

Line Company LLC's Hillabee Expansion Project (currently in the NEPA Pre-Filing Process under Docket No. PF14-6-000), the Commission cannot begin preparation of the Environmental Impact Statement (EIS) to comply with the NEPA of 1969, until after both remaining applications are filed. Within 90 days after the Commission issues a Notice of Application for the final received application, the Commission staff will issue a Notice of Schedule for Environmental Review that will indicate the anticipated date for the Commission's staff issuance of the final EIS analyzing all three proposals. The issuance of a Notice of Schedule for Environmental Review will also serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's final EIS.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to

the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP14-529-000]

Tennessee Gas Pipeline Company, L.L.C.; Notice of Intent To Prepare an Environmental Assessment for the Proposed Connecticut Expansion Project, Request for Comments on Environmental Issues, Notice of Public Scoping Meetings, and Notice of Environmental Site Reviews

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Connecticut Expansion Project (Project) involving construction and operation of facilities by Tennessee Gas Pipeline Company, L.L.C. (Tennessee) in Albany County, New York; Berkshire

and Hampden Counties, Massachusetts; and Hartford County, Connecticut. The Commission will use the EA in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the Project. Your input will help the Commission staff determine what issues they need to evaluate in the EA. Please note that the scoping period will close on November 10, 2014.

You may submit comments in written form or verbally. Further details on how to submit written comments are in the Public Participation section of this notice. In lieu of or in addition to sending written comments, the Commission invites you to attend one of the FERC public scoping meetings scheduled for the Project as follows:

FERC PUBLIC SCOPING MEETINGS

Tuesday, October 28, 2014	Wednesday, October 29, 2014	Thursday, October 30, 2014
7:00 p.m.–9:00 p.m.	7:00 p.m.–9:00 p.m.	7:00 p.m.–9:00 p.m.
East Granby Community Center, 20 Center Street, East Granby, CT 06026.	Sandisfield Art Center, 5 Hammertown Road, Sandisfield, MA 01255.	Town Hall Auditorium, 445 Delaware Avenue, Delmar, NY 12054.

The public scoping meetings are designed to provide you with more detailed information and another opportunity to offer your comments on the proposed Project. Tennessee representatives will be present one hour before each meeting with Project maps and will be available to answer questions. Interested groups and individuals are encouraged to attend the meetings and to present comments on

the issues they believe should be addressed in the EA. A transcript of each meeting will be made so that your comments will be accurately recorded.

On October 28, 29, and 30, 2014, the Commission staff will also conduct an onsite environmental review of the proposed locations for Tennessee's Project. The onsite review will commence at the meeting locations identified below and will proceed by

vehicle and on foot to view the proposed pipeline routes from public access points and Tennessee's existing pipeline right-of-way. Each site review will require about three hours to complete. Any interested parties planning to attend must provide their own transportation and should meet at 8:30am at the following locations:

FERC ONSITE ENVIRONMENTAL REVIEWS

Tuesday, October 28, 2014	Wednesday, October 29, 2014	Thursday, October 30, 2014
8:30 a.m.–11:30 a.m.	8:30 a.m.–11:30 a.m.	8:30 a.m.–11:30 a.m.
East Granby Community Center, 20 Center Street, East Granby, CT 06026.	Old Town Hall, 3 Silverbrook Road, Sandisfield, MA 01255.	Town Hall Annex, 445 Delaware Avenue, Delmar, NY 12054.

For additional information regarding the onsite environmental reviews, please contact FERC's Office of External Affairs at (866) 208-FERC.

This notice is being sent to the Commission's current environmental mailing list for this Project. State and local government representatives should notify their constituents of this proposed Project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the Project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an

agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

Tennessee provided landowners with a fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" This fact sheet addresses a number of typically-asked questions, including the use of eminent domain
