Proposed Information Collection; Migratory Birds and Wetlands Conservation Grant Programs

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (U.S. Fish and Wildlife Service) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the Paperwork Reduction Act of 1995 and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC. This IC is scheduled to expire on January 31, 2015. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: To ensure that we are able to consider your comments on this IC, we must receive them by December 22, 2014.

ADDRESSES: Send your comments on the IC to the Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS BPHC, 5275 Leesburg Pike, Falls Church, VA 22041–3803 (mail); or hope_grey@fws.gov (email). Please include “1018–0100” in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this IC, contact Hope Grey at hope_grey@fws.gov (email) or 703–358–2482 (telephone).

SUPPLEMENTARY INFORMATION:

I. Abstract.

The Division of Bird Habitat Conservation administers grant programs associated with the North American Wetlands Conservation Act (NAWCA), Public Law 101–233, and the Neotropical Migratory Bird Conservation Act (NMBCA), Public Law 106–247.

North American Wetlands Conservation Act Grants

NAWCA provides matching grants to organizations and individuals who have developed partnerships to carry out wetlands conservation projects in the United States, Canada, and Mexico for the benefit of wetlands-associated migratory birds and other wildlife. There is a Standard and a Small Grants Program. Both are competitive grants programs and require that grant requests be matched by partner contributions at no less than a 1-to-1 ratio. Funds from U.S. Federal sources may contribute to a project, but are not eligible as a match.

The Standard Grants Program supports projects in Canada, the United States, and Mexico that involve long-term protection, restoration, and/or enhancement of wetlands and associated uplands habitats. In Mexico,

partners may also conduct projects involving technical training, environmental education and outreach, organizational infrastructure development, and sustainable-use studies.

The Small Grants Program operates only in the United States. It supports the same types of projects and adheres to the same selection criteria and administrative guidelines as the U.S. Standard Grants Program. However, project activities are usually smaller in scope and involve fewer project dollars. Grant requests may not exceed \$75,000, and funding priority is given to grantees or partners new to the NAWCA Grants Program.

We publish notices of funding availability on Grants.gov (<http://www.grants.gov>), as well as in the Catalog of Federal Domestic Assistance (<https://www.cfda.gov>). To compete for grant funds, partnerships submit applications that describe in substantial detail project locations, project resources, future benefits, and other characteristics that meet the standards established by the North American Wetlands Conservation Council and the requirements of NAWCA. Materials that describe the program and assist applicants in formulating project proposals are available on our Web site at <http://www.fws.gov/birdhabitat/Grants/NAWCA>. Persons who do not have access to the Internet may obtain instructional materials by mail. We have not made any major changes in the scope and general nature of the instructions since the OMB first approved the information collection in 1999.

Neotropical Migratory Bird Conservation Act

NMBCA establishes a matching grant program to fund projects that promote the long-term conservation of neotropical migratory birds and their habitats in the United States, Canada, Latin America, and the Caribbean.

Principal conservation actions supported are:

- Protection and management of populations.
- Maintenance, management, protection, and restoration of habitat.
- Research and monitoring.
- Law enforcement.
- Community outreach and education.

We publish notices of funding availability on Grants.gov as well as in the Catalog of Federal Domestic Assistance. To compete for grant funds, partnerships submit applications that describe in substantial detail project locations, project resources, future benefits, and other characteristics that meet the standards established by the U.S. Fish and Wildlife Service and the requirements of NMBCA.

Materials that describe the program and assist applicants in formulating project proposals for consideration are available on our Web site at <http://www.fws.gov/birdhabitat/Grants/NMBCA>. Persons who do not have access to the Internet may obtain instructional materials by mail. We have not made any major changes in the scope and general nature of the instructions since the OMB first approved the information collection in 2002.

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we continue the CCP process for James River NWR. We published our original notice of intent to prepare a CCP in the **Federal Register** on January 11, 2012 (77 FR 1716).

The 4,324-acre James River NWR lies in the Chesapeake Bay watershed and is located along the James River in Prince George County, Virginia, approximately 8 miles southeast of the city of Hopewell, and 30 miles southeast of Richmond, the State capital. The refuge was established under the authority of the Endangered Species Act of 1973 (16 U.S.C. 1534) in 1991, to protect nationally significant nesting and

roosting habitat for the bald eagle (*Haliaeetus leucocephalus*). The refuge encompasses 4,324 acres of pine-dominated hardwood and floodplain forests, freshwater marsh and shrub swamp, aquatic habitats, erosional bluffs, and non-forested upland. The refuge also has a rich cultural history, illuminated by numerous known archaeological and historical sites.

Wildlife-dependent recreational opportunities at James River NWR include a 24-day deer hunt each fall, as well as wildlife observation, photography, and environmental education and interpretive program opportunities by reservation.

Background

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd-668ee) (Refuge Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years, in accordance with the Refuge Administration Act.

Public Outreach

In August 2012, we distributed a planning newsletter to over 550 parties on our project mailing list. The newsletter informed people about the planning process and asked recipients to contact us about issues or concerns they would like us to address. We also posted the newsletter on our Web site for people to access electronically. In addition, we notified the general public of our planning project, and our interest in hearing about issues and concerns, by publishing news releases in local newspapers. We also held afternoon and evening public scoping meetings on September 12, 2012, in Prince George, Virginia. The purpose of the two meetings was to share information on the planning process and to solicit management issues and concerns. Throughout the process, refuge staff
