

Arrival at U.S. Ports: Sanitary Inspection; General Provisions) state that carriers arriving at U.S. ports from foreign areas are subject to sanitary inspections to determine whether rodent, insect, or other vermin infestations exist, contaminated food or water, or other sanitary conditions

requiring measures for the prevention of the introduction, transmission, or spread of communicable diseases are present.

The fee schedule for sanitation inspections of passenger cruise ships by VSP was first published in the **Federal Register** on November 24, 1987 (52 FR

45019). HHS/CDC began collecting fees on March 1, 1988. This notice announces fees that are effective for FY 2015, beginning on October 1, 2014, through September 30, 2015.

The following formula will be used to determine the fees:

$$\text{Average cost per inspection} = \frac{\text{Total cost of VSP}}{\text{Weighted number of annual inspections}}$$

The average cost per inspection is multiplied by size and cost factors to determine the fee for vessels in each size category. The size and cost factors were established in the fee schedule published in the **Federal Register** on July 17, 1987 (52 FR 27060). The fee schedule was most recently published in the **Federal Register** on August 21, 2013 (77 FR 50511). The size and cost factors for FY 2015 are presented in Appendix A.

Fee

The fee schedule (Appendix A) will be effective October 1, 2014, through September 30, 2015. If travel expenses or other charges to VSP change, the fee schedule may need to be adjusted before September 30, 2014. If a fee adjustment is necessary, HHS/CDC will publish a notice in the **Federal Register** with the amended fee schedule (Appendix A) as soon as possible and at least 30 days before the effective date.

Applicability

The fees will apply to all passenger cruise vessels for which inspections are conducted as part of HHS/CDC's VSP. Inspections and reinspections involve the same procedures, require the same amount of time, and are therefore charged at the same rates.

Dated: July 25, 2014.

Ron A. Otten,

Acting Deputy Associate Director for Science, Centers for Disease Control and Prevention.

Endangered Species Recovery Permit Applications

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of permit applications; request for comment.

SUMMARY: We, the U.S. Fish and Wildlife Service, invite the public to comment on the following applications to conduct certain activities with endangered species. With some exceptions, the Endangered Species Act (Act) prohibits activities with endangered and threatened species unless a Federal permit allows such activity. The Act also requires that we invite public comment before issuing

recovery permits to conduct certain activities with endangered species.

DATES: Comments on these permit applications must be received on or before September 2, 2014.

ADDRESSES: Written data or comments should be submitted to the Endangered Species Program Manager, U.S. Fish and Wildlife Service, Region 8, 2800 Cottage Way, Room W–2606, Sacramento, CA 95825 (telephone: 916–414–6464; fax: 916–414–6486). Please refer to the respective permit number for each application when submitting comments.

FOR FURTHER INFORMATION CONTACT: Daniel Marquez, Fish and Wildlife Biologist; see **ADDRESSES** (telephone: 760–431–9440; fax: 760–431–9624).

SUPPLEMENTARY INFORMATION: The following applicants have applied for scientific research permits to conduct certain activities with endangered species under section 10(a)(1)(A) of the Act (16 U.S.C. 1531 *et seq.*).
