Acquisition Regulation; Incorporation of Class Deviation to Notification of Conflicts of Interest Regarding Personnel and Project Employee Confidentiality Agreement

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) proposes to amend the EPA Acquisition Regulation (EPAAR) to incorporate a class deviation to clause 1552.209-73, Notification of Conflicts of Interest Regarding Personnel, and 1552.227-76, Project Employee Confidentiality Agreement, and their respective prescriptions, to include Alternate 1 for the subcontract flow-down requirements for other than Superfund work. The class deviation to the two clauses was executed to address the increased use of these conflict of interest (COI) clauses in non-Superfund contracts to better protect the Agency from COI. The Superfund flow-down language in the basic clauses does not apply or relate to non-Superfund contracts and would likely be confusing if the Superfund specific language was not deleted. The proposed rule also provides for minor administrative edits.

DATES: Comments must be received on or before September 18, 2014.

SUPPLEMENTARY INFORMATION:

I. General Information

1. *Submitting CBI.* Do not submit this information to EPA through www.regulations.gov or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI, and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR Part 2.

2. *Tips for Preparing Your Comments.* When submitting comments, remember to:

- Identify the rulemaking by docket number and other identifying information (subject heading, **Federal Register** date and page number).
- Follow directions—The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- Explain why you agree or disagree, suggest alternatives, and substitute language for your requested changes.
- Describe any assumptions and provide any technical information and/or data that you used.
- If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- Provide specific examples to illustrate your concerns, and suggest alternatives.
- Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

- Make sure to submit your comments by the comment period deadline identified.

II. Background

EPA is updating the EPAAR to incorporate a class deviation that was executed to add subcontract flow-down requirements for other than Superfund work to the two clauses: 1552.209-73 and 1552.227-76. The Agency's COI clauses are generally written to address COI for the Superfund programs. These two clauses are increasingly included in non-Superfund contracts to better protect the Agency from COI. The Superfund specific flow-down language in the respective clauses do not generally apply or relate to non-Superfund contracts and would likely be confusing if it was not deleted. To address this, the proposed rule includes an Alternate 1 that provides subcontract flow-down requirements for other than Superfund work, as well as minor administrative edits.

III. Proposed Rule

This proposed rule includes the following content changes: (1) Adds prescriptive language to 1509.507-2(b) for an Alternate 1 under clause 1552.209-73 that replaces paragraph (d) for other than Superfund work. (2) For clause 1552.209-73, Alternate 1 is added for other than superfund work under paragraph (d) that addresses subcontract flow-down requirements. (3) Under 1527.409, prescriptive language is added for an Alternate 1 for clause 1552.227-76 that replaces paragraph (d) for other than Superfund work. (4) Under Clause 1552.227-76, Alternate 1 is added for other than Superfund work for paragraph (d) that addresses subcontract flow-down requirements. (5) The proposed rule also provides minor administrative edits.

IV. Statutory and Executive Order Reviews

A. Executive Order 12866: Regulatory Planning and Review

This action is not a "significant regulatory action" under the terms of Executive Order (EO) 12866 (58 FR 51735, October 4, 1993) and therefore, not subject to review under the EO.

B. Paperwork Reduction Act

This action does not impose an information collection burden under the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 et seq. No information is collected under this action.

C. Regulatory Flexibility Act (RFA), as Amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA), 5 U.S.C. 601 et seq.

The Regulatory Flexibility Act generally requires an agency to prepare a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements under the Administrative Procedure Act or any other statute; unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small organizations, and small governmental jurisdictions.

For purposes of assessing the impact of today's final rule on small entities, "small entity" is defined as: (1) A small business that meets the definition of a small business found in the Small Business Act and codified at 13 CFR 121.201; (2) a small governmental jurisdiction that is a government of a city, county, town, school district or special district with a population of less than 50,000; and (3) a small organization that is any not-for-profit enterprise which is independently owned and operated and is not dominant in its field.

After considering the economic impacts of this rule on small entities, I certify that this action will not have a significant economic impact on a substantial number of small entities. This action revises a current EPAAR provision and does not impose requirements involving capital investment, implementing procedures, or record keeping. This rule will not have a significant economic impact on small entities.

D. Unfunded Mandates Reform Act

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA), Public Law 104-4, establishes requirements for Federal agencies to assess the effects of their regulatory actions on State, Local, and Tribal governments and the private sector.

This rule contains no Federal mandates (under the regulatory provisions of the Title II of the UMRA) for State, Local, and Tribal governments or the private sector. The rule imposes no enforceable duty on any State, Local or Tribal governments or the private sector. Thus, the rule is not subject to the requirements of sections 202 and 205 of the UMRA.

E. Executive Order 13132: Federalism

Executive Order 13132, entitled "Federalism" (64 FR 43255, August 10, 1999), requires EPA to develop an

accountable process to ensure “meaningful and timely input by State and Local officials in the development of regulatory policies that have federalism implications.” “Policies that have federalism implications” is defined in the Executive Order to include regulations that have “substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.”

This rule does not have federalism implications. It will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government as specified in Executive Order 13132.

F. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

Executive Order 13175, entitled “Consultation and Coordination with Indian Tribal Governments” (65 FR 67249, November 9, 2000), requires EPA to develop an accountable process to ensure “meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications.” This rule does not have tribal implications as specified in Executive Order 13175.

G. Executive Order 13045: Protection of Children From Environmental Health and Safety Risks

Executive Order 13045, entitled “Protection of Children from Environmental Health and Safety Risks” (62 FR 19885, April 23, 1997), applies to any rule that: (1) Is determined to be economically significant as defined under Executive Order 12866, and (2) concerns an environmental health or safety risk that may have a proportionate effect on children. This rule is not subject to Executive Order 13045 because it is not an economically significant rule as defined by Executive Order 12866, and because it does not involve decisions on environmental health or safety risks.

H. Executive Order 13211: Actions That Significantly Affect Energy Supply, Distribution, or Use

This proposed rule is not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution of Use” (66 FR 28335, May 22, 2001), because it is not a significant

regulatory action under Executive Order 12866.

I. National Technology Transfer and Advancement Act of 1995 (NTTAA)

Section 12(d) (15 U.S.C. 272 note) of NTTA, Public Law 104–113, directs EPA to use voluntary consensus standards in its regulatory activities unless to do so would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., materials specifications, test methods, sampling procedures and business practices) that are developed or adopted by voluntary consensus standards bodies. The NTTA directs EPA to provide Congress, through OMB, explanations when the Agency decides not to use available and applicable voluntary consensus standards.

This proposed rulemaking does not involve technical standards. Therefore, EPA is not considering the use of any voluntary consensus standards.

J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations

Executive Order (EO) 12898 (59 FR 7629, Feb. 16, 1994) establishes federal executive policy on environmental justice. Its main provision directs federal agencies, to the greatest extent practicable and permitted by law, to make environmental justice part of their mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of their programs, policies, and activities on minority populations and low-income populations in the United States.

EPA has determined that this proposed rule will not have disproportionately high and adverse human health or environmental effects on minority or low-income populations because it does not affect the level of protection provided to human health or the environment. This proposed rulemaking does not involve human health or environmental effects.

I. Further Notice of Proposed Rulemaking

1. In this FNPRM we seek further comment on meeting the future funding needs of the E-rate program in light of the goals we adopt for the program today. We also seek comment on several discrete issues that may further simplify the administration of the E-rate program by continuing to reduce the burden on applicants of applying for and receiving E-rate support, as well as promoting cost-effective purchasing through multi-year contracts and consortium purchasing. Specifically, we seek comment on ensuring that multi-year contracts are efficient. We also seek comment on proposals to ensure the efficient use of NSLP data. In particular, we seek to require participating NSLP schools to use their NSLP eligibility for purposes of calculating their school’s discount rate calculation, rather than
