

information about whom the grant is serving and what sort of services the beneficiaries receive using grant funds.

The Summary Budget and the Annual Program Budget make up the budget of the grantee's annual extension request. Together the forms provide itemized expenses for anticipated program costs and a matrix of budgeted yearly costs. The budget forms show the services funded through the grant and demonstrate how matching funds, participant fees, and grant funds will be used in tandem to operate the grant program. Field staff approve the annual budget and request annual extension funds according to the budget. Field staff can also determine if grantees are meeting statutory and regulatory requirements through the evaluation of this budget.

HUD will use the Payment Voucher to monitor use of grant funds for eligible activities over the term of the grant. The Grantee may similarly use the Payment Voucher to track and record their requests for payment reimbursement for grant-funded activities.

SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is

seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection:

Emergency Homeownership Loan Program—Data Requirements.

OMB Approval Number: 2502–0597.

Type of Request: Extension.

Form Number: HUD–96020, HUD–96021a, HUD–96021b, HUD–96022, HUD–96023a, HUD–96023b, HUD–96024, HUD–96023, HUD–96025a, HUD–96025b, HUD–96026.

Description of the need for the information and proposed use: This information collection is necessary to determine applicant eligibility to receive mortgage relief assistance under the Emergency Homeowners' Loan Program. This Notice informs the public that the U.S. Department of Housing and Urban Development (HUD) has submitted to OMB, an information collection package with respect to implementing the Emergency Homeowners' Loan Program targeted to borrowers facing foreclosure.

The Dodd-Frank Wall Street Reform and Consumer Protection Act, 2010 (Pub. L. 111–203, approved July 21, 2010, Sec 1496) appropriated \$1billion to HUD to establish an Emergency Homeowner's Relief Fund, pursuant to section 107 of the Emergency Housing Act of 1975, that will provide emergency mortgage assistance to homeowners that are at risk of foreclosure due to involuntary unemployment or underemployment due to an adverse economic or medical condition. Accordingly, HUD is implementing the Emergency Homeowners Loan Program (EHLPL) that is designed to offer a declining balance, deferred payment "bridge loan" (non-recourse, subordinate loan with zero interest) for up to \$50,000 to assist eligible homeowners with payments of arrearages, including delinquent taxes and insurance. Additionally, EHLPL may be used to assist eligible homeowners with up to 24 months of monthly payments on their mortgage principal, interest, mortgage insurance premiums, taxes, and hazard insurance. Assistance will not exceed \$50,000 per eligible homeowner.

HUD will use two approaches to implement EHLPL: (1) Provide allocations to States that currently have substantially similar programs to administer their mortgage relief funds directly; and (2) delegate key administrative functions to third party entities that will assist HUD with program implementation. The third party entities will be primarily

responsible for application intake, eligibility screening, funds control, payment distribution, and note processing.

Homeowners' (borrowers') participation in the program is voluntary. However, to help determine eligibility for assistance borrowers must submit the required application information and loan documentation to demonstrate that they meet program eligibility guidelines to receive mortgage relief assistance through EHLP.

A. Overview of Information Collection

Title of Information Collection: Choice Neighborhoods Evaluation, Phase II.

OMB Approval Number: 2528-New.

Type of Request: New collection.

Form Number: None.

Description of the need for the information and proposed use: HUD is conducting an evaluation of the Choice Neighborhoods Initiative, focused on

the initial round of grants funded in August 2011. This evaluation requires the collection of information from households living in the Choice Neighborhoods sites. Phase I, approved by the Office of Management and Budget under control number 2528-0286, involved a baseline survey of households (http://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=201203-2528-001).

Phase II, proposed here, involves tracking baseline survey respondents. The purpose of Phase II tracking is to maintain contact and location information for households that participated in the Choice Neighborhoods Demonstration Studies' Baseline Survey to analyze household mobility patterns and achieve a strong response rate on any follow up surveys that the U.S. Department of Housing and Urban Development (HUD) may conduct.

The tracking effort relies primarily on passive tracking strategies that use data obtained from HUD's PIC and TRACS systems, Choice Grantees, National Change of Address (NCOA) Database, and Accurant, to update the contact information for households. Active tracking strategies are used to complement passive strategies.

Respondents (i.e. affected public): This information collection will affect approximately 1,697 households that participated in the Choice Neighborhoods Demonstration Studies' Baseline Survey in 2013-14 in five cities—New Orleans, Chicago, Boston, Seattle, and San Francisco. Affected households include residents of HUD-assisted properties targeted by the Choice Neighborhoods Initiative as well as residents in the neighborhoods surrounding those properties. The respondents have all agreed to participate in the study.

There are five active tracking strategies that will directly affect Panel members:

1. Three quarters each year, panel members will receive a card/flyer with a toll-free number and Web site address set up for this study that will give respondents the opportunity to update their contact information online or by phone. We estimate that 25 percent of respondents (424) will respond to this flyer and it will take at most 5 minutes. This activity is estimated to result in 424 responses, 101.76 hours, and \$1,387 of burden per year.

2. Once a year, the flyer/card will also contain a perforated mailer and a postage-paid business reply envelope, providing more opportunity for each panel member to update their contact information. We estimate that 90
