SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR Part 63, Subpart A, and any changes, or additions specified at 40 CFR Part 63, Subpart YYYYY. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports addressing (1) the number of mercury switches removed or the weight of mercury recovered from the switches and properly managed, the estimated number of vehicles processed, an estimate of the percent of mercury switches recovered, and a certification that the recovered mercury switches were recycled at RCRA-permitted facilities, and (2) the control of contaminants from scrap according to the requirements in § 63.10(e) are required semiannually.

Form Numbers: None.

Respondents/affected entities:

Owners or operators of electric arc furnace steelmaking facilities.

Respondent's obligation to respond: Mandatory (40 CFR Part 63, Subpart YYYYY).

Estimated number of respondents: 87 (total).

Frequency of response: Initially, semiannually and occasionally.

Total estimated burden: 1,417 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$136,341 (per year), includes no annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease in the respondent burden and

an increase in Agency burden. These changes occurred due to the following adjustment: (1) This ICR revises the number of respondents from 91 to 87 based on input provided from industry trade association; and (2) This ICR corrects the frequency of semiannual report review from one to two in Table 2. This correction results in an increase in the estimated Agency burden.

Spencer Clark,

Acting Director, Collection Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9914-40-Region 8]

Proposed Windfall Lien Settlement Agreement, Eaton Sugar Beet Factory Superfund Site, Eaton, Colorado

AGENCY: Environmental Protection Agency.

ACTION: Notice of proposed agreement; request for public comment.

SUMMARY: In accordance with the requirements of section 122(h)(1) of the Comprehensive Environmental Response Compensation, and Liability Act of 1980, as amended ("CERCLA"), 42 U.S.C. 9622(h)(1), notice is hereby given of the proposed administrative settlement under section 107(r) of CERCLA, 42 U.S.C. 9607(r) between the U.S. Environmental Protection Agency ("EPA") and the Town of Eaton, Colorado, ("Settling Party"). The Settling Party consents to and will not contest the authority of the United States to enter into this Agreement or to implement or enforce its terms.

The Settling Party, qualifying as a bona fide prospective purchaser as provided for under CERCLA section 107(r)(1), 42 U.S.C. 9607(4)(1), took title to the site of the abandoned Eaton Sugar Beet Factory in 2009 through the purchase of tax liens. The EPA conducted a time critical removal action to address asbestos contamination at the factory site from November of 2011 through April of 2013. EPA now seeks to enter into a settlement agreement for the release of the windfall lien that arose as a result of the asbestos removal action. The value of a windfall lien is limited to the increase in the fair market value of the land that was cleaned up by EPA and is limited also by the amount of the EPA's unrecovered response costs. The increased value of the land owned by the Settling Parties is \$226,283.14.

The Settling Parties recognize that this Agreement has been negotiated in good faith and that this Agreement is entered into without the admission or adjudication of any issue of fact or law.

DATES: Comments must be submitted on or before September 22, 2014. For thirty (30) days following the date of publication of this document, the Agency will receive written comments relating to the agreement. The Agency will consider all comments received and may modify or withdraw its consent to the agreement if comments received disclose facts or considerations that indicate that the agreement is inappropriate, improper, or inadequate.

ADDRESSES: The Agency's response to any comments, the proposed agreement and additional background information relating to the agreement is available for public inspection at the EPA Superfund Record Center, 1595 Wynkoop Denver, Colorado.

Comments and requests for a copy of the proposed agreement should be addressed to Maureen O'Reilly, Enforcement Specialist, Environmental Protection Agency—Region 8, Mail Code 8ENF-RC, 1595 Wynkoop Street, Denver, Colorado 80202, and should reference the Eaton Sugar Beet Factory Superfund Site, Eaton, Colorado.

Additional information about the 2015 DGAC and this meeting is available on the Internet at www.DietaryGuidelines.gov.

SUPPLEMENTARY INFORMATION: Under Section 301 of Public Law 101-445 (7 U.S.C. 5341, the National Nutrition Monitoring and Related Research Act of 1990, Title III) the Secretaries of Health and Human Services (HHS) and Agriculture (USDA) are directed to issue at least every five years a report titled *Dietary Guidelines for Americans*. The law instructs that this publication shall contain nutritional and dietary information and guidelines for the general public, shall be based on the preponderance of scientific and medical knowledge current at the time of publication, and shall be promoted by each federal agency in carrying out any federal food, nutrition, or health

program. The *Dietary Guidelines for Americans* was issued voluntarily by HHS and USDA in 1980, 1985, and 1990; the 1995 edition was the first statutorily mandated report, followed by subsequent editions at appropriate intervals. To assist with satisfying the mandate, a discretionary federal advisory committee is established every five years to provide independent, science-based advice and recommendations. The DGAC consists of a panel of experts who were selected from the public/private sector. Individuals who were selected to serve on the Committee have current scientific knowledge in the field of human nutrition and chronic disease.

Appointed Committee Members:

Fourteen members currently serve on the 2015 DGAC. They were appointed by the Secretaries of HHS and USDA in May 2013. Information on the DGAC membership is available at www.DietaryGuidelines.gov.

Authority: The 2015 DGAC is authorized under 42 U.S.C. 217a, Section 222 of the Public Health Service Act, as amended.

Committee's Task: The work of the DGAC is solely advisory in nature and time-limited. The Committee is tasked with developing recommendations based on the preponderance of current scientific and medical knowledge using a systematic review approach. The DGAC will examine the current *Dietary Guidelines for Americans*, take into consideration new scientific evidence and current resource documents, and develop a report that is to be given to the Secretaries of HHS and USDA. The report will outline science-based recommendations and rationales which will serve as the basis for developing the eighth edition of the *Dietary Guidelines for Americans*. It is planned for the Committee to hold approximately six public meetings to review and discuss recommendations. This will be the fifth meeting of the 2015 DGAC. Meeting dates, times, locations, and other relevant information are announced at least 15 days in advance of each meeting via **Federal Register** notice. As stipulated in the charter, the Committee will be terminated after delivery of its final report to the Secretaries of HHS and USDA or two years from the date the charter was filed, whichever comes first.

Purpose of the Meeting: In accordance with FACA and to promote transparency of the process, deliberations of the Committee will occur in a public forum. At this meeting, the Committee will continue its deliberations.
