Background

The primary goal of this proposed AC revision is to clarify FAA policy, facilitate achievement of an ASAP's safety goals, and encourage wider participation in the program. The objective of an ASAP is to encourage employees of certificate holders or other operators to voluntarily report safety information that may be critical to identifying potential precursors to accidents. The FAA has determined that identifying these precursors is essential to further reducing the already low accident rate. The ASAP provides for the collection, analysis, and retention of the safety data that is obtained through the reporting process. ASAP participants use ASAP safety data, much of which would otherwise be unobtainable, to develop corrective actions for identified safety concerns, and to educate the appropriate parties to prevent a recurrence of the same type of safety event.

The agency will consider all comments received by November 4, 2014. Comments received after that date may be considered if consideration will not delay agency action on the review. A copy of the advisory circular is available for review at http://www.faa.gov/aircraft/draft_docs/afs_ac/.

Issued in Washington, DC, on August 29, 2014.

Director, Flight Standards Service.

Notice of Final Action on Petition From Sierra Club To Redesignate Newly Violating Ozone Areas as Nonattainment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Action Denying Petition.

SUMMARY: The U.S. Environmental Protection Agency (EPA) is providing notice that it has responded to a petition from the Sierra Club that requests the EPA to redesignate as nonattainment 57 areas with 2012 design values violating the 2008 national ambient air quality standards (NAAQS) for ozone. The petition also requests that the EPA set specific boundaries for the areas. The EPA Administrator denied the petition in letters to the signatories of the petition dated August 14, 2014. The letters explain the EPA's reasons for the denial and are available in the rulemaking docket.

DATES: The EPA's response to this petition was signed on August 15, 2014. Any petitions for review of the final letters denying the petition to redesignate 57 areas to nonattainment for the 2008 ozone NAAQS must be filed in the Court of Appeals for the District of Columbia Circuit on or before November 4, 2014.

II. Judicial Review

Section 307(b)(1) of the Clean Air Act indicates which Federal Courts of Appeal have venue for petitions of review of final actions by the EPA. This section provides, in part, that petitions for review must be filed in the Court of Appeals for the District of Columbia Circuit: (i) when the agency action consists of “nationally applicable regulations promulgated, or final actions taken, by the Administrator,” or (ii) when such action is locally or regionally applicable, if “such action is based on a determination of nationwide scope or effect and if in taking such action the Administrator finds and publishes that such action is based on such a determination.”

The EPA has determined that its action denying the petition to redesignate 57 areas to nonattainment for the 2008 ozone NAAQS is of nationwide scope and effect because this action addresses areas across the country. This is particularly appropriate because, in the report on the 1977 Amendments that revised section 307(b)(1) of the CAA, Congress noted that the Administrator’s determination that an action is of “nationwide scope or effect” would be appropriate for any

action that has a scope or effect beyond a single judicial circuit. H.R. Rep. No. 95–294 at 323, 324, *reprinted* in 1977 U.S.C.C.A.N. 1402–03. Here, the scope and effect of this final action extends to numerous judicial circuits across the country. In these circumstances, section 307(b)(1) and its legislative history calls for the Administrator to find the rule to be of “nationwide scope or effect” and for venue to be in the DC Circuit.

Thus, any petitions for review of the final letters denying the petition to redesignate 57 areas to nonattainment for the 2008 ozone NAAQS must be filed in the Court of Appeals for the District of Columbia Circuit on or before November 4, 2014.

Dated: August 15, 2014.

Janet McCabe,

Acting Assistant Administrator, Office of Air and Radiation.
