Changes Since the Preliminary Determination

We made no changes to the *Preliminary Determination* based on our review and analysis of the comments received from parties.

Final Determination

The Department determines that the following estimated weighted-average dumping margin exists for the period January 1, 2013, through June 30, 2013:

Producer and exporter	Estimated weighted-average dumping margin (percent)
PRC-wide entity ⁴	159.21

Disclosure

Normally, the Department discloses to interested parties the calculations performed in connection with a final determination within five days of the date of publication of the notice of the final determination in the **Federal Register**, in accordance with 19 CFR 351.224(b). But because the Department, in accordance with section 776 of the Act, applied adverse facts available to determine the estimated weighted-average dumping margin for the mandatory respondent in this investigation, there are no calculations to disclose to parties.

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, we will instruct U.S. Customs and Border Protection (CBP) to continue to suspend liquidation of all appropriate entries of GOES from the PRC, as described in the "Scope of the Investigation" section of this notice and which were entered, or withdrawn from warehouse, for consumption on or after May 12, 2014, the date of publication of the preliminary determination in the **Federal Register**.

Pursuant to 19 CFR 351.205(d), we will instruct CBP to require a cash deposit for all suspended entries at an *ad valorem* rate equal to the weighted-average amount by which normal value

exceeds U.S. price, adjusted where appropriate for export subsidies and estimated domestic subsidy pass-through⁵ where, as here, the product under investigation is also subject to a countervailing duty investigation. For all PRC exporters of merchandise under consideration, the cash-deposit rate will be equal to the dumping margin established for the PRC-wide entity. These suspension-of-liquidation and cash-deposit instructions will remain in effect until further notice.

Furthermore, as stated above and consistent with our practice, we will instruct CBP to require a cash deposit equal to the amount by which the normal value exceeds export price or constructed export price, less the amount of countervailing duty determined to constitute an export subsidy. With respect to the PRC-wide entity, we find that an export-subsidy adjustment of 5.31 percent to the cash deposit rate is warranted because this is the export subsidy rate included in the countervailing duty rate to which PRC-wide entries are currently subject.⁶

We are not adjusting the final determination rate for estimated domestic subsidy pass-through because we have no basis upon which to make such an adjustment.

International Trade Commission Notification

In accordance with section 735(d) of the Act, we notified the International Trade Commission (ITC) of the final affirmative determination of sales at less than fair value. Because the final determination in this proceeding is affirmative, the ITC will make its final determination, in accordance with section 735(b)(2) of the Act, as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of GOES from the PRC no later than 45 days after our final determination. If the ITC determines that material injury or threat of material

⁵ See sections 772(c)(1)(C) and 777A(f) of the Act, respectively. Unlike in administrative reviews, the Department calculates the adjustment for export subsidies in investigations not in the margin-calculation program, but in the cash-deposit instructions issued to CBP. See *Notice of Final Determination of Sales at Less Than Fair Value, and Negative Determination of Critical Circumstances: Certain Lined Paper Products from India*, 71 FR 45012 (August 8, 2006), and accompanying issues and decision memorandum at comment 1.

⁶ See *Grain-Oriented Electrical Steel from the People's Republic of China: Final Affirmative Countervailing Duty Determination*, and accompanying Issues and Decision Memorandum at 8. The final determination in this companion countervailing duty proceeding is being concurrently released on the same day as the final determination in this case.

injury does not exist, this proceeding will be terminated and all securities posted will be refunded or canceled. If the ITC determines that such injury does exist, then the Department will issue an antidumping duty order directing CBP to assess, upon further instruction by the Department, antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

Notification Regarding Administrative Protective Orders

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation. This determination and notice are issued and published pursuant to sections 735(d) and 777(i)(1) of the Act.

Dated: September 24, 2014.

Paul Piquado,

Assistant Secretary, for Enforcement and Compliance.
