**SUPPLEMENTARY INFORMATION:****A. Purpose**

This information collection complies with Executive Order 13126, Prohibition on Acquisition of Products Produced by Forced or Indentured Child Labor. Executive Order 13126 requires that this prohibition be enforced within the federal acquisition system by means of: (1) A provision that requires the contractor to certify to the contracting officer that the contractor or, in the case of an incorporated contractor, a responsible official of the contractor has made a good faith effort to determine whether forced or indentured child labor was used to mine, produce, or manufacture any product furnished under the contract and that, on the basis of those efforts, the contractor is unaware of any such use of child labor; and (2) A provision that obligates the contractor to cooperate fully in providing reasonable access to the contractor’s records, documents, persons, or premises if reasonably requested by authorized officials of the contracting agency, the Department of the Treasury, or the Department of Justice, for the purpose of determining whether forced or indentured child labor was used to mine, produce, or manufacture any product furnished under the contract.

The information collection requirements of the Executive Order are evidenced via the certification requirements delineated at FAR 22.1505, 52.212–3, 52.222–18, and 52.222–19.

To eliminate some of the administrative burden on offerors who must submit the same information to various contracting offices, the Civilian Agency Acquisition Council and the Defense Acquisition Regulations Council (Councils) decided to amend the Federal Acquisition Regulation (FAR) to require offerors to submit representations and certifications electronically via the Business Partner

Network (BPN), unless certain exceptions apply. Online Representations and Certifications Application (ORCA) was the specific application on the BPN to replace the paper based Representations and Certifications process. The change to the FAR was accomplished by FAR Case 2002–024. The BPN and ORCA systems have now been incorporated into the System for Award Management, also known as SAM.

**B. Annual Reporting Burden**

To date, there are 355,531 active registrants in SAM. Those registrants are required to complete the Representations and Certifications section of SAM. Of the 355,531 active registrants in SAM, 949 registrants identified their business concern as one that may supply an end product that is on the list of products requiring contractor certification as to Forced or Indentured Child Labor, identified by their country of origin. The 949 registrants will be used as the basis for the number of respondents. This number represents an increase from what was published in the **Federal Register** at 76 FR 42709 on July 19, 2011. No public comments were received in prior years that have challenged the validity of the Government’s estimate.

*Respondents:* 949.

*Responses per Respondent:* 1.

*Hours per Response:* 0.325.

*Total Burden Hours:* 308.
