Notice is hereby given that, for a period of 30 days, the United States will receive public comments on a proposed Consent Decree in *United States et al. v. Hyundai Motor Company et al.* (Civil Action No. 1:14-cv-1837), which was lodged with the United States District Court for the District of Columbia on November 3, 2014. (collectively, "Defendants") for violations of the Act. The California Air Resources Board joins the United States as co-plaintiff and seeks civil penalties for related violations of California Health and Safety Code Section 43212. Under the settlement, the Defendants will pay a civil penalty of \$100 million, with \$93,656,600 paid to the United States, and \$6,343,400 paid to the California Air Resources Board. The Defendants will also reduce the number of greenhouse gas emission credits claimed in their Averaging, Banking, and Trading reports by a total of 4.75 million credits. JUSTICE DEPARTMENT

Drug Enforcement Administration

Martin L. Korn, M.D.; Decision and Order

On August 23, 2013, I, the Deputy Administrator of the Drug Enforcement Administration, issued an Order to Show Cause and Immediate Suspension of Registration (hereinafter, OTSC/ISO or Order) to Martin L. Korn, M.D. (hereinafter, Registrant). GX 1, at 1. The OTSC/ISO proposed the revocation of Registrant's DEA Certificate of Registration, pursuant to which he was authorized to dispense controlled substances as a practitioner, based on allegations that on "[o]n twelve separate occasions" between February 20 and

June 24, 2013, Registrant prescribed controlled substances including alprazolam (schedule IV) and Adderall (schedule II), "to three law enforcement officers working in an undercover capacity . . . without a legitimate medical purpose and/or outside the usual course of professional practice." *Id.* at 1-2 (citing 21 CFR 1306.04(a)). Based on the above, I further concluded that Registrant's "continued registration while these proceedings [were] pending constitutes an imminent danger to the public health and safety" and ordered that his registration be immediately suspended. *Id.* at 3 (citing 21 U.S.C. § 824(d)). The OTSC/ISO also notified Registrant of his right to request a hearing on the allegations or to submit a written statement in lieu of a hearing, the procedures for electing either option, and the consequence of failing to elect either option. *Id.* at 3-4 (citing 21 CFR 1301.43).

On September 5, 2013, a DEA Special Agent served Registrant with the OTSC/ISO at the Westchester County District Attorney's Office. GX 2. According to the Government, Registrant has not requested a hearing on the allegations nor otherwise responded to the OTSC. Request for Final Agency Action, at 1. Based on the Government's representation, I find that more than thirty (30) days have now passed since the OTSC/ISO was served on Registrant and that he has neither requested a hearing nor submitted a written statement in lieu of a hearing. I therefore find that Registrant has waived his right to a hearing or to submit a written statement in lieu of a hearing. 21 CFR 1301.43(d). I make the following findings.

Registrant previously held a DEA Certificate of Registration, pursuant to which he was authorized to dispense controlled substances as a practitioner at registered premises located in Larchmont, New York. On December 31, 2013, this registration expired. GX 3, at 1. According to the Agency's registration records, Registrant has not filed a renewal application.

Pursuant to the authority granted by 21 U.S.C. § 824(f), DEA seized approximately 300 dosage units of various controlled substances which apparently were in prescription vials, some of which bore the names of patients. GX A, at 2. The drugs included two vials containing 144 and 19 dosage units of lorazepam .5mg bearing labels listing the patients as A.K. and C.A. respectively; a vial containing 16 tablets of phentermine 37.5mg bearing a label listing the patient as J.L.; a vial containing 80 tablets of oxazepam, its label having been ripped off; a vial

containing 13 tablets of temazepam 15mg bearing a label listing the patient as K.M.; a vial containing 10.5 tablets of hydrocodone 10/325 bearing a label listing the patient as A.K.; and vials containing 11 tablets of Lyrica 50mg and 6 tablets of Lyrica 25mg, neither of which had a patient name. *Id.*

On April 10, 2014, DEA's New York Field Division wrote to Registrant noting that following the expiration of his DEA registration, he no longer had authority to handle controlled substances. *Id.* at 1. The letter further informed him that under federal law, the Agency was authorized to dispose of the drugs 180 days after the date on which they had been seized. *Id.* However, the letter instructed Registrant that "[i]n the event you wish to transfer title to the controlled substances to a registered successor in interest, you may notify this office within thirty (30) days from the date of this letter to make arrangements for such a transfer. . . . However, if you fail to notify the office within thirty days, DEA will dispose of . . . the controlled . . . substances it currently holds." *Id.* According to the Government, Registrant did not respond to the letter. *See Gov. Suggestion of Mootness*, at 1.

Discussion

While the Government initially filed a Request for Final Agency Action, it now suggests that this case is moot because Registrant has allowed his registration to expire and "there is no need to determine title to the controlled substances that were seized." *Id.* at 2. I agree.

Ordinarily, where a registrant allows his registration to expire and also fails to file a renewal application, there is neither a registration to revoke nor an application to act upon, thus rendering the case moot. *See, e.g., Ronald J. Riegel*, 63 FR 67132 (1998). DEA, however, has recognized a limited exception to this rule in cases which commence with the issuance of an immediate suspension order because of the collateral consequences which may attach with the issuance of such a suspension. *See William R. Lockridge*, 71 FR 77791, 77797 (2006). Such "collateral consequences" may include the loss of title to any controlled substances that have been seized pursuant to the immediate suspension order, *see* 21 U.S.C. § 824(f), harm to reputation, and having to report the suspension on future applications to either this Agency or a state board. *See Lockridge*, 71 FR at 77797.

While this case commenced with the issuance of an immediate suspension order, I nonetheless conclude it is now
