DEPARTMENT OF EDUCATION

34 CFR Chapter III

[CFDA Number: 84.373M.]

Final Priority; Technical Assistance on State Data Collection—IDEA Data Management Center

AGENCY: Office of Special Education and Rehabilitative Services, Department of Education.

ACTION: Final priority.

SUMMARY: The Assistant Secretary for the Office of Special Education and Rehabilitative Services (OSERS) announces a priority under the Technical Assistance on State Data Collection program. The Assistant Secretary may use this priority for competitions in fiscal year (FY) 2014 and later years. We take this action to fund a cooperative agreement to establish and operate an IDEA Data Management Center (Center) that will provide technical assistance (TA) to improve the capacity of States to meet the data collection requirements of the Individuals with Disabilities Education Act (IDEA).

DATES: This priority is effective September 4, 2014.

FOR FURTHER INFORMATION CONTACT: Meredith Miceli, U.S. Department of Education, 400 Maryland Avenue SW., Room 4071, Potomac Center Plaza (PCP), Washington, DC 20202-2600. Telephone: (202) 245-6028 or by email: Meredith.Miceli@ed.gov.

If you use a telecommunications device for the deaf (TDD) or a text telephone (TTY), call the Federal Relay Service (FRS), toll free, at 1-800-877-8339.

SUPPLEMENTARY INFORMATION: *Purpose of Program:* The purpose of the Technical Assistance on State Data Collection program is to improve the capacity of States to meet the IDEA data collection and reporting requirements. Funding for the program is authorized under section 611(c)(1) of IDEA, which gives the Secretary the authority to reserve funds appropriated under Part B of the IDEA to provide TA activities authorized under section 616(i) of IDEA. Section 616(i) of IDEA requires the Secretary to review the data collection and analysis capacity of States to ensure that data and information determined necessary for implementation of IDEA section 616 are collected, analyzed, and accurately reported to the Secretary. It also requires the Secretary to provide TA, where needed, to improve the capacity of States to meet the data collection requirements under IDEA Parts B and C, which include the data collection requirements in IDEA sections 616 and 618.

Program Authority: 20 U.S.C. 1411(c), 1416(i), 1418(c), and 1442.

Applicable Program Regulations: 34 CFR 300.702.

We published a notice of proposed priority for this competition in the **Federal Register** on April 17, 2014 (79 FR 21663). That notice contained background information and our reasons for proposing this particular priority. Except for minor editorial and technical revisions (noted below), there are no differences between the proposed priority and this final priority. We made these minor technical revisions:

(a) Clarified the types of supports and TA the Center must provide when assisting States in the use of the open source tools developed, as described in subsection (b) of the *Technical Assistance and Dissemination Activities* section of this priority;

(b) Added the Center on Systemic Improvement (CSI) (if funded)¹ to the list of Department-funded projects that the Center must communicate and

collaborate with on an ongoing basis, as described in subsection (a) of the *Coordination Activities* section of this priority;

(c) Added application requirement (b)(4)(ii), which requires applicants to demonstrate how the Center will support State staff in taking a leadership role in restructuring and aligning data systems within States that are receiving TA from the Center; and

(d) Revised application requirement (f)(4)(ii), which requires applicants to budget for a two and one-half day project directors' meeting in Washington, DC, to occur every other year beginning with the meeting scheduled for Summer, 2016.

Public Comment: In response to our invitation in the notice of proposed priority, three parties submitted comments on the proposed priority.

We group major issues according to subject. Generally, we do not address technical and other minor changes, or comments not directly related to the proposed priority.

Analysis of Comments and Changes: An analysis of the comments and of any changes in the priority since publication of the notice of proposed priority follows.

Comment: Three commenters indicated there was overlap between the Center's activities and the activities of the IDEA Data Center (IDC) and the Center for IDEA Early Childhood Data Systems (DaSy).

Discussion: We do not agree that there is overlap between the Center's activities and the activities of IDC and DaSy. The Center will focus on: (1) Providing TA to States to improve their data management procedures and data systems architecture to build data files and reports to improve States' capacity to meet the Part B reporting requirements under sections 616 and 618 of IDEA; and (2) improving States' capacity to work with source systems (e.g., statewide longitudinal data systems (SLDS)) to report high-quality data as required under sections 616 and 618 of IDEA. The other data centers (IDC and DaSY) funded by the Office of Special Education Programs (OSEP) do not address the need to assist States in restructuring their existing, often fragmented, data systems and in aligning their data collection for students with disabilities with their data collection for the general student population in the SLDS so that States can improve the validity and reliability of the data they report to the Secretary and the public as required under section 616 and 618 of IDEA. The IDC is focused on assisting States with developing necessary data validation
