

The burden hours we will request are based on the expected 2015 and 2016 Annual Survey of Public Employment & Payroll mail out of 16,432 forms for each survey year, and the expected 2017 Census of Governments: Employment mail-out of 99,726 forms. In addition, burden hours include data received via data arrangements, which are explained in further detail within the method of collection section.

The state and local government statistics produced cover national, state, and local aggregates on various functions with comparative detail for individual governments for the pay period that includes March 12. The public employment and payroll program provides the only comprehensive count of employees and payrolls of state and local governments.

The Census Bureau provides this employment data to the Bureau of Economic Analysis for constructing the functional payrolls in the public sector of the Gross Domestic Product; payroll being the single largest component of current operations. The public employment and payroll program has increasingly been used as the base for reimbursable programs conducted by the Census Bureau for other Federal agencies such as: (1) The government portion of the Medical Expenditure Panel Survey commissioned by the Agency for Healthcare Research and Quality to provide timely, comprehensive information about health care use and costs in the United States, and (2) the Criminal Justice Expenditure and Employment Survey, sponsored by the Bureau of Justice Statistics (BJS), which provides criminal justice expenditure and employment data on spending and personnel levels.

Statistics are produced as data files in electronic formats. The program has disseminated comprehensive and comparable governmental statistics since 1940.

The users of the public employment and payroll program data include Federal agencies, state and local governments and related organizations, public interest groups, and many business, market, and private research organizations.

II. Method of Collection

An estimated 21,000 state agencies, county governments, consolidated city-county governments, independent cities, towns, townships, special district governments, and public school systems designated for the 2015 or 2016 Annual Survey of Public Employment & Payroll will be sent an appropriate form or their data will be collected through a data sharing arrangement between the

Census Bureau and the governmental unit. Approximately 104,000 governmental units designated for the 2017 Census of Governments: Employment will either be sent an appropriate form or their data will be collected through a data sharing arrangement between the Census Bureau and the governmental unit.

The Census Bureau developed central collection arrangements with state and large local government officials to collect the data from their dependent agencies and report to us as a central respondent. Based on the 2012 Census of Governments: Employment, these arrangements eliminate the need for a mail canvass of approximately 3,777 state agencies and 616 school systems. The arrangements reduce burden by greatly reducing the number of people who have to complete a form as the data are acquired from a centralized source instead of from multiple sources. Currently, the Census Bureau has central collection arrangements with forty-six states and four local school district governments. The Census Bureau continues to expand the conversion of paper submissions into electronic formats, for both individual units and central collection units.

All form types can be completed on the Internet. For the 2013 Annual Survey of Public Employment & Payroll, approximately 73.1 percent of the governmental units that completed the questionnaire used the Census Bureau's Web site.

53-Foot Domestic Dry Containers From the People's Republic of China: Postponement of Preliminary Determination of Antidumping Duty Investigation

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* August 28, 2014.

FOR FURTHER INFORMATION CONTACT: Angelica Mendoza, John Drury or Brian Davis, Office VI, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230, telephone: (202) 482-3019, (202) 482-0195 or (202) 482-7924, respectively.

SUPPLEMENTARY INFORMATION:

Background

On May 19, 2014, the Department of Commerce (the Department) published in the **Federal Register** the initiation of the antidumping duty investigation of 53-foot domestic dry containers from the People's Republic of China (PRC).¹ The current deadline for the preliminary determination of this investigation is September 30, 2014.

Period of Investigation

The period of investigation is October 1, 2013, through March 31, 2014.

Postponement of Preliminary Determination

Section 733(b)(1)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to make a preliminary determination no later than 140 days after the initiation of the antidumping duty investigation. On July 25, 2014, Stoughton Trailers LLC (Petitioner) made a timely request pursuant to section 733(c)(1)(A) and 19 CFR 351.205(e) for a postponement of the preliminary determination because the Department is still gathering questionnaire responses from the mandatory respondents and publicly-available information necessary to value respondents' factors of production.²

For the reasons stated above and because there are no compelling reasons

¹ See *53-Foot Domestic Dry Containers From the People's Republic of China: Initiation of Antidumping Duty Investigation*, 79 FR 28674 (May 19, 2014) (*Notice of Initiation*).
