depends on the weight of the CRS. The purpose of this label is to reduce consumer confusion about using LATCH, and to assure that the lower anchors will be able to withstand the forces generated by the child and CRS in virtually all crashes.

Under the final rule, CRSs equipped with internal harnesses to restrain the child and with components to attach to a child restraint anchorage system, will be required to be labeled with a child weight limit for using the lower anchors to attach the child restraint to the vehicle. The child weight limit depends on the weight of the CRS.

On February 25, 2014 the agency published a final rule responding to petitions for reconsideration (79 FR 10396) of the February 2012 final rule. The petitions stated, among other things, that the label that was required by the 2012 rule was unclear and could be misunderstood. In response, NHTSA made minor adjustments to the labeling requirement to make it clearer and more reader friendly.

NHTSA anticipates a change to the hour burden or costs associated with the revised child restraint labels and written instructions. Child restraint manufacturers produce, on average, a total of approximately 4,500,000 child restraints per year. The label would apply to approximately 50 percent of the total annual production (2,250,000 units). The hour burden associated with the revised label consists of the child restraint manufacturer: (1) Determining the maximum allowable child weight when using the lower anchor attachments as a means of installation and (2) adding this information on an existing label and instruction manual. We estimate 2 seconds of additional burden per child restraint for the determination of the maximum allowable weight and the addition of the information on the existing label and instruction manual (2 seconds × 2,250,000 units = 4,500,000 seconds = 1,250 hours).

information, so that owners can be notified about noncompliance or defect recall campaigns. These owner registration requirements are not affected by the final rule (77 FR 11626).

¹ FMVSS No. 213 also requires child restraint manufacturers to provide owner-registration cards and to keep records relating to owner registration

Affected Public: Businesses, Individuals and Households.

Estimated Additional Annual Burden: 1,250 hours.

ADDRESSES: Send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street NW., Washington, DC 20503, Attention NHTSA Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. A comment to OMB is most effective if OMB receives it within 30 days of publication.

David M. Hines,

Acting Associate Administrator for Rulemaking.

BILLING CODE 4910-59-P

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

Office of Hazardous Materials Safety; Notice of Applications for Modification of Special Permit

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: List of applications for modification of special permits.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, special permits from the Department of Transportation's Hazardous Material Regulations (49 CFR part 107, Subpart B), notice is hereby given that the Office of Hazardous Materials Safety has received the applications described herein. This notice is abbreviated to expedite docketing and public notice. Because the sections affected, modes of transportation, and the nature of application have been shown in earlier **Federal Register** publications, they are not repeated here. Requests for modification of special permits (e.g., to provide for additional hazardous materials, packaging design changes, additional mode of transportation, etc.) are described in footnotes to the

application number. Application numbers with the suffix "M" denote a modification request. These applications have been separated from the new application for special permits to facilitate processing.

DATES: Comments must be received on or before August 12, 2014.

ADDRESS COMMENTS TO: Record Center, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, Washington, DC 20590.

Comments should refer to the application number and be submitted in triplicate. If confirmation of receipt of comments is desired, include a self-addressed stamped postcard showing the special permit number.

FOR FURTHER INFORMATION CONTACT: Copies of the applications are available for inspection in the Records Center, East Building, PHH-30, 1200 New Jersey Avenue Southeast, Washington, DC or at <http://regulations.gov>.

This notice of receipt of applications for modification of special permit is published in accordance with Part 107 of the Federal hazardous materials transportation law (49 U.S.C. 5117(b); 49 CFR 1.53(b)).

Issued in Washington, DC, on July 17, 2014.

Donald Burger,

Chief, General Approvals and Permits.

Application No.	Docket No.	Applicant	Regulation(s) affected	Nature of special permit thereof
Modification Special Permits				
012116-M	Proserv UK Ltd, East Tullos, Aberdeen.	49 CFR 173.201, 173.302a, 173.304a and 173.301(f).	To modify the special permit to authorize a carboxysilicon coating to be applied and to certain cylinders.
14447-M	Taminco US Inc, Allentown, PA.	49 CFR 177.834(i), 172.203(a), and 172.302(c).	To modify the special permit to authorize the addition of Division 2.1, new Division 6.1, and new Class 3 and 8 materials.

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

Office of Hazardous Materials Safety; Notice of Application for Special Permits

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: List of Applications for Special Permits.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, special permits from the Department of Transportation's Hazardous Material Regulations (49 CFR part 107, Subpart B), notice is hereby given that the Office of Hazardous Materials Safety has received the application described herein. Each mode of transportation for which a particular special permit is requested is indicated by a number in the "Nature of Application" portion of the table below as follows: 1—Motor vehicle, 2—Rail freight, 3—Cargo vessel, 4—Cargo aircraft only, 5—Passenger-carrying aircraft.

DATES: Comments must be received on or before August 27, 2014.

ADDRESS COMMENTS TO: Record Center, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, Washington, DC 20590.

Comments should refer to the application number and be submitted in triplicate. If confirmation of receipt of comments is desired, include a self-addressed stamped postcard showing the special permit number.

FOR FURTHER INFORMATION CONTACT: Copies of the applications are available for inspection in the Records Center, East Building, PHI-I-30, 1200 New Jersey Avenue Southeast, Washington, DC or at <http://regulations.gov>.
