

U.S. entities. Additionally, in order for NGOs to qualify as U.S. organizations, at least 50 percent of the NGO's annual revenue must be attributable to nongovernmental U.S. sources.

If a nominee is to represent an entity or organization known to have 10 percent or greater non-U.S. ownership of its shares or equity, non-U.S. board members, non-U.S. membership, or non-U.S. funding sources, as applicable, the nominee must certify in its statement affirming its eligibility that this non-U.S. interest does not constitute control and will not adversely affect his or her ability to serve as a trade advisor to the United States.

Historically, the Secretary and the USTR have appointed a representative of the public health or health care community to each of ITACs 3 and 15, and an environmental representative to each of ITACs 3 and 7. The Secretary and the USTR will continue to consider nominations for representatives of such viewpoints to those ITACs.

In order to be considered for ITAC membership, a nominee should submit:

- (1) Name, title, and relevant contact information of the individual requesting consideration;

- (2) The ITAC for which the individual is applying for appointment;

- (3) A sponsor letter on the entity's or organization's letterhead containing a brief description of why the applicant should be considered for membership on the ITAC;

- (4) The applicant's personal resume demonstrating knowledge of international trade issues;

- (5) An affirmative statement that the applicant meets all ITAC eligibility requirements; and

- (6) Information regarding the sponsoring entity, including the control of the entity or organization to be represented and the entity's or organization's size and ownership, product or service line, and trade activities.

Submit applications to Ingrid V. Mitchem, Director, Industry Trade Advisory Center, U.S. Department of Commerce, 14th and Constitution Avenue NW., Room 4043, Washington, DC 20230.

Additional requirements exist for nominations of consultants and legal advisors. The specific requirements will vary depending on the nature of the entity or organization and interests to be represented. Interested consultants and legal advisors should contact the Industry Trade Advisory Center or consult the International Trade Administration Web site at: www.trade.gov/itac for additional

information on the submission requirements.

Applicants that meet the eligibility criteria will be considered for membership based on the following criteria: The applicant's ability to represent the sponsoring U.S. entity's or U.S. organization's and the entity's or organization's subsector's (if applicable) interests on trade matters; the applicant's ability to carry out the objectives of the particular ITAC (including knowledge and expertise of the industry and of trade matters relevant to the work of the ITAC); and whether the applicant's participation would ensure that the ITAC is balanced in terms of points of view, demographics, geography, and entity or organization size.

This notice is issued pursuant to the Federal Advisory Committee Act (5 U.S.C., app. 2), 19 U.S.C. 2155, and 41 CFR part 102-3 relating to advisory committees.

Dated: August 26, 2014.

Ingrid V. Mitchem,

Director, Industry Trade Advisory Center.

BILLING CODE P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XD446

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Snapper and Grouper Off the Southern Atlantic States

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of receipt of an application for an exempted fishing permit; request for comments.

SUMMARY: NMFS announces the receipt of an application for an exempted fishing permit (EFP) from the Gulf and South Atlantic Fisheries Foundation, Inc. (Foundation). If granted, the EFP would authorize the applicants, with certain conditions, to collect and retain limited numbers of specimens that would otherwise be prohibited from possession and retention in South Atlantic Federal waters. This study is intended to characterize catch and discard mortality within the South Atlantic commercial hook-and-line component of the snapper-grouper fishery.

DATES: Comments must be received on or before September 29, 2014.

ADDRESSES: You may submit comments on the application, identified by "RIN 0648-XD446", by any of the following methods:

- Email: Steve.Branstetter@noaa.gov. Include in the subject line of the email comment the following document identifier: "FND EFP".

- Mail: Steve Branstetter, Southeast Regional Office, NMFS, 263 13th Avenue South, St. Petersburg, FL 33701.

The application and related documents are available for review upon written request to any of the above addresses.

FOR FURTHER INFORMATION CONTACT:

Steve Branstetter, 727-824-5305; email: Steve.Branstetter@noaa.gov.

SUPPLEMENTARY INFORMATION: The EFP is requested under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*), and regulations at 50 CFR 600.745(b) concerning exempted fishing.

The applicant proposes research as part of the Saltonstall-Kennedy Program, which is intended to benefit the U.S. fishing industry through the collection of fundamental fisheries information. Resource collection efforts support the development and evaluation of fisheries management and regulatory options.

The proposed collection for scientific research involves activities otherwise prohibited by regulations at 50 CFR part 622 implementing the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). The applicant requires authorization to collect limited numbers of snapper-grouper and other marine resources for scientific research activities during a 24-month period beginning October 2014, where harvest and possession is otherwise restricted or prohibited by regulations. The EFP would exempt Foundation personnel from fishery regulations such as bag limits, size limits, closures, and seasonal restrictions as specified in 50 CFR part 622, subparts A and I, for snapper-grouper in the South Atlantic. Specimens would be collected from Federal waters off the east coast of Florida and Federal waters off the coasts of Georgia, South Carolina, and North Carolina. Sampling would occur during normal fishing operations of the commercial hook-and-line component of the snapper-grouper fishery. Only vessels that possess a valid Federal commercial South Atlantic unlimited snapper-grouper permit would participate in the research. The EFP

would authorize Foundation observers aboard commercial hook-and-line snapper-grouper vessels to temporarily possess all necessary specimens from the catch for documentation and to permanently retain approximately 500 specimens of federally managed finfishes and invertebrates that would otherwise be prohibited from possession and retention through the duration of the EFP. All other fish collected will either be returned to the water or retained if they are able to be included as part of the legal commercial catch. Data collections for this study would support improved information about the catch, bycatch, discards, and discard mortality for species in the snapper-grouper complex. These data would provide insight on a stock's resilience to fishing, and would help provide improved estimates of long-term biological productivity of the stocks. Currently, these data are limited, and project results are anticipated to yield valuable data within this fishery.

NMFS finds this application warrants further consideration. The limited sampling program and associated sampling methodology listed in the EFP is not expected to impact the fishery stocks; the estimated 500 fish to be retained in the 24-month period represents a small fraction of the average annual landings. Possible conditions the agency may impose on this permit, if it is granted, include but are not limited to, a prohibition of conducting research within marine protected areas, marine sanctuaries, or special management zones, without additional authorization. Additionally, NMFS will prohibit the possession of Nassau or goliath grouper, and require any sea turtles taken incidentally during the course of fishing or scientific research activities to be handled with due care to prevent injury to live specimens, observed for activity, and returned to the water. All Foundation-associated personnel who conduct onboard sampling activities have undergone formal sea turtle handling training through NMFS, and are considered NMFS-designated agents while conducting work under the identified Cooperative Agreements.

A final decision on issuance of the EFP will depend on a NMFS review of public comments received on the application, consultations with the affected states, the South Atlantic Fishery Management Council, and the U.S. Coast Guard, and a determination that the EFP is consistent with all applicable laws.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 26, 2014.

Emily H. Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XD466

North Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The North Pacific Fishery Management Council's (NPFMC) Bering Sea Aleutian Islands (BSAI) Crab Plan Team (CPT) in Seattle, WA.

DATES: The meeting will be held September 15-18, 2014. The meeting will be held from 9 a.m. until 5 p.m., each day.

ADDRESSES: The meeting will be held at the Alaska Fishery Science Center, 7600 Sand Point Way NE., Building 4, Seattle, WA.

Council address: North Pacific Fishery Management Council, 605 W. 4th Avenue, Suite 306, Anchorage, AK 99501-2252.

FOR FURTHER INFORMATION CONTACT: Diana Stram, telephone: (907) 271-2809.

SUPPLEMENTARY INFORMATION: The Plan Team will review and make final 2014/15 recommendations on specifications (Over Fishing Levels (OFLs) and Acceptable Biological Catch (ABCs) for 7 BSAI crab stocks as well as review developing stock assessment models, and make recommendations for the next assessment cycle.

The Agenda is subject to change, and the latest version will be posted at <http://www.npfmc.org/>.

Although non-emergency issues not contained in this agenda may come before this group for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), those issues may not be the subject of formal action during this meeting. Actions will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Gail Bendixen at (907) 271-2809 at least 7 working days prior to the meeting date.

Dated: August 25, 2014.

William D. Chappell,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648-XD469

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The New England Fishery Management Council's (Council) Scientific and Statistical Committee (SSC) will meet to consider actions affecting New England fisheries in the exclusive economic zone (EEZ).

DATES: The meeting will be held on Monday, September 15, 2014 at 8 a.m.

ADDRESSES: The meeting will be held at the Courtyard by Marriott/Boston Logan Airport, 225 McClellan Highway, Boston, MA 02128; telephone: (617) 569-5250.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465-0492.

SUPPLEMENTARY INFORMATION:

Agenda Items

The New England Fishery Management Council's Scientific and Statistical Committee (SSC) will meet to review stock assessment information, consider information provided by the Scallop Plan Development Team (PDT) and develop overfishing level (OFL) and acceptable biological catch (ABC) recommendations for Atlantic sea scallops for fishing years 2015-16. They will review stock assessment information, consider information provided by the Groundfish PDT and
