

have, or have not, deployed overseas so that various longitudinal health and research studies may be conducted over a 67-year period. The database will be used:

a. To systematically collect population-based demographic and health data to evaluate the health of Armed Forces personnel throughout their careers and after leaving the service.

b. To evaluate the impact of operational deployments on various measures of health over time including medically unexplained symptoms and chronic diseases to include cancer, heart disease and diabetes.

c. To serve as a foundation upon which other routinely captured medical and deployment data may be added to answer future questions regarding the health risks of operational deployment, occupations, and general service in the Armed Forces.

d. To examine characteristics of service in the Armed Forces associated with common clinician-diagnosed diseases and with scores on several standardized self-reported health inventories for physical and psychological functional status.

e. To provide a data repository and available representative Armed Forces cohort that future investigators and policy makers might use to study important aspects of service in the Armed Forces including disease outcomes among an Armed Forces cohort.

In addition to revealing changes in veterans' health status over time, the Millennium Cohort Study will serve as a data repository, providing a solid foundation upon which additional epidemiological studies may be constructed.

f. To access the associations of military service on the health and well-being of military families, and to compare the adjusted probabilities of new onset diseases and conditions among military spouses."

[Docket No. CP15–7–000]

Dominion Transmission, Inc.; Notice of Application

Take notice that on October 22, 2014, Dominion Transmission, Inc. (DTI), 120 Tredegar Street, Richmond, Virginia 23219, filed in Docket No. CP15–7–000, an application pursuant to section 7(c) of the Natural Gas Act and Part 157 of the Commission's regulations, for a certificate of public convenience and necessity to construct and operate its Monroe to Cornwell Project. The project consists of: (i) 12,552 of horsepower (hp) at its L.L. Tonkin Station in Doddridge County, West Virginia; (ii) additional gas coolers at its Mockingbird Compressor Station in Wetzel County, West Virginia; and (iii) measurement and regulation facilities and compressor unit modifications at its Cornwell Compressor Station in Kanawha County, West Virginia. The project is designed to provide up to 205,000 dekatherms per day of incremental firm transportation service on DTI's system. DTI proposes an initial incremental rate to recover the approximately \$66,383,675 cost of the Project, all as more fully set forth in the application, which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208–3676 or TTY, (202) 502–8659.

Any questions regarding this application should be directed to Richard D. Jessee, Gas Transmission Regulatory and Certificates Analyst III, Dominion Transmission, Inc., 701 East Cary Street, Richmond, Virginia 23219, phone: (804) 771–3704, fax: (804) 771–4804, or email: richard.jessee@dom.com.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final
