Office of Energy Efficiency and Renewable Energy

[Case No. RF-041]

Extension of Waiver to Panasonic Appliances Refrigeration Systems Corporation of America Corporation From the Department of Energy Residential Refrigerator and Refrigerator-Freezer Test Procedures

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Extension of Waiver.

SUMMARY: The U.S. Department of Energy (DOE) is granting a waiver extension (Case No. RF-041) to Panasonic Appliances Refrigeration Systems Corporation of America (PAPRSA) to waive the requirements of the DOE electric refrigerator and refrigerator-freezer test procedures for determining the energy consumption of a specific hybrid basic model, PR5180JKBC. Under today's extension, PAPRSA shall be required to test and rate this hybrid wine chiller/beverage center basic model using an alternate test procedure that requires PAPRSA to test the wine chiller compartment at 55 °F instead of the prescribed temperature of 39 °F per title 10 of the Code of Federal Regulations (10 CFR) part 430, subpart B, appendix A. PAPRSA shall also use the K factor (correction factor) value of 0.85 when calculating the energy consumption.

DATES: This extension of waiver is effective September 17, 2014.

FOR FURTHER INFORMATION CONTACT:

Mr. Bryan Berringer, U.S. Department of Energy, Building Technologies Program, Mailstop EE-2J, 1000 Independence Avenue SW., Washington, DC 20585-0121. Telephone: (202) 586-0371, Email: Bryan.Berringer@ee.doe.gov.

SUPPLEMENTARY INFORMATION: In accordance with 10 CFR 430.27(g), DOE gives notice of the issuance of its extension of waiver as set forth below. The extension of waiver grants PAPRSA a waiver from the applicable residential refrigerator and refrigerator-freezer test procedures found in 10 CFR part 430, subpart B, appendix A for certain basic models of hybrid wine chiller/beverage

center products, provided that PAPRSA tests and rates such products using the alternate test procedure described in this notice. Today's extension prohibits PAPRSA from making representations concerning the energy efficiency of these products unless the product has been tested in a manner consistent with the provisions and restrictions in the alternate test procedure set forth in the extension below, and the representations fairly disclose the test results. Distributors, retailers, and private labelers are held to the same standard when making representations regarding the energy efficiency of these products. 42 U.S.C. 6293(c).

I. Background and Authority

Title III, Part B of the Energy Policy and Conservation Act of 1975 (EPCA), Public Law 94-163 (42 U.S.C. 6291-6309, as codified) established the Energy Conservation Program for Consumer Products Other Than Automobiles, a program covering most major household appliances, which includes the residential electric refrigerators and refrigerator-freezers that are the focus of this notice.¹ Part B includes definitions, test procedures, labeling provisions, energy conservation standards, and the authority to require information and reports from manufacturers. Further, Part B authorizes the Secretary of Energy to prescribe test procedures that are reasonably designed to produce results that measure energy efficiency, energy use, or estimated operating costs, and that are not unduly burdensome to conduct. (42 U.S.C. 6293(b)(3)) The test procedure for residential electric refrigerators and refrigerator-freezers is set forth in 10 CFR part 430, subpart B, appendix A.

DOE's regulations allow a person to seek a waiver from the test procedure requirements for a particular basic model of a type of covered consumer product when (1) the petitioner's basic model for which the petition for waiver was submitted contains one or more design characteristics that prevent testing according to the prescribed test procedure, or (2) when prescribed test procedures may evaluate the basic model in a manner so unrepresentative of its true energy consumption characteristics as to provide materially inaccurate comparative data. 10 CFR 430.27(a)(1). Petitioners must include in their petition any alternate test procedures known to the petitioner to evaluate the basic model in a manner

¹ For editorial reasons, upon codification in the U.S. Code, Part B was re-designated Part A.
