

new recommendations for wilderness and other designated areas.

This decision will not authorize project-level activities on the three forests. The authorization of project-level activities on each forest occurs through subsequent project-specific decision making. The designation of routes, trails and areas for motorized vehicle travel is not considered during plan revision but addressed in separate analysis processes on each forest. Certain issues (e.g., hunting regulations), although important, are beyond the authority or control of the three forests and will not be considered. In addition, some decisions and determinations, such as wild and scenic river suitability determinations, may not be undertaken at this time but will be addressed in separate processes.

Public Involvement

The Inyo, Sequoia and Sierra National Forest plan revision team has provided multiple ways for the public, other agencies and tribes to contribute ideas about how current forest plans need to change or be improved. Public involvement began in earnest in 2012. Formal and informal meetings, letters, emails, phone calls, newspaper announcements and postings to the Pacific Southwest Region and forest Web sites were used to share and gather information and encourage participation. Plan revision team members gave presentations, went to the field and met with individuals and groups. Information collected from the public was used to identify needed changes in the current forest plans and desired conditions.

The forests will continue regular and meaningful consultation and collaboration with tribal nations on a government-to-government basis to address issues that significantly or uniquely affect their communities.

The forests will continue to collaborate with interested members of the public, as well as federal and state agencies, local governments and other organizations.

Applicable Planning Rule

Preparation of the revised forest plans for the Inyo, Sequoia and Sierra National Forests began with the publication of the Notice of Initiation in the **Federal Register** on December 26, 2013 [78 FR 78326] and was initiated under the planning procedures contained in the 2012 Planning Rule (36 CFR 219 (2012)).

Scoping Process

This notice of intent initiates the 30-day scoping process which guides the

development of the EIS. The purpose of this process is to determine the scope of issues to be addressed and to identify the significant issues related to the proposed action. Public meetings and tribal forums to gather input on the proposed action will be held in September 2014. Additional materials, as well as the dates, times and locations of these meetings can be found at <http://tinyurl.com/r5earlyadopters>. It is important that reviewers provide their comments in a time and manner useful to the agency's preparation of the EIS. Therefore, comments should be provided prior to the close of the scoping period and should clearly articulate the reviewer's concerns and contentions. Reviewers should clearly identify which forest or forests each of their comments applies to. The submission of timely and specific comments can affect a reviewer's ability to participate in subsequent administrative or judicial review. Comments received in response to this solicitation, including names and addresses of those who comment, will become part of the public record for this proposed action. Comments submitted anonymously will be accepted and considered, however, see the section below concerning the objection process and the requirements for filing an objection.

Decision Will Be Subject to Objection

The decisions to approve the revised forest plans will be subject to the objection process identified in 36 CFR Part 219 Subpart B (219.50 to 219.62). According to 36 CFR 219.53(a), those who may file an objection are individuals and entities who have submitted substantive formal comments related to a plan revision during the opportunities provided for public comment during the planning process.

Dated: August 20, 2014.

Barnie T. Gyant,

Deputy Regional Forester, Pacific Southwest Region.

BILLING CODE 3410-11-P

DEPARTMENT OF AGRICULTURE

Forest Service

Newspapers for Publication of Legal Notices in the Eastern Region

AGENCY: Forest Service, USDA.

ACTION: Notice.

SUMMARY: Forest Service administrative review procedures at 36 CFR parts 218 and 219 require agency officials to

publish legal notices in newspapers of record for certain opportunities to comment and opportunities to file pre-decisional objections. Forest Service officials in the Eastern Region will publish those legal notices in the newspapers listed in the **SUPPLEMENTARY INFORMATION** section of this notice. The Eastern Region consists of Illinois, Indiana, Ohio, Michigan, Minnesota, Missouri, New Hampshire, Maine, Pennsylvania, Vermont, New York, West Virginia, and Wisconsin. As provided in 36 CFR 218 and 36 CFR 219, the public shall be advised through **Federal Register** notice, of the newspaper of record to be utilized for publishing legal notice of comment and objection opportunities required by those Parts and their associated procedures. This notice fulfills that requirement for the Eastern Region.

DATES: Use of these newspapers for purposes of publishing legal notice of opportunities to comment on proposals subject under 36 CFR part 218 and 36 CFR part 219, and notices of the opportunity to object under 36 CFR part 218 and 36 CFR part 219 shall begin the first day after the date of this publication.

FOR FURTHER INFORMATION CONTACT:

Patricia Rowell; Appeals Assistant, 626 E. Wisconsin Avenue, Milwaukee, WI—414-297-3439

SUPPLEMENTARY INFORMATION:

Responsible Officials in the Eastern Region will publish legal notice regarding proposed land management plans as required under 36 CFR 219.16 and legal notice regarding an opportunity to comment on proposed projects as required under 36 CFR 218.24 in the newspapers that are listed in this section by Forest Service administrative unit. Additionally, Responsible Officials in the Eastern Region will publish legal notice of the opportunity to object to a proposed project under 36 CFR part 218 or to object to a land management plan developed, amended, or revised under 36 CFR part 219 in the legal notice section of the following newspapers. Additional notice regarding an opportunity to comment or object under the above mentioned regulations may be provided in other newspapers not listed below at the sole discretion of the Responsible Official. Legal notice published in a newspaper of record of an opportunity to object is in addition to direct notice to those who have requested it and to those who have participated in planning for the project or land management plan proposal.

The timeframe for comment on a proposed action shall be based on the

date of publication of the legal notice of the proposed action in the newspaper of record. The timeframe for objection shall be based on the date of publication of the legal notice of the opportunity to object in the newspaper of record. The following newspapers will be used to provide legal notice.

BILLING CODE 3410-11-P

DEPARTMENT OF COMMERCE**Submission for OMB Review; Comment Request**

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the

following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Implantation and Recovery of Archival Tags.

OMB Control Number: 0648-0338.

Form Number(s): NA.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 35.

Average Hours per Response: Tag recovery, 30 minutes; tag implantation notification and annual reports, 40 minutes each; interim reports, 1 hour each.

Burden Hours: 47.

Needs and Uses: This request is for extension of a currently approved information collection.

The National Oceanic and Atmospheric Administration (NOAA) allows scientists to implant archival tags in, or affix archival tags to, selected Atlantic Highly Migratory Species (tunas, sharks, swordfish, and billfish). Archival tags collect location, temperature, and water depth data that is useful for scientists researching the movements and behavior of individual fish. It is often necessary to retrieve the tags in order to collect the data. Therefore, the National Marine Fisheries Service (NMFS) exempts persons catching tagged fish from certain otherwise applicable regulations at 50 CFR 635 (e.g., immediate release of the fish, minimum size, prohibited species, retention limits). These participants must notify NOAA, return the archival tag or make it available to NOAA personnel, and provide information about the location and method of capture if they harvest a fish that has an archival tag. The information obtained is used by NOAA for international and domestic fisheries policy and regulations.

Scientists not employed by NOAA must obtain NOAA authorization before affixing or implanting archival tags and submit subsequent reports about the tagging of fish. NOAA needs that information to evaluate the effectiveness of archival tag programs, to assess the likely impact of regulatory allowances for tag recovery, and to ensure that the research does not produce excessive mortality.

Affected Public: Not-for-profit institutions; individuals or households.

Frequency: On occasion.

Respondent's Obligation: Voluntary; required to retain or obtain benefits.

This information collection request may be viewed at reginfo.gov. Follow
