

Respondents/affected entities: Owners or operators of paint stripping and miscellaneous surface coating operations area sources.

Respondent's obligation to respond: Mandatory (40 CFR Part 63, Subpart HHHHHH).

Estimated number of respondents: 39,812 (total).

Frequency of response: Initially, annually, and occasionally.

Total estimated burden: 125,171. Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$12,157,130, includes \$116,822 annualized capital or operation & maintenance costs.

Changes in the estimates: There is an apparent increase in the total estimated respondent cost burden as currently identified in the OMB Inventory of Approved Burdens. The increase is not due to any program changes. It primarily is attributed to corrections to the previous renewal's burden calculations, which omitted technical and managerial labor burdens associated with painter certification recordkeeping activities conducted by commercial miscellaneous surface coating operations at area sources, as presented in Table 1a. This omission was inconsistent with the approach used throughout the remainder of the previous renewal and is inconsistent with the approach typically used by the Agency to calculate the respondent labor burden. Also, this renewal uses updated labor rates, which further contributed to the apparent increase in the respondent burden cost. This ICR references labor rates from the Bureau of Labor Statistics to calculate the respondent cost burden.

There is a decrease in the total O&M cost as compared to the previous renewal. This change also is not due to any program changes, and is attributed directly to corrections made to the previous renewal's calculations. The previous renewal overestimated the number of initial report and notification that are required for new sources. This renewal revises the calculations which resulted in the observed decrease in the total O&M cost.

Spencer Clark,

Acting Director, Collection Strategies Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9915-33-Region-3]

Clean Air Act Operating Permit Program; Petition to Object to Title V Permits for the Homer City and Bruce Mansfield Electric Generating Facilities; Pennsylvania

AGENCY: Environmental Protection Agency.

ACTION: Notice of final action.

SUMMARY: Pursuant to the Clean Air Act (CAA), the Environmental Protection Agency (EPA) Administrator signed an Order, dated July 30, 2014, partially granting and partially denying petitions to object to two state operating permits issued by the Pennsylvania Department of Environmental Protection (PaDEP). The Order responds to a September 12, 2012 petition, and a May 15, 2013 supplement to that petition, relating to EME Homer City Generation L.P.'s Homer City plant in Indiana County, as well as an October 22, 2012 petition, which relates to First Energy Generation Corporation's Bruce Mansfield plant in Beaver County. The petitions were submitted by the Sierra Club. In the Bruce Mansfield petition, Sierra Club was joined by the Little Blue Regional Action Group (LBRAG), Environmental Integrity Project (EIP), Group Against Smog and Pollution (GASP), and Clean Air Council (CAC). This Order constitutes final action on those petitions requesting that the Administrator object to the issuance of the proposed CAA title V permit.

ADDRESSES: Copies of the final Order, the petition, and all pertinent information relating thereto are on file at the following location: EPA, Region III, Air Protection Division (APD), 1650 Arch St., Philadelphia, Pennsylvania 19103. EPA requests that if at all possible, you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view copies of the final Order, petition, and other supporting information. You may view the hard copies Monday through Friday, from 9 a.m. to 3 p.m., excluding Federal holidays. If you wish to examine these documents, you should make an appointment at least 24 hours before the visiting day. The final Order is also available electronically at the following Web site: <http://www.epa.gov/region07/air/title5/petitiondb/petitiondb.htm>.

FOR FURTHER INFORMATION CONTACT: David Talley, Air Protection Division, EPA Region III, telephone (215) 814-2117, or by email at talley.david@epa.gov.

SUPPLEMENTARY INFORMATION: The CAA affords EPA a 45-day period to review and object to, as appropriate, operating permits proposed by state permitting authorities. Section 505(b)(2) of the CAA authorizes any person to petition the EPA Administrator within 60 days after the expiration of this review period to object to a state operating permit if EPA has not done so. Petitions must be based only on objections raised with reasonable specificity during the public comment period, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or that the grounds for objection or other issue arose after the comment period.

In the Homer City petition and Homer City supplemental petition (numbered III-2012-06 and III-2013-03 respectively), the petitioner sought the EPA objection on the following issues: (1) The proposed permit fails to include the general prohibition against air pollution found in Pennsylvania's State Implementation Plan (PA SIP); (2) the proposed permit fails to include emission limits and averaging periods sufficient to prevent the Homer City plant from causing impermissible air pollution in the form of harmful concentrations of sulfur dioxide (SO₂) in violation of the state adopted, federally-enforceable acid rain provisions and the PA SIP; (3) the proposed permit fails to require sufficient emissions limits and monitoring requirements to ensure compliance with particulate matter (PM) standards; (4) the proposed permit impermissibly claims to apply a permit shield to unidentified future projects; and (5) various miscellaneous claims not separately identified in the petition. The Homer City supplemental petition identifies the following bases on which the EPA should object: (1) Pennsylvania's general prohibition on harmful air pollution is an applicable requirement with which the permit must assure compliance; and (2) Pennsylvania's acid rain regulations are federally-enforceable applicable requirements with which the permit must assure compliance. The PaDEP issued the final Homer City operating permit (No. 32-00055) on November 16, 2012.

In the Mansfield petition (numbered III-2012-07), the petitioners sought the EPA objection on the following issues: (1) The proposed permit fails to include numerical emission limits and monitoring sufficient to prevent the facility from causing impermissible air pollution in the form of harmful concentrations of SO₂ as well as violations of an applicable acid rain provision; (2) the proposed permit fails

to require adequate monitoring to assure compliance with its PM emission limits; (3) the proposed permit fails to require adequate monitoring to assure compliance with its opacity limits; and (4) various miscellaneous claims not separately identified in the petition. The PaDEP issued the final operating permit (No. 04-00235) on February 8, 2013. The Order explains the reasons behind EPA's decision to partially grant and partially deny the petition for objection. Pursuant to section 505(b)(2) of the CAA, the petitioner may seek judicial review of those portions of the Homer City and Bruce Mansfield petitions which EPA denied in the United States Court of Appeals for the appropriate circuit. Any petition for review shall be filed within 60 days of this notice in accordance with the requirements of section 307 of the CAA.

Dated: August 6, 2014.

William C. Early,

Acting Regional Administrator, Region III.

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

Information Collection Being Reviewed by the Federal Communications Commission.

AGENCY: Federal Communication Commission.

ACTION: Notice and request for comments.

SUMMARY: The Federal Communications Commission (FCC), as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995. Comments are requested concerning: (a) Whether the proposed collection(s) of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection(s) of information on the respondents, including the use of automated collection techniques or other forms of information technology; and (e) ways to further reduce the information burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it

displays a currently valid Office of Management and Budget (OMB) Control Number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid OMB Control Number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before September 17, 2014. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Leslie F. Smith, Federal Communications Commission (FCC), via email PRA@fcc.gov or to Leslie.Smith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information the information collection, contact Leslie F. Smith at (202) 418-0217.

SUPPLEMENTARY INFORMATION: The Commission is requesting that OMB approve this new information collection under the emergency processing provisions of the PRA, 5 C.F.R. Sections 1320.5, 1320.8(d), and 1320.13 by September 19, 2014.

OMB Control Number: 3060-XXXX.

Title: Application to Participate in Rural Broadband Experiments and Post-Selection Review of Rural Broadband Experiment Winning Bidders.

Form Number: FCC 5610 and 5620.

Type of Review: New information collection.

Respondents: Business or other for-profit, and Not-for-profit institutions.

Number of Respondents and Responses: 500 respondents; 520 responses.

Estimated Time Per Response: 5-10 hours.

Frequency of Response: One time and occasion reporting requirements.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. sections 151-154 and 254.

Total Annual Burden: 2,700 hours.

Total Annual Cost: No cost(s).

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: Information collected in FCC Form 5610 will be confidential until winning applicants are announced. At that time, the proposals submitted by winning applicants will be made publicly available. All other proposals submitted will remain confidential. Information collected in FCC Form 5620 will be confidential.

Needs and Uses: Under this information collection, the Commission proposes to collect information to determine applicants that will be selected to participate in the rural broadband experiments and whether winning bidders are technically and financially capable of receiving funding for rural broadband experiment projects. To aid in collecting this information regarding the rural broadband experiments, the Commission has created proposed FCC Form 5610 and FCC Form 5620, which applicants will use to apply to participate in the rural broadband experiments. This information will be used to determine which applicants submit the most-cost effective proposals in each funding category and whether winning bidders have the technical and financial qualifications to successfully complete the proposed project within the required timeframes.

The Communications Act of 1934, as amended requires the "preservation and advancement of universal service." The information collection requirements reported under this new collection are the result of various Commission actions to promote the Act's universal service goals, while minimizing waste, fraud, and abuse.

Federal Communications Commission.

Gloria J. Miles,

Federal Register Liaison.

BILLING CODE 6712-01-P

FEDERAL RESERVE SYSTEM

Change in Bank Control Notices; Acquisitions of Shares of a Bank or Bank Holding Company

The notificants listed below have applied under the Change in Bank Control Act (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire shares of a bank or bank holding company. The factors that are considered in acting on the notices are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The notices are available for immediate inspection at the Federal Reserve Bank indicated. The notices also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing to the Reserve Bank indicated for that notice or to the offices of the Board of Governors. Comments must be received not later than September 2, 2014.

A. Federal Reserve Bank of Atlanta (Chapelle Davis, Assistant Vice
