FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060-0690]

Information Collection Being Reviewed by the Federal Communications Commission Under Delegated Authority

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection.

Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

DATES: Written PRA comments should be submitted on or before January 5, 2015. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0690.

Title: Section 101.17, Performance Requirements for the 38.6–40.0 GHz Frequency Band.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit institutions; and State, local, or tribal government.

Number of Respondents: 5 respondents; 44 responses.

Estimated Time per Response: 2 hours.

Frequency of Response: Reporting requirement at the end of the 10-year license term.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for these information collections are contained in 47 U.S.C. 4(i), 303(c), 303(g), 303(r), and 309(j) of the Communications Act of 1934, as amended.

Total Annual Burden: 30 hours.

Total Annual Cost: \$17,400.

Privacy Act Impact Assessment: No impact(s).

Nature and Extent of Confidentiality: There may be a need for confidentiality. Applicants may request confidentiality and request confidential treatment in connection with their substantial service showings pursuant to 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission is submitting this expiring information collection to the Office of Management and Budget (OMB) as an extension to obtain the full three year clearance from them.

The information collection requirements that are contained in Section 101.17 of the Commission's rules require that all 38.6–40.0 GHz band licensees demonstrate substantial service at the time of license renewal (at the end of the ten year license term). A licensee's substantial service showing should include, but not be limited to, the following information for each channel for which they hold a license, in each Economic Area (EA) or a portion of the EA covered by their license, in order to qualify for renewal of that license. The information is used by the Commission staff to satisfy requirements for licensees to demonstrate substantial service at the time of license renewal. Also, the information is used by the Commission to determine whether the licensee is providing service which rises to the level of "substantial" requiring the following information:

(1) A description of the 38.6–40.0 GHz band licensee's current service in terms of geographic coverage;

(2) A description of the 38.6–40.0 GHz band licensee's current service in terms

of population served, as well as any additional service provided during the license term; and

(3) A description of the 38.6–40.0 GHz band licensee's investments in its system(s) (type of facilities constructed and their operational status is required).

Any licensees adjudged not to be providing substantial service will not have their license renewed.

Without this information, the Commission would not be able to carry out its statutory responsibilities.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–0027.

Title: Application for Construction Permit for Commercial Broadcast Station, FCC Form 301; FCC Form 2100, Application for Media Bureau Audio and Video Service Authorization, Schedule A.

Form Number: FCC Form 301.

Type of Review: Extension of a currently approved collection.

Respondents: Business and other for-profit entities; Not for profit entities; State, local or Tribal governments.

Number of Respondents and Responses: 3,775 respondents and 7,211 responses.

Estimated Time per Response: 1–6.25 hours.

Frequency of Response: On occasion reporting requirement; Third party disclosure requirement.

Total Annual Burden: 17,372 hours.

Total Annual Costs: \$68,901,963.

Obligation To Respond: Required to obtain or retain benefits. The statutory authority for this collection of information is contained in Sections 154(i), 303 and 308 of the Communications Act of 1934, as amended.

Nature and Extent of Confidentiality: There is no need for confidentiality with this collection of information.

Privacy Impact Assessment(s): No impact(s).

Needs and Uses: FCC Form 301 is used to apply for authority to construct a new commercial AM, FM, or TV broadcast station and to make changes to existing facilities of such a station. It may be used to request a change of a station's community of license by AM and non-reserved band FM permittees and licensees. In addition, FM licensees or permittees may request, by filing though an application on FCC Form 301, upgrades on adjacent and co-channels, modifications to adjacent channels of the same class, and downgrades to adjacent channels. All applicants using this one-step process must demonstrate that a suitable site

exists that would comply with allotment standards with respect to minimum distance separation and principal community coverage and that would be suitable for tower construction. For applicants to seek a community of license change through this one-step process, the proposed facility must be mutually exclusive with the applicant's existing facility, and the new facility must comply with the Commission's standards with respect to minimum distance separation and principal community coverage. Applicants availing themselves of this procedure must also attach an exhibit demonstrating that the proposed community of license change comports with the fair, efficient, and equitable distribution of radio service, pursuant to Section 307(b) of the Communications Act of 1934, as amended (the "Act").

FCC Form 301 also accommodates commercial FM applicants applying in a Threshold Qualifications Window ("TQ Window") for a Tribal Allotment. A commercial FM applicant applying in the TQ Window, who was not the original proponent of the Tribal Allotment at the rulemaking stage, must demonstrate that it would have qualified in all respects to add the particular Tribal Allotment for which it is applying. Additionally, a petitioner seeking to add a Tribal Allotment to the FM Table of Allotments must file Form 301 when submitting its Petition for Rulemaking. The collection also accommodates applicants applying in a TQ Window for a Tribal Allotment that had been added to the FM Table of Allotments using the Tribal Priority under the new "threshold qualifications" procedures adopted in the Third R&O, FCC 11–190.

To receive authorization for commencement of Digital Television ("DTV") operations, commercial broadcast licensees must file FCC Form 2100, Schedule A for a construction permit. The application may be filed anytime after receiving the initial DTV allotment and before mid-point in the applicant's construction period. The Commission will consider the application as a minor change in facilities. Applicants will not have to provide full legal or financial qualification information.

This collection also includes the third party disclosure requirement of 47 CFR 73.3580. This rule requires applicants to provide local public notice, in a newspaper of general circulation published in a community in which a station is located, of requests for new or major changes in facilities and for changes of a station's community of license by AM and non-reserved band
