Abstract

Forest Service is seeking renewal of the OMB approval to collect information from private citizens (not Federal employees) traveling to foreign countries on behalf of the Agency. These private citizens are considered invitational travelers and can be volunteers or an individual intermittently in government service as an expert or consultant. Invitational travelers can be citizens of another country. The collection of this information is necessary to facilitate timely issuance of foreign travel authorizations, visas, and country clearances.

Federal Travel Regulations—part 301-10 covers transportation expenses for those whose air travel is financed by U.S. Government funds. USDA Departmental regulation, DM 2300-1, is the primary source of USDA policy on managing temporary duty travel for private citizens (not Federal employees) traveling to foreign countries on behalf of the Forest Service.

Information collected includes the traveler's destination, purpose of trip, and dates of travel. Also collected are name, address, contact telephone numbers, passport information, Country

of citizenship (as required by the State Department), security clearance, as well as contacts information at each destination and hotel information. Federal Government employees provide date and place of birth and the last four digits of the social security number; non-US government employees do not have to provide their date of birth or the last four digits of their social security number. The last four digits of their social security number and date of birth are for passport requests only. The Forest Service does not obtain or issue official passports for invitational travelers.

Estimate of Burden per Response: 20 minutes.

Type of Respondents: U.S. Government invitees and/or contractors.

Estimated Annual Number of Respondents: 200 individuals.

Estimated Annual Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 67 hours.

Comment is Invited

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the Agency, including whether the information will have practical or scientific utility; (2) the accuracy of the Agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission request toward Office of Management and Budget approval.
