

and 16 years or older. Interested students will submit a job shadowing application package, and designation of their top three choices for the job shadowing experience to include but not limited to biomedical, chemistry, computer science, engineering, meteorology, and physics. Interested students will also identify two science, math, or technology teachers associated with their current school of enrollment to submit recommendation forms. Students may request a shadowing opportunity for a period of 1–5 days. This information collection renewal includes updates to the application package for clarity and comprehensibility, and transitions from a paper submittal process to an electronic submittal process.

II. Method of Collection

Electronic.

III. Data

Title: Kennedy Educational Experiences program (KEEP).

OMB Number: 2700–0135.

Type of Review: Extension of currently approved information collection with change.

Affected Public: Individuals.

Estimated Number of Respondents: 60.

Estimated Total Annual Burden Hours: 30.6.

Estimated Total Annual Cost to Respondents: \$0.

IV. Request for Comments

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of NASA, including whether the information collected has practical utility; (2) the accuracy of NASA's estimate of the burden (including hours and cost) of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including automated collection techniques or the use of other forms of information technology.

Comments submitted in response to this notice will be summarized and included in the request for OMB approval of this information collection. They will also become a matter of public record.

Frances Teel,

NASA PRA Clearance Officer.

BILLING CODE 7510–13–P

NATIONAL LABOR RELATIONS BOARD

Sunshine Act Meetings: August 2014

TIME AND DATES:

All meetings are held at 2:00 p.m.

Tuesday, August 5;
Wednesday, August 6;
Thursday, August 7;
Tuesday, August 12;
Wednesday, August 13;
Thursday, August 14;
Tuesday, August 19;
Wednesday, August 20;
Thursday, August 21;
Tuesday, August 26;
Wednesday, August 27;
Thursday, August 28.

PLACE: Board Agenda Room, No. 11820, 1099 14th St. NW., Washington, DC 20570.

STATUS: Closed.

MATTERS TO BE CONSIDERED: Pursuant to § 102.139(a) of the Board's Rules and Regulations, the Board or a panel thereof will consider "the issuance of a subpoena, the Board's participation in a civil action or proceeding or an arbitration, or the initiation, conduct, or disposition . . . of particular representation or unfair labor practice proceedings under section 8, 9, or 10 of the [National Labor Relations] Act, or any court proceedings collateral or ancillary thereto." See also 5 U.S.C. 552b(c)(10).

CONTACT PERSON FOR MORE INFORMATION: Henry Breitenreicher, Associate Executive Secretary, (202) 273–2917.

Dated: August 6, 2014.

William B. Cowen,

Solicitor.

BILLING CODE 7545–01–P

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB Review; Comment Request.

SUMMARY: Under the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3501 et seq.), and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting the general public and other Federal agencies to comment on this proposed continuing information collection. This is the second notice for public comment; the first was published in the *Federal Register* at 79 FR 20244

and no comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. The full submission may be found at: <http://www.reginfo.gov/public/do/PRAMain>.

DATES: Comments regarding these information collections are best assured of having their full effect if received by OMB within 30 days of publication in the *Federal Register*.

ADDRESSES: Written comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of NSF, including whether the information will have practical utility; (b) the accuracy of NSF's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; or (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Office of Information and Regulatory Affairs of OMB, Attention: Desk Officer for National Science Foundation, 725–17th Street NW., Room 10235, Washington, DC 20503, and to Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 1265, Arlington, Virginia 22230 or send email to splimpto@nsf.gov. Copies of the submission may be obtained by calling (703) 292–7556.

FOR FURTHER INFORMATION CONTACT: Suzanne H. Plimpton, NSF Reports Clearance Officer at (703) 292–7556 or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including Federal holidays).

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION:

Title of Collection: National Science Foundation Science Honorary Awards

OMB Control No.: 3145-0035.

Abstract: The National Science Foundation (NSF) administers several honorary awards, among them the President's National Medal of Science, the Alan T. Waterman Award, the National Science Board (NSB) Vannevar Bush Award, the NSB Public Service Award, the Presidential Awards for Excellence in Science, Mathematics and Engineering Mentoring (PAESMEM) program, and the Presidential Awards for Excellence in Mathematics and Science Teaching (PAEMST) program.

In 2003, to comply with E-government requirements, the nomination processes were converted to electronic submission through the National Science Foundation's (NSF) FastLane system or via other electronic systems as described in the individual nomination process. Individuals can now prepare nominations and references through www.fastlane.nsf.gov/honawards/. First-time users must register on the Fastlane Web site using the link found in the upper right-hand corner above the "Log In" box before accessing any of the honorary award categories. The nominations for PAESMEM also may be submitted via www.grants.gov. Nominations and applications are submitted on the PAEMST portal at www.PAEMST.org.

Use of the Information: The Foundation has the following honorary award programs:

- **President's National Medal of Science.** Statutory authority for the President's National Medal of Science is contained in 42 U.S.C. 1881 (Pub. L. 86-209), which established the award and stated that "(t)he President shall . . . award the Medal on the recommendations received from the National Academy of Sciences or on the basis of such other information and evidence as . . . appropriate."

Subsequently, Executive Order 10961 specified procedures for the Award by establishing a National Medal of Science Committee which would "receive recommendations made by any other nationally representative scientific or engineering organization." On the basis of these recommendations, the Committee was directed to select its candidates and to forward its recommendations to the President.

In 1962, to comply with these directives, the Committee initiated a solicitation form letter to invite these nominations. In 1979, the Committee initiated a nomination form as an attachment to the solicitation letter. A slightly modified version of the nomination form was used in 1980.

The Committee has established the following considerations for selection of candidates:

- a. The impact of an individual's body of work on the current state of his or her field of science or engineering;

- b. Whether the individual's achievements are of an unusually significant nature in relation to the potential effects on the development of thought in his or her field of science or engineering;

- c. Whether the nominee has demonstrated unusually distinguished service in the general advancement of science and/or engineering for the Nation, especially when accompanied by substantial contributions to the content of science;

- d. The recognition of the nominee by peers within his or her community, and whether s/he is recognized for substantial impact in fields in addition to his/her discipline;

- e. If the nominee has made contributions to innovation and industry;

- f. Whether the nominee has demonstrated sustained influence on education through publications, teaching activities, outreach, mentoring, etc., and;

- g. Whether the nominee's contributions have created significant positive impact for the Nation.

In 2003, the Committee changed the active period of eligibility to three years, including the year of nomination. After that time, candidates must be renominated with a new nomination package for them to be considered by the Committee.

Narratives are now restricted to three pages of text, as stipulated in the guidelines at: <https://www.fastlane.nsf.gov/honawards/medalHome.do>.

- **Alan T. Waterman Award.** Congress established the Alan T. Waterman Award in August 1975 (42 U.S.C. 1881a (Pub. L. 94-86) and authorized NSF to "establish the Alan T. Waterman Award for research or advanced study in any of the sciences or engineering" to mark the 25th anniversary of the National Science Foundation and to honor its first Director. The annual award recognizes an outstanding young researcher in any field of science or engineering supported by NSF. In addition to a medal, the awardee receives a grant of \$1,000,000 over a five-year period for scientific research or advanced study in the mathematical, physical, medical, biological, engineering, social, or other sciences at the institution of the recipient's choice.

The Alan T. Waterman Award Committee was established by NSF to comply with the directive contained in

Public Law 94-86. The Committee solicits nominations from members of the National Academy of Sciences, National Academy of Engineering, scientific and technical organizations, and any other source, public or private, as appropriate.

In 1976, the Committee initiated a form letter to solicit these nominations. In 1980, a nomination form was used which standardized the nomination procedures, allowed for more effective Committee review, and permitted better staff work in a short period of time. On the basis of its review, the Committee forwards its recommendation to the Director, NSF, and the National Science Board (NSB).

Candidates must be U.S. citizens or permanent residents and must be 35 years of age or younger or not more than seven years beyond receipt of the Ph.D. degree by December 31 of the year in which they are nominated. Candidates should have demonstrated exceptional individual achievements in scientific or engineering research of sufficient quality to place them at the forefront of their peers. Criteria include originality, innovation, and significant impact on the field.

- **Vannevar Bush Award.** The NSB established the Vannevar Bush Award in 1980 to honor Dr. Bush's unique contributions to public service. The award recognizes an individual who, through public service activities in science and technology, has made an outstanding "contribution toward the welfare of mankind and the Nation."

The NSB *ad hoc* Committee on Honorary Awards annually solicits nominations from science, engineering and educational societies. A candidate must be a senior statesperson who is an American citizen and meets two or more of the following criteria:

1. Distinguished himself/herself through public service activities in science and technology.

2. Pioneered the exploration, charting, and settlement of new frontiers in science, technology, education, and public service.

3. Demonstrated leadership and creativity that have inspired others to distinguished careers in science and technology.

4. Contributed to the welfare of the Nation and mankind through activities in science and technology.

5. Demonstrated leadership and creativity that have helped mold the history of advancements in the Nation's science, technology, and education.

Nominations must include a narrative description about the nominee, a curriculum vitae (without publications), and a brief citation summarizing the

nominee's scientific or technological contributions to our national welfare in promotion of the progress of science. Nominations must also include two reference letters, submitted separate from the nomination through www.fastlane.nsf.gov/honawards/. Nominations remain active for three years, including the year of nomination. After that time, candidates must be renominated with a new nomination for them to be considered by the selection committee.

- **NSB Public Service Award.** The NSB Public Service Award Committee was established in November 1996. This annual award recognizes people and organizations that have increased the public understanding of science or engineering. The award is given to an individual and to a group (company, corporation, or organization), but not to members of the U.S. Government.

Eligibility includes any individual or group (company, corporation, or organization) that has increased the public understanding of science or engineering. Members of the U.S. Government are not eligible for consideration.

Candidates for the individual and group (company, corporation, or organization) award must have made contributions to public service in areas other than research, and should meet one or more of the following criteria:

1. Increased the public's understanding of the processes of science and engineering through scientific discovery, innovation and its communication to the public.
2. Encouraged others to help raise the public understanding of science and technology.
3. Promoted the engagement of scientists and engineers in public outreach and scientific literacy.
4. Contributed to the development of broad science and engineering policy and its support.
5. Influenced and encouraged the next generation of scientists+ and engineers.
6. Achieved broad recognition outside the nominee's area of specialization.
7. Fostered awareness of science and technology among broad segments of the population.

Nominations must include a summary of the candidate's activities as they relate to the selection criteria; the nominator's name, address and telephone number; the name, address, and telephone number of the nominee; and the candidate's vita, if appropriate (no more than three pages).

The selection committee recommends the most outstanding candidate(s) for each category to the NSB, which approves the awardees.

Nominations remain active for a period of three years, including the year of nomination. After that time, candidates must be renominated with a new nomination for them to be considered by the selection committee.

- **Presidential Awards for Excellence in Science, Mathematics and Engineering Mentoring (PAESMEM)** program

In 1996, the White House, through the National Science and Technology Council (NSTC) and the Office of Science and Technology Policy (OSTP), established the Presidential Awards for Excellence in Science, Mathematics and Engineering Mentoring (PAESMEM) program. The program, administered on behalf of the White House by the National Science Foundation, seeks to identify outstanding mentoring efforts or programs designed to enhance the participation of groups (women, minorities and persons with disabilities as well as groups from low socioeconomic regions) underrepresented in science, mathematics and engineering. The awardees will serve as exemplars to their colleagues and will be leaders in the national effort to more fully develop the Nation's human resources in science, mathematics and engineering. This award is managed at NSF by the Directorate for Education and Human Resources (EHR).

The award will be made to U.S. citizens or U.S. permanent residents based on the following: (1) An individual who has demonstrated outstanding and sustained mentoring and effective guidance to a significant number of early career STEM professionals, students at the K–12, undergraduate, or graduate education level or (2) to an organization that, through its programming, has enabled a substantial number of students underrepresented in science, mathematics and engineering to successfully pursue and complete the relevant degree programs as well as mentoring of early career STEM professionals. Nominees must have served in a mentoring role for at least five years. Nominations are reviewed for impact, significance of the mentoring activity and quality of the mentoring activity. Nominations for organizational awards must demonstrate rigorous evaluation and/or assessment during the five-year period of the mentoring activity.

Award Ceremony

The awardees are hosted for two days in Washington, DC, for celebratory activities. Recipients of the PAESMEM award receive a monetary award in the

amount of \$10,000 from NSF and a commemorative Presidential certificate. If scheduling permits, the President meets with the mentors for a photo opportunity at the White House. The Director of OSTP and the Director of NSF present the awards to the mentors at an awards ceremony.

- **Presidential Award for Excellence in Mathematics and Science Teaching**

The Presidential Award for Excellence in Mathematics and Science Teaching (PAEMST) is the highest recognition that a kindergarten through 12th-grade mathematics or science teacher may receive for outstanding teaching in the United States. Enacted by Congress in 1983, this program authorizes the President to bestow 108 awards, assuming there are qualified applicants. In even-numbered years, nominations are accepted for elementary teachers (grades K–6); in odd-numbered years, secondary teachers (grades 7–12) are nominated. This award is managed at NSF by the Directorate for Education and Human Resources (EHR).

Nomination Criteria

A teacher may be nominated by a principal, another teacher, students, members of the community, or the general public. Self-nominations are allowed. Awardees must be either U.S. Citizens or U.S. Permanent Residents. A Nominee must meet the following criteria to apply:

- Be highly qualified as deemed by their states, districts, or schools;
- Teach in one of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, and the four U.S. territories, including the Department of Defense Schools (DoDEA).
- Hold a degree or appropriate credentials in the category for which they are applying.
- Be a full-time employee of the school or school district.
- Have at least 5 years of mathematics or science teaching (including computer science) experience prior to application.
- Teach mathematics or science at the kindergarten through 6th grade level or at the 7th through 12th grade level in a public or private school.
- Not have received the national PAEMST award in any prior competition or category.

Application Process

- Applicants complete a 12-page written document on five dimensions of outstanding teaching (content knowledge, pedagogy, assessment, leadership and professional development) and submit a video of one

class. Three letters of reference including one from a school official are required, along with a resume or biographical sketch.

- The applicant has a 7-month period (October to May) to complete applications and submit them for state review. The nomination period is from October to April.

Review of Nominations

- State coordinators convene state selection committees of prominent mathematicians, scientists, mathematics and science educators, and past awardees to select up to five mathematics and five science finalists for recognition at the state level and for submission to NSF. To ensure consistency, state selection committees review their applications using the same criteria and scoring information that was approved by OSTP.

- NSF (EHR) convenes a National Selection Committee of prominent mathematicians, scientists, mathematics and science educators, and past awardees that review the application packets of the state finalists and make recommendations to NSF. NSF reviews these recommendations and recommends one awardee in both mathematics and science for all eligible jurisdictions, when possible, to OSTP. Alternatively, NSF may recommend two awardees from a discipline in a jurisdiction, when warranted.

Award Ceremony

The awardees are hosted for 3–4 days in Washington, DC, for a variety of professional development sessions and celebratory activities. Each awardee receives a citation signed by the President and \$10,000 from NSF. If scheduling permits, the President meets the teachers for a photo opportunity at the White House. The Director of OSTP and the Director of NSF present the citations to the teachers at an awards ceremony. Awardees also have the opportunity to meet their congressional representatives and education representatives from other federal agencies.

Estimate of Burden: These are annual award programs with application deadlines varying according to the program. Public burden also may vary according to program; however, across all the programs, it is estimated that each submission will average 19 hours per respondent. If the nominator is thoroughly familiar with the disciplinary background of the nominee, time spent to complete the nomination may be considerably reduced.

Respondents: Individuals, businesses or other for-profit organizations,

universities, non-profit institutions, and Federal and State governments.

Estimated Number of Responses per Award: 1782 responses, broken down as follows: For the President's National Medal of Science, 80; for the Alan T. Waterman Award, 70; for the Vannevar Bush Award, 12; for the Public Service Award, 20; for the PAESMEM, 200; and 1400 for the PAEMST.

Estimated Total Annual Burden on Respondents: 41,080 hours, broken down by 1,600 hours for the President's National Medal of Science (20 hours per 80 respondents); 1,400 hours for the Alan T. Waterman Award (20 hours per 70 respondents); 180 hours for the Vannevar Bush Award (15 hours per 12 respondents); 300 hours for the Public Service Award (15 hours per 20 respondents); 4,000 hours for the PAESMEM (20 hours per 200 respondents); and 33,600 hours for the PAEMST (24 hours per 1400 respondents).

Frequency of Responses: Annually.
Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; or (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: August 4, 2014.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555-01-P

NATIONAL SCIENCE FOUNDATION

Notice of Permit Applications Received under the Antarctic Conservation Act of 1978 (P.L. 95-541)

AGENCY: National Science Foundation

ACTION: Notice of Permit Applications Received under the Antarctic Conservation Act of 1978, Public Law 95-541.

SUMMARY: The National Science Foundation (NSF) is required to publish

a notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45 Part 670 of the Code of Federal Regulations. This is the required notice of permit applications received.

DATES: Interested parties are invited to submit written data, comments, or views with respect to this permit application by September 8, 2014. This application may be inspected by interested parties at the Permit Office, address below.

ADDRESSES: Comments should be addressed to Permit Office, Room 755, Division of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230.

FOR FURTHER INFORMATION CONTACT: Li Ling Hamady, ACA Permit Officer, at the above address or ACApermits@nsf.gov or (703) 292-7149.

SUPPLEMENTAL INFORMATION: The National Science Foundation, as directed by the Antarctic Conservation Act of 1978 (Public Law 95-541), as amended by the Antarctic Science, Tourism and Conservation Act of 1996, has developed regulations for the establishment of a permit system for various activities in Antarctica and designation of certain animals and certain geographic areas requiring special protection. The regulations establish such a permit system to designate Antarctic Specially Protected Areas.

Application Details

1. *Applicant* Permit Application: 2015-005

Matthew Lazzara
1225 W Dayton St
